explores the church's role as exemplar in striving towards the fulfillment of God's promise of peace, health and diversity to his Kingdom. An insightful work in theological ethics. *Waiting in Christian Traditions* Joanne Robinson, 2015-12-17 Christians wait for prayers to be answered for an afterlife in heaven for the Virgin Mary to appear and for God to speak. They wait to be liberated from oppression to be saved or born again for Easter morning to dawn for healing for conversion and for baptism. Waiting and the disappointment and hope that often accompany it are explained in terms that are at first glance remarkably invariant across Christian traditions: what will happen will happen on God's time. A study of sources from across Christian traditions shows that there is considerable complexity beneath this surface claim. Understandings of free will and personal agency alongside shifts in institutional and theological commitments change the ways waiting is understood and valued. Waiting is often considered a positive state to be endured as long as God wills and that fundamental understanding helps keep the promises at the heart of Christianity alive. Scholars have long overlooked the problem and promise of waiting despite or perhaps because of its prevalence. Indeed there are relatively few mystics, few who have undergone sudden conversion and few who have attained saintly status. Many however have waited and that problem remains prominent and its solutions remain influential in Christian traditions today. *Should We Live Forever?* Gilbert Meilaender, 2013-01-14 In *Should We Live Forever* Christian ethicist Gilbert Meilaender puzzles over the implications of the medical advances that have lengthened the human life span, wrestling with what this quest for living longer means for our conception of living well and completely. As he points out in his introduction, "That we often desire even greedily longer life is clear; whether what we desire is truly desirable is harder to say." The six chapters of this book take multiple perspectives on issues surrounding aging and invite readers to consider whether indefinitely more life is something worth pursuing and if humans are created for life with God, whether longer life will truly satisfy our underlying hunger. **Having** William Schweiker, Charles T. Mathewes, 2004 In today's market economies people constitute much of their identity in relation to the things they possess and communities facilitate social intercourse and survival by means of property relations. What if anything might the study of the biblical religions contribute to thinking about and responding to the basic reality of having? In this book scholars in a variety of fields: theology, ethics, economics and biblical studies address in new and penetrating ways the meaning of having in religious and social life and offer a number of compelling answers to challenging questions about property and possession in our present global age. *Research in the Social Scientific Study of Religion, Volume 18* Ralph L.
