Religious Politics in Turkey Ceren Lord,2018-11-08 Since the elections of 2002 Erdogan s AKP has dominated the political scene in Turkey This period has often been understood as a break from a secular pattern of state building But in this book Ceren Lord shows how Islamist mobilisation in Turkey has been facilitated from within the state by institutions established during early nation building Lord thus challenges the traditional account of Islamist AKP s rise that sees it either as a grassroots reaction to the authoritarian secularism of the state or as a function of the state s utilisation of religion Tracing struggles within the state Lord also shows how the state s principal religious authority the Presidency of Religious Affairs Diyanet competed with other state institutions to pursue Islamisation Through privileging Sunni Muslim access to state resources to the exclusion of others the Diyanet has been a key actor ensuring persistence and increasing salience of religious markers in political and economic competition creating an amenable environment for Islamist mobilisation

EU Legal Acts Marise Cremona, Claire Kilpatrick, 2018-02-08 In this collection of essays originally presented at the Academy of European Law in Florence the changing landscape of the EU's legal acts is explored Further to this the changing boundaries between legal acts and processes which may create norms but do not create law in the traditional sense are analysed This landscape is presented in two ways Firstly by focusing on the transformations and challenges to the EU's traditional legal acts in particular since the reconfiguration of the categories of legal acts and the procedures for which they are adopted by the Lisbon Treaty Secondly the collection focuses on those acts found at or beyond the margin of classic EU legal acts including acts of Member States such as inter se treaties self regulation and collective agreements so called soft law and decision making outside the normal legislative procedures The volume endeavours to explain the adaptability of the EU legal order despite the fact that the legal instruments at the Union's disposal have not fundamentally changed since the Treaty of Rome came into force 60 years ago It explores the challenges that new decisional procedures and variations in the legal quality of EU acts pose for the EU's legal order including alterations to institutional balance and the roles of the different institutional actors and challenges to the rule of law

Rise of the Far Right Melody Devries, Judith Bessant, Rob Watts, 2021-07-29 After decades on the social and political margins far right groups and movements are enjoying increasing success and even claiming a place in mainstream electoral politics in many Western political systems Research shows that new media like Twitter YouTube and community sites like 4chan and Reddit are increasingly involved with the mobilization of popular support for far right electoral campaigns and even organized political violence These technologies including other social media discussion websites certain online games chat servers talk radio cable news and print media are making contemporary far right ideologies possible in diverse ways altering methods of recruitment to the extent that they become unrecognizable from far right movements of the past and thus more dangerous The results of these new technological processes can be seen in the increasing normalization of far right values within mainstream culture politics and media ecosystems within countries from the United States Britain Australia Germany and Hungary This book brings together recent academic research exploring how far right groups use new media to recruit followers to extremist beliefs and mobilize political action In doing so the book reveals the complex ways that evolving technologies are used both purposively subtly and in some cases incidentally to recruit and mobilize far right support
