Performance Management in Healthcare Bryan P. Bergeron,2017-12-01 Performance management often referred to as process management is a strategy that can be used to achieve an optimum mix of quality safety patient satisfaction and solvency The basis of performance management is the effective use of resources as measured by quantifying processes and outcomes using key performance indicators KPIs core measures that gauge the performance of an organization in particular areas There is more to performance management than selecting a few KPIs from a list and feeding them into a graphical dashboard system It s about behavior change leadership and vision Written for administrators clinical staff process improvement managers and information technology personnel of healthcare organizations this second edition provides the knowledge necessary to provide the leadership and vision for a performance measurement initiative This practical resource provides a high level review of the quality safety initiatives in healthcare describes the implementation process from an IT perspective and offers high level clinical financial and cultural details It features an extensive listing of clinical and non clinical KPIs a glossary including financial medical and operational terms and appendices of organizations and sources of indicators and benchmarks
