Robinson,2005-04-07 Deeper than Reason takes the insights of modern psychological and neuroscientific research on the emotions and brings them to bear on questions about our emotional involvement with the arts Robinson begins by laying out a theory of emotion one that is supported by the best evidence from current empirical work on emotions and then in the light of this theory examines some of the ways in which the emotions function in the arts Written in a clear and engaging style her book will make fascinating reading for anyone who is interested in the emotions and how they work as well as anyone engaged with the arts and aesthetics especially with questions about emotional expression in the arts emotional experience of art forms and more generally artistic interpretation Part One develops a theory of emotions as processes having at their core non cognitive instinctive appraisals deeper than reason which automatically induce physiological changes and action tendencies and which then give way to cognitive monitoring of the situation Part Two examines the role of the emotions in understanding literature especially the great realistic novels of the nineteenth century Robinson argues that such works need to be experienced emotionally if they are to be properly understood A detailed reading of Edith Wharton s novel The Reef demonstrates how a great novel can educate us emotionally by first evoking instinctive emotional responses and then getting us to cognitively monitor and reflect upon them Part Three puts forward a new Romantic theory of emotional expression in the arts Part Four deals with music both the emotional expression of emotion in music whether vocal or instrumental and the arousal of emotion by music The way music arouses emotion lends indirect support to the theory of emotion outlined in Part

One While grounded in the science of emotion *Deeper than Reason* demonstrates the continuing importance of the arts and humanities to our lives *Making Sense of Emotion* Frank John Ninivaggi, 2017-08-31 Children not shown tools to develop emotional intelligence fail emotionally and socially Basic empathy skills are absent In adult life employment and occupational advancement are less likely *Making Sense of Emotion* grasps the Yale integrative emotional intelligence ability model Adding key missing elements this book unlocks its potential to trigger emotion performance utilization in real life and real time The epidemic of overusing medications substance use disorders addiction drug overdoses even global doping in sports reflects emotional malaise Emotional illiteracy is one underlying cause and demands innovative emotional intelligence Written by a psychiatrist this volume supplies literacy tools a vivid action language showing how emotions unfold as personal dramas Emotions are our first language the mother tongue infants and children are lived by Emotional awareness is refined emotional intelligence This book clearly defines emotions feelings affects moods and the social emotional competencies needed to understand and build emotional awareness Skills take shape resulting in unfolding self attunement In real time emotional intelligence is effective emotional performance The missing link between the two is the application of emotion regulation in real life knowledge in the head displayed in skilled everyday behavior Innovative ideas in this book explain how to apply this emotional hygiene fitness program to benefit children and adults **Emotion: The Essence Of Life** Kuldip Kumar Dhiman, 2008

The Science of Sympathy Rob Boddice, 2016-11-11 In his *Descent of Man* Charles Darwin placed sympathy at the crux of morality in a civilized human society His idea buttressed the belief that white upper class educated men deserved their sense of superiority by virtue of good breeding It also implied that societal progress could be steered by envisioning a new blueprint for sympathy that redefined moral actions carried out in sympathy s name Rob Boddice joins a daring intellectual history of sympathy to a portrait of how the first Darwinists defined and employed it As Boddice shows their interpretations of Darwin s ideas sparked a cacophonous discourse intent on displacing previous notions of sympathy Scientific and medical progress demanded that cruel practices like vivisection and compulsory vaccination be seen as moral for their ultimate goal of alleviating suffering Some even saw the so called unfit natural targets of sympathy as a danger to society and encouraged procreation by the fit alone Right or wrong these early Darwinists formed a moral economy that acted on a new system of ethics reconceptualized obligations and executed new duties Boddice persuasively argues that the bizarre even dangerous formulations of sympathy they invented influence society and civilization in the present day

Emotional Awareness The Dalai Lama, Paul Ekman, 2008-09-16 Two leading thinkers engage in a landmark conversation about human emotions and the pursuit of psychological fulfillment At their first meeting a remarkable bond was sparked between His Holiness the Dalai Lama one of the world's most revered spiritual leaders and the psychologist Paul Ekman whose groundbreaking work helped to define the science of emotions Now these two luminaries share their thinking about science and spirituality the bonds between East and West and the nature and quality of our emotional lives In this unparalleled series of conversations the Dalai Lama and Ekman prod and push toward answers to the central questions of emotional experience What are the sources of hate and compassion Should a person extend her compassion to a torturer and would that even be biologically possible What does science reveal about the benefits of Buddhist meditation and can Buddhism improve through engagement with the scientific method As they come to grips with these issues they invite us to join them in an unfiltered view of two great traditions and two great minds Accompanied by commentaries on the findings of emotion research and the teachings of Buddhism their interplay amusing challenging eye opening and moving guides us on a transformative journey in the understanding of emotions

On the Way to Fun Roberto Dillon, 2010-03-08 How can video games be fun and immerse players in fantastic worlds where anything seems possible How can they be so engaging to have become the main entertainment product for children and adults alike In *On the Way to Fun* the author proposes a possible answer to these questions by going back to the roots of gaming and showing how early games as

Poetics of Cinema David Bordwell, 2012-11-12 Bringing together twenty five years of work on what he has called the historical poetics of cinema David Bordwell presents an extended analysis of a key question for film studies how are films made in particular historical contexts in order to achieve certain effects For Bordwell films are made things existing within historical contexts and aim to create determinate effects Beginning with this central thesis Bordwell works

out a full understanding of how films channel and recast cultural influences for their cinematic purposes With more than five hundred film stills *Poetics of Cinema* is a must have for any student of cinema *Emotion: All That Matters* Sandi Mann, 2014-08-29 Despite decades of debate psychologists are still undecided on what exactly emotion is This book will help students and general readers to explore emotion and reach their own conclusions The fascinating and sometimes controversial topics covered include what emotions actually are how they are portrayed and recognised why negative emotions arise and how they can be managed whether emotion can be effectively faked or hidden and how emotions affect decision making A final chapter The route to happiness discusses the most sought after emotion of all and asks how the research around emotion can be applied practically **An Introduction to Buddhist Psychology and Counselling** Padmasiri De Silva, 2014-04-08 This book now in its fifth edition provides a comprehensive introduction to Buddhist psychology and counselling exploring key concepts in psychology and practical applications in mindfulness based counselling techniques using Buddhist philosophy of mind psychology ethics and contemplative methods *Destructive Emotions* Daniel Goleman, 2008-11-19 Why do seemingly rational intelligent people commit acts of cruelty and violence What are the root causes of destructive behavior How can we control the emotions that drive these impulses Can we learn to live at peace with ourselves and others Imagine sitting with the Dalai Lama in his private meeting room with a small group of world class scientists and philosophers The talk is lively and fascinating as these leading minds grapple with age old questions of compelling contemporary urgency Daniel Goleman the internationally bestselling author of *Emotional Intelligence* provides the illuminating commentary and reports on the breakthrough research this historic gathering inspired *Destructive Emotions* Buddhist philosophy tells us that all personal unhappiness and interpersonal conflict lie in the three poisons craving anger and delusion It also provides antidotes of astonishing psychological sophistication which are now being confirmed by modern neuroscience With new high tech devices scientists can peer inside the brain centers that calm the inner storms of rage and fear They also can demonstrate that awareness training strategies such as meditation strengthen emotional stability and greatly enhance our positive moods The distinguished panel members report these recent findings and debate an exhilarating range of other topics What role do destructive emotions play in human evolution Are they hardwired in our bodies Are they universal or does culture determine how we feel How can we nurture the compassion that is also our birthright We learn how practices that reduce negativity have also been shown to bolster the immune system Here too is an enlightened proposal for a school based program of social and emotional learning that can help our children increase self awareness manage their anger and become more empathetic Throughout these provocative ideas are brought to life by the play of personalities by the Dalai Lama s probing questions and by his surprising sense of humor Although there are no easy answers the dialogues which are part of a series sponsored by the Mind and Life Institute chart an ultimately hopeful course They are sure to spark discussion among educators religious and political leaders parents and all people who seek peace for themselves and the

world The Mind and Life Institute sponsors cross cultural dialogues that bring together the Dalai Lama and other Buddhist scholars with Western scientists and philosophers Mind and Life VIII on which this book is based took place in Dharamsala India in March 2000
