the purposes of effecting change *Document Production in International Arbitration* Reto Marghitola, 2015-10-20 Because document production can discover written evidence that would otherwise not be available it is often the key to winning a case However document production proceedings can be a costly and time consuming exercise and arbitral awards in particular are often challenged on grounds that relate to document production orders The task of balancing the conflicting interests of the parties in this context is a major responsibility of arbitral tribunals This book's analysis focuses on whether there exist legal principles on which arbitrators should establish rules of document production in both civil law and common law countries and shows how international arbitration is affected The author examines the relevant discretion of arbitral tribunals under US English Swiss German and Austrian law and under nine of the most important sets of institutional rules including the ICC Rules the LCIA Rules and the Swiss Rules The presentation mines case law and legal literature for concepts based on the common expectations of the parties the legitimate expectations of a party the duty to balance different procedural expectations of the parties the presumed intent of the parties the underlying hypothetical bargain implied terms and the arbitrators discretion Among the topics and issues investigated are the following procedural rules on document production versus procedural flexibility how arbitral tribunals can modify the IBA Rules on a case by case basis discretion granted by legislation in each country covered electronic document production how to deal with privilege and confidentiality objections how to formulate or answer document production requests effective sanctions in case of non compliance with procedural orders of the arbitral tribunal what grounds for annulment and non enforcement a losing party can raise in what countries Perhaps the greatest benefit of the book is the inclusion of model clauses commensurate with both civil law and common law expectations The author explicates the advantages and inconveniences of each model clause and clarifies the influence of each clause on the efficiency of the proceedings and the enforcement risk For practitioners the book not only gives counsel a thorough overview of possible arguments for and against document production but also assists arbitrators find a way through the jungle of opinions on the interpretation of the IBA Rules Legal academics will appreciate the author's deeply informed analysis and commentary and the book's contribution to increasing the predictability of arbitral decisions on document production and showing how issues in dispute can be narrowed by tailor made rules thus helping to raise the efficiency and reduce the costs of arbitral proceedings **The Attorney-client Privilege and the Work-product**

Liability Insurance in International Arbitration Richard Jacobs, Lorelie S Masters, Paul Stanley KC, 2021-11-04 This is the third revised edition of what was described by the English Court of Appeal in *C v D* as the standard work on Bermuda Form excess insurance policies The Form first used in the 1980s covers liabilities for catastrophes such as serious explosions or mass tort litigation and is now widely used by insurance companies It is unusual in that it includes a clause requiring disputes to be arbitrated under English procedural rules in

London but subject to New York substantive law This calls for a rare mix of knowledge and experience on the part of the lawyers involved each of whom is required to confront the many differences between English and US law and legal culture In addition since the awards of arbitrators are confidential and are not subject to the scrutiny of the courts the book helps professionals understand the Form s lengthy and complex provisions The book first published in 2004 was the first comprehensive analysis of the Bermuda Form It is frequently cited in Bermuda Form arbitrations and was the joint winner in 2012 of British Insurance Law Association Book Prize for the most notable contribution to literature in the field of law as it affects insurance It offers a detailed commentary on how the Form is to be construed its coverage the substantive law to be applied the limits of liability exceptions and of course the procedures to be followed during arbitration proceedings in London The book will prove invaluable to lawyers risk managers and executives of companies which purchase insurance on the Bermuda Form and to clients lawyers or arbitrators involved in disputes arising therefrom This title is included in Bloomsbury Professional s International Arbitration online service **The Air Force Law Review** ,2000 *The Army Lawyer* ,2003 Cumulated Index Medicus ,1989 **Confidentiality** Charles D. Levin,Allanah Furlong,Mary Kay O'Neil,2014-04-04 The distinguished contributors to Confidentiality probe the ethical legal and clinical implications of a deceptively simple proposition Psychoanalytic treatment requires a confidential relationship between analyst and analysand But how they ask should we understand confidentiality in a psychoanalytically meaningful way Is confidentiality a therapeutic requisite of psychoanalysis an ethical precept independent of psychoanalytic principles or simply a legal accommodation with the powers that be In wrestling with these questions the contributors to Confidentiality are responding to a professional ethical and political crisis in the field of mental health Psychotherapy especially long term psychotherapy in its psychoanalytic variants has been undermined by an erosion of personal privacy that has become part of our cultural zeitgeist The heightened demand for public transparency has forced caregivers from all walks of professional life to submit to increasing bureaucratic regulation For the contributors to this collection the need for confidentiality is centrally involved in the relationship of the psychotherapeutic professions both to society and to the law No less importantly the requirement of confidentiality brings a clarifying perspective to debates within the psychotherapeutic literature about the relationship of theory to practice It thereby provides a framework for shaping a set of ethical principles specifically adapted to the psychotherapeutic and especially to the psychoanalytic relationship Linking general issues of privacy to the intimate details of psychotherapeutic encounter Confidentiality will serve as a basic guide to a wide range of professionals including lawyers social scientists philosophers and of course psychotherapists Therapy patients policy makers and the wider public will also find it instructive to know more about the special protected conditions under which one can better come to know thyself

The Profession and Practice of Medieval Canon Law James A. Brundage,2024-10-28 This latest collection of studies by James Brundage deals with the emergence of the profession of canon law and with aspects of its practice in the period

from the 12th to the 14th centuries Substantial numbers of lawyers systematically trained in canon law first appeared in Western Europe during the second half of the 12th century and in the 13th they began to dominate the hierarchy of the Western church By 1250 canon law had grown into something more than a profitable occupation it had become a recognizable profession in the strict meaning of the term as it is still used today University law faculties trained aspiring canonists in the mysteries of their craft and put them through intellectually demanding exercises that terminated in a formal examination before they received their degrees Judges in church courts formally admitted them to practice after verifying their educational qualifications and administered prescribed rules of conduct Particular topics are the canonists system of legal ethics the education and training of canon lawyers in university law faculties and some fundamental features of the professional practice of canon law both in medieval Europe and in the crusading states of the Levant Canadian criminal cases ,2001 *Investigation of Philippine Investments in the United States* United States.
