

Patricia Sammann Chair Public Arts

Michelle Kazensky

Patricia Sammann Chair Public Arts:

Active Youth Patricia Sammann, 1998 This essential reference provides you with real life examples of how the Guidelines for School and Community Programs to Promote Lifelong Physical Activity Among Young People developed by the Centers for Disease Control and Prevention CDC can be implemented in a wide variety of settings from schools to hospitals to YMCAs It also gives you an easy to understand summary of these guidelines The information is presented as 10 broad recommendations for schools and community programs each followed by a more detailed description To bring the recommendations to life the book includes 20 examples of effective programs that address the CDC's guidelines You'll learn how each program began how it was developed how roadblocks were overcome and how successes were achieved Cross references to the guidelines help you determine which recommendations are being followed in each program

The Power of Virtual Reality Cinema for Healthcare Training John Bowditch, Eric R. Williams, 2021-10-11 Cinematic Virtual Reality brings a combination of documentary narrative and game design principles to the medical profession and in the healthcare arena collaboration is a key component for creating intellectually and emotionally rich immersive experiences The Power of Virtual Reality Cinema for Healthcare Training gathers more than a dozen experts from both the production and healthcare fields to break down best practices for creating successful cine VR projects Designed for multi disciplinary teams interested in integrating cine VR production into their healthcare training and educational programs this book has been written for two audiences the healthcare professional interested in what production experts consider when approaching a project and the media expert curious about how this new technology can be used in the medical field Highlights include Cutting edge medical education techniques developed by Ohio University's GRID Lab including PREality creating a forced sense of déjà vu to increase acclimation time a unique approach to eye tracking to enhance team performance and the low CRIS technique a low cost rapid implementation strategy to capture patient care for rapid graduate student training Insightful production techniques that will enhance your cine VR projects including advanced plating methods to hide lighting set ups immersive audio considerations and new ways to consider 360 storytelling including the Lovrick montage and the Christmas Carol continuum for story development Detailed explanations of the production considerations and results of specific cine VR productions from funding approaches to distribution including access to more than five hours of cine VR examples of the actual productions available for download Details on a wide variety of medical cine VR projects including 100 images that illustrate best practices for topics such as recording in active medical facilities building successful multi disciplinary teams working within HIPAA regulations conceptualizing cine VR libraries for graduate education and implementing innovative distribution models
