1. Translate into English:

Encounter in the rain.

Nous étions un dimanche. Il était six heures du soir. La rue s'était changée en torrent. Mon violon sous le bras, j'attendais, devant la porte d'entrée, la fin de l'orage.

Quelqu'un vint se poster à mes côtés, mais je ne pris pas garde à lui. Comme moi, sans doute, il s'impatientait de toute cette obscurité et de toute cette pluie.

Peu à peu il cessait de pleuvoir. Je n'entendis enfin que le bruit, presque imperceptible, que faisaient les gouttes en tombant une à une du toit. Une voix! Qui donc me parlait?

Cela paraissait provenir de si loin, tout à fait comme dans un songe. Je me retournai brusquement et je reconnus le visage étrange que j'avais vu tout à l'heure. "Je voudrais parler de musique un peu . . ."

O Level French Paper November 2009:

The French White Paper on Defence and National Security France. Commission du Livre blanc sur la défense et la sécurité nationale, 2008-07-15 The French White Paper on Defence and National Security sets forth a detailed roadmap for defending the nation's territory and security interests in a globalised world. It also describes how France can contribute to a wider and more effective role for Europe on the international scene. Upon being elected President of the French Republic, Nicolas Sarkozy appointed a wide-ranging Commission to appraise France's defence and security strategy. The resulting White Paper surveys today's uncertain world and addresses key questions in the field of international security. It embraces European developments, the transatlantic partnership, the evolution of the United Nations and the changing position of the Western world and its relations with the Asian and African powers. It tackles key changes in French defence and security policy in the coming years and the essential role of knowledge-based security and intelligence gathering, nuclear deterrence, the protection of citizens as well as of French and European territory and future operations abroad. The book considers questions that lie at the heart of modern military and political strategy. Issues dealt with include Jihadist inspired terrorism, proliferation of ballistic missiles, preparing for massive cyber attacks, the future shapes of warfare and the tools for building peace that globalisation affords. This White Paper will interest everyone concerned about international security and the role of citizens in contributing to their own security.

Handbook of Research on Geographic Information Systems

Applications and Advancements Faiz, Sami, Mahmoudi, Khaoula, 2016-10-21 The proper management of geographic data can provide assistance to a number of different sectors within society. Highlighting theoretical frameworks and relevant applications, this book is an ideal reference source for researchers, academics, professionals and students actively involved in the field of geographic information systems.

Disaggregated Impacts of CAP Reforms: Proceedings of an OECD Workshop

OECD, 2011-02-08 This report collects papers presented at the OECD Workshop on Disaggregated Impacts of CAP Reforms held in Paris in 2010, which focused on recent reforms. In particular, it examined the implementation of the single payment scheme since 2005 and the transfer of funds between different measures.

The Protection of Working Relationships

Frans Pennings, Claire Bosse, 2011-01-01 In recent years, it has become clear that many businesses, motivated by avoiding the rigidity and the price tag associated with labour law and social security, have succeeded in eroding the protection of labour law by creating numerous categories of workers classified as non-employees. In 1996, the International Labour Organisation (ILO) adopted Recommendation 198, which asks its Members to undertake action to reduce disguised employment relationships, with the goal of ensuring that those actually working in an employment relationship are actually given the

corresponding legal status Though these are from a legal approach two conceptually different phenomena they are closely related from a social policy point of view In order to make a substantial contribution to the discussion on these developments a group of noted European labour law scholars has undertaken the research assembled in this book recommending labour law reforms based on a close examination of existing conditions The eight authors analyse measures and legal instruments offered by the European Union and the ILO to cover persons performing personal work as well as specific developments in Belgium France The Netherlands Poland Germany and the United Kingdom In each case they describe viable ways in which categories of persons not treated as employees can be brought under the protection of labour law and how the distinction between employees and self employed can become more clear In a concluding final Chapter comparative conclusions are drawn on the basis of this study and recommendations are given to the EU the ILO and the individual Member States Among the specific issues covered are the following redefining the subordination criterion the role of the courts determination of the contract of employment forms of labour involving more than two contracting parties e g employment agency arrangements the legal position of temporary workers employee like persons e g home workers or commercial representatives the bogus self employed introduction and effect of legal presumptions in labour law and or social security developing uniform criteria for the employment relationship criteria for identifying self employed but economically dependent workers extension of protection of labour law to persons other than employees or the self employed and social rights applicable to all work contracts irrespective of their formal qualification floor of core rights This study seriously contributes toward overcoming the reluctant and piecemeal measures commonly taken to extend the protection of the employment contract Although the authors acknowledge the continuing tension between labour law protection and the need for a flexible workforce they also recognize the positive effects of best practices that lead to more certainty fewer disputes and clear but still flexible if necessary agreements The book will be warmly welcomed as a signal contribution to addressing what one labour law scholar has called the most important industrial relations issue of our time

Global Warming Ishita Haldar, Global warming and climate change have become an issue of great concern Now as the world is getting technologically and industrially more advanced resulting in the setting up of huge factories the environmental pollution is heading towards alarming levels It is obvious that more factories mean more pollution and more carbon emissions which highly aggravate global warming Keeping this in view the policy makers from all over the world have decided to unite and chalk out a plan to keep the adverse effects of global warming within safety limits This book is also an effort in this direction Defining in detail the major aspects of global warming it discusses at length its causes and effects Taking a close look at the global response to contain global warming it also explains the important provisions of Copenhagen Summit Kyoto Protocol and Post Kyoto Protocol Negotiations on Green house Gas Emissions

India Patrick French, 2011-06-07 A monumental biography of the subcontinent from the award winning author of *The World Is What It Is* The Authorized Biography of V S Naipaul Second only to China in the magnitude of its economic miracle and second to none in its potential to shape the new century India is fast undergoing one of the most momentous transformations the world has ever seen In this dazzlingly panoramic book Patrick French chronicles that epic change telling human stories to explain a larger national narrative Melding on the ground reports with a deep knowledge of history French exposes the cultural foundations of India s political economic and social complexities He reveals how a nation identified with some of the most wretched poverty on earth has simultaneously developed an envied culture of entrepreneurship here are stories like that of C K Ranganathan who trudged the streets of Cuddalore in the 1980s selling sample packets of shampoo and now employs more than one thousand people And even more remarkably French shows how despite the ancient and persistent traditions of caste as well as a mind boggling number of ethnicities and languages India has nevertheless managed to cohere evolving into the world s largest democracy largely fulfilling Jawaharlal Nehru s dream of a secular liberal order French s inquiry goes to the heart of all the puzzlements that modern India presents Is this country actually rich or poor Why has its Muslim population the second largest on earth resisted radicalization to such a considerable extent Why do so many children of Indians who have succeeded in the West want to return home despite never having lived in India Will India become a natural ally of the West a geostrategic counterweight to the illiberal rising powers China and Russia To find the answers French

seeks out an astonishing range of characters from Maoist revolutionaries to Mafia dons from chained quarry laborers to self made billionaires And he delves into the personal lives of the political elite including the Italian born Sonia Gandhi one of the most powerful women in the world With a familiarity and insight few Westerners could approach Patrick French provides a vital corrective to the many outdated notions about a uniquely dynamic and consequential nation His India is a thrilling revelation

With, Without, or Against the State? Michaël Tatham, 2016-06-23 Much research has highlighted that sub state entities SSEs such as the German Länder the Spanish autonomous communities or the French regions mobilise at the European level This literature however is silent on how this sub state activity interacts with that of its own member state Do SSEs lobby in Brussels with their member state cooperation without their member state non interaction or against their member state conflict This book fills the current research gap by identifying what pattern of interaction between state and sub state EU interest representation corresponds to and by identifying what the determinants of such a pattern are To achieve this both quantitative and qualitative methods are employed The quantitative section consists of regression analysis on data collected through a survey addressed to heads of regional offices in Brussels and highlights that cooperation is the most frequent outcome followed by non interaction Conflicting interest representation is the least frequent outcome Further analysis reveals that devolution levels do not affect conflict but increase the frequency of cooperation and decrease that of non interaction Meanwhile party political incongruence fails to affect conflict decreases cooperation and increases non interaction This quantitative work is complemented by a series of in depth case study analyses of Scotland UK Salzburg Austria Rhône Alpes and Alsace both France Based on over a hundred semi structured interviews the case studies along with additional statistical testing confirm the overall findings reached through quantitative means and further suggest that the effect of devolution overrides that of party political incongruence

Transformations in Governance is a major new academic book series from Oxford University Press It is designed to accommodate the impressive growth of research in comparative politics international relations public policy federalism environmental and urban studies concerned with the dispersion of authority from central states up to supranational institutions down to subnational governments and side ways to public private networks It brings together work that significantly advances our understanding of the organization causes and consequences of multilevel and complex governance The series is selective containing annually a small number of books of exceptionally high quality by leading and emerging scholars The series targets mainly single authored or co authored work but it is pluralistic in terms of disciplinary specialization research design method and geographical scope Case studies as well as comparative studies historical as well as contemporary studies and studies with a national regional or international focus are all central to its aims Authors use qualitative quantitative formal modeling or mixed methods A trade mark of the books is that they combine scholarly rigour with readable prose and an attractive production style The series is edited by Liesbet Hooghe and Gary Marks of the University of North Carolina Chapel Hill and the VU Amsterdam and Walter Mattli of the
