Rta Concrete Pavement Manual:

The Handbook of Highway Engineering T.F. Fwa, 2005-09-28 Modern highway engineering reflects an integrated view of a road system's entire lifecycle including any potential environmental impacts and seeks to develop a sustainable infrastructure through careful planning and active management This trend is not limited to developed nations but is recognized across the globe Edited by renowned authority *Roads 96*, 1996 **Road & Transport Research**, 2002

CAL/APT Program John T. Harvey, 1999 This report is one of a series detailing the results of the CAL APT program a research effort being performed jointly by the University of California Berkeley Pavement Research Center and the California Department of Transportation Caltrans It contains an evaluation of the performance of asphalt treated permeable base ATPB in asphalt concrete pavements The evaluation is based on observation laboratory testing of ATPB and computer simulation of representative pavement structures **Material Characterization and Performance Properties of Superpave**

Mixtures Akhtarhusein Asgarali Tayebali, Yuanxiong Huang, 2004 *CAL/APT Program*, 1999 Selection of Flexible Pavement Backcalculation Software for the Minnesota Road Research Project David A. Van Deusen, 1996 This report presents the results of an evaluation process of several different flexible pavement backcalculation programs The objective of this study was to compare the performance of the candidate programs in terms of useability and accuracy of backcalculation results This was accomplished by evaluating the selected programs using both field and simulated data The results of the analysis were used as the basis for selecting a program for routine analysis of Mn ROAD pavement deflection data In situ pavement strains were measured during falling weight deflectometer tests The measured strains were then compared to backcalculated strain values from each program In addition to the field tests a series of hypothetical pavement structures with a range of prescribed layer thicknesses and moduli were analyzed to obtain surface deflection data These surface deflections were then used as input for each program involved in the study The output from each program was compared to the expected values *Annual Report Roads and Traffic Authority of New South Wales*, 1997 Transportation Research Record, 1998 Catalog of Copyright Entries.
