## Factors to Consider When Choosing O-Ring Material

|                                                                                   |             |                                                                                     |                |
|-----------------------------------------------------------------------------------|-------------|-------------------------------------------------------------------------------------|----------------|
|  | Properties  |  | Temperature    |
|  | Flexibility |  | Pressure       |
|  | Size        |   | Surface Finish |

## Choosing the Right O-Ring Supplier

O-rings must be constructed from the right material to withstand environmental conditions and offer reliable performance during operations. Beyond material, it's just as important to choose the right supplier. Look for an O-ring supplier that can:

|                                                                                     |                                                |
|-------------------------------------------------------------------------------------|------------------------------------------------|
|   | Meet Your Material and Production Requirements |
|  | Operate Within Your Timeline and Budget        |
|  | Offers Customization                           |
|  | Provide Reliable Delivery                      |
