September 2013 Paper Alex Science Department:

Military Design Thinking Aaron P. Jackson, 2024-09-30 This book examines the newly emergent field of military design thinking how it has been developed inside and outside of military doctrine and the paradigms that underlie its key thinkers and methodologies From the emergence of its initial methodologies in the late 1990s military design thinking's development rapidly accelerated in the mid 2000s in response to perceived failures of existing military doctrine and practice to adapt to the wars of the early 21st century To establish a foundation for exploring the significance of the challenge military design thinking presented to dominant approaches to warfare the early chapters in the book examine the ontology and epistemology of military doctrine which is defined as a written expression of a military's institutional belief system regarding how to wage war They also explain how attempts to incorporate military design thinking into doctrine ultimately led to its assimilation into this belief system requiring military design thinkers to continue to explore and develop the field outside of doctrine Since the mid 2010s non doctrinal military design methodologies have become increasingly prominent within several Western militaries including the US Canada UK Australia and several European militaries Later chapters offer an exploration of the paradigms underlying non doctrinal as well as doctrinal design methodologies This book highlights how the field has evolved shows how military design thinking differs from its civilian equivalents developed in fields such as commerce and business management and discusses how it may evolve in the near future This book will be of much interest to students of military studies security studies and international relations as well as to military professionals

Greening Auto Jobs Caleb Goods, 2014-08-07 Greening Auto Jobs A Critical Analysis of the Green Job Solution details current and problematic understandings of what constitutes a green job Adopting an approach grounded in critical political economy this book presents a framework to scrutinize the green job solution and the theoretical framework which overwhelmingly informs contemporary green job creation efforts and ecological modernization The text also explores the tensions that encircle the world of work and environmental action often referred to as jobs versus the environment by detailing the conflicting commitments of political economic actors to the idea of green job creation These conflicts are outlined through an examination of the political economic debate that has surrounded the Australian Government's environmental plans from 2008 to 2012 and the conflicting positions of Australian trade unions on environmentally transitioning the world of work Interviews with key political economic actors provide in depth and nuanced understandings of the varied perspectives of political and union leaders in Australia The second part of the book presents a detailed case study of the posited green job solution within the specific context of the Australian automotive manufacturing industry The case study is also informed by interviews with key industry union and policymakers The automotive industry is scrutinized not only because it has expressed going green as important to its long term economic future but because the Australian Government declared that its 6.2 billion New Car Plan for a Greener Future policy would create green jobs Therefore the book engages with the task of

examining the three multinational vehicle producers operating in Australia Ford GM Holden and Toyota and how they have responded and engaged with the idea of green jobs greening the manufacturing process and the vehicles they produce in Australia

Maritime Disputes and International Law Constantinos Yiallourides, 2019-05-20 The settlement of the maritime boundary disputes between China and Japan in the East China Sea and between Greece and Turkey in the Aegean Sea is politically deadlocked While diplomatic settlement efforts have been ongoing for the past several decades neither side in each case appears prepared to back down from its respective maritime and territorial claims Several incidents at sea have occurred prompting diplomatic protests military standoffs even exchange of fire The existing status quo is inherently unstable and does not favour either side to the extent that it holds hostage the multiple benefits that could otherwise be generated from the exploitation of the seabed energy and mineral resources in the disputed waters creating an urgent need for a meaningful discussion on finding a practical way forward This monograph undertakes a comprehensive analysis of these disputes based on the rules and principles of international law critically evaluating possible institutional designs of inter State cooperation over seabed activities in disputed maritime areas and makes recommendations for the prospect of realising joint development regimes in the East China Sea and the Aegean to coordinate the exploration for and exploitation of resources without having resorted previously to boundary delimitation settlement

Innovate to Dominate Tai Ming Cheung, 2022-08-15 In Innovate to Dominate Tai Ming Cheung offers insight into why how and whether China will overtake the United States to become the world's preeminent technological and security power This examination of the means and ends of China's quest for techno security supremacy is required reading for anyone looking for clues as to the long term direction of the global order The techno security domain Cheung argues is where national security innovation and economic development converge and it has become the center of power and prosperity in the twenty first century China's paramount leader Xi Jinping recognizes that effectively harnessing the complex interactions among security innovation and development is essential in enabling China to compete for global dominance Cheung offers a richly detailed account of how China is building a potent techno security state In Innovate to Dominate he takes readers from the strategic vision guiding this transformation to the nuts and bolts of policy implementation The state led top down mobilizational model that China is pursuing has been a winning formula so far but the sternest test is ahead as China begins to compete head to head with the United States and aims to surpass its archrival by mid century if not sooner Innovate to Dominate is a timely and analytically rigorous examination of the key strategies guiding China's transformation of its capabilities in the national technological military and security spheres and how this is taking place Cheung authoritatively addresses the burning questions being asked in capitals around the world Can China become the dominant global techno security power And if so when

Practical Terrorism Prevention

Jackson,Rhoades,Reimer,Lander,Costello,Beaghley,2019-02-15 Researchers examined past U S countering violent extremism and terrorism prevention efforts and explored policy options to strengthen terrorism prevention in the future They found that current terrorism prevention capabilities are relatively limited and that there is a perceived need for federal efforts to help strengthen local capacity However any federal efforts will need to focus on building community trust to be successful

Terrorist Movements and the Recruitment of Arab Foreign Fighters Roger Warren,2020-02-20 This book offers the first detailed in depth account of how and why some Arab foreign fighters subsequently became involved in Islamist terrorism Drawing on a personal dataset of 3 010 Arab foreign fighters compiled using biographies martyrdom eulogies and postings on jihadi websites Terrorist Movements and the Recruitment of Arab Foreign Fighters suggests that the subsequent involvement in Islamist terrorism by some Arab foreign fighters is primarily forged in the crucible of defensive jihad

Licensing Occupations Ensuring Quality or Restricting Competition W E Upjohn Institute 2006 Morris M Kleiner brings us a book that expands our knowledge of occupational regulation by showing how varying stages of regulation impact those in the occupations closely related occupational practitioners and ultimately consumers through the quality and cost of services provided In Stages of Occupational Regulation Analysis of Case Studies Kleiner examines seven occupations at various stages of government regulation From the least regulated to the most regulated they are interior designers mortgage brokers preschool teachers construction tradesmen specifically plumbers and electricians dental hygienists and dentists Kleiner shows that occupations that have been regulated for the shortest periods of time and that have minimal entry requirements such as interior designers are usually unable to achieve their economic goals of better compensation and less competition For more heavily regulated occupations that have a longer history of regulation and have more rigorous entry requirements such as dentists higher earnings and greater control over job related tasks are more likely The book also presents new analysis on a long standing debate in law and economics i e whether litigation or regulation is better for society Kleiner shows that the growth of occupational licensing suggests that some form of regulation may be gaining as the dominant type of public policy Furthermore Kleiner examines how regulations may influence the number of workplace injuries and deaths incurred by plumbers and electricians in the construction industry the most hazardous industry as determined by the total number of workplace accidents in the United States Overall the analysis and evidence presented here demonstrate how labor markets work in the face of varying levels of government regulation Therefore this is a must read for anyone with an interest in the workings of the U S labor market or of labor markets in other more developed economies

Neoliberalisms in British Politics Christopher Byrne, 2018-09-21 Taking a chronological approach this book challenges established economic and ideologic narratives of neoliberalism in Britain by charting the gradual diffusion of an increasingly interventionist neoliberal governmental rationality in British politics since the late 1970s and the various means by which the project has furnished itself with a hegemonic basis for its popular support Spanning five decades of British political history and drawing on rich empirical evidence to bring conceptual clarity to and chart the effects of a style of government bound up with a host of epochal changes it concludes by considering Brexit and the rise of Corbynism as the final act in the neoliberal saga It then poses the question Is British politics on the verge of a major reconstruction representing a decisive rejection of neoliberalism This book will be of key interest to scholars and students of British politics and neoliberalism liberalism and more broadly to political theory political economy and public policy

Emerging Security Challenges Seung-Whan Choi, 2018-02-16 This book looks into four areas of our world's international security crisis the growing threat of

America's homegrown jihadists the continuing rise of terrorism the causes of gross violations of human rights and the pervasiveness of civil war When American jihadists join such international terrorist organizations as the Islamic State of Iraq and Syria and Al Qaeda the danger to security and stability is often magnified on both global and domestic fronts The global rise of terrorism in turn causes a deterioration in the quality of human rights for politically disadvantaged people or minority groups within a national territory meanwhile the internal crisis created by terrorist violence and human rights violations can expedite the development of civil war which is likely to endanger domestic and international stability Taking a consistent theoretical and empirical approach **Emerging Security Challenges American Jihad Terrorism Civil War and Human Rights** explicates the relationships among these four closely related areas of concern for national security Each chapter presents systematic empirical evidence of security trends for more than 100 sample countries determined using the most current statistical methods and concludes with practical policy recommendations **Hidden Hand** Clive Hamilton, Mareike

O'Bryan, 2018-10-26 In an era of climate change the need to manage our water resources effectively for future generations has become an increasingly significant challenge Indigenous management practices have been successfully used to manage inland water systems around the world for thousands of years and Indigenous people have been calling for a greater role in the management of water resources As First Peoples and as holders of important knowledge of sustainable water management practices they regard themselves as custodians and rights holders deserving of a meaningful role in decision making This book argues that a key albeit not the only means of ensuring appropriate participation in decision making about water management is for such participation to be legislatively mandated To this end the book draws on case studies in Australia and New Zealand in order to elaborate the legislative tools necessary to ensure Indigenous participation consultation and representation in the water management landscape **The Oxford Handbook of the Responsibility to**

Protect Alex Bellamy, Tim Dunne, 2016-06-30 The Responsibility to Protect R2P is intended to provide an effective framework for responding to crimes of genocide ethnic cleansing war crimes and crimes against humanity It is a response to the many conscious shocking cases where atrocities on the worst scale have occurred even during the post 1945 period when the United Nations was built to save us all from the scourge of genocide The R2P concept accords to sovereign states and international institutions a responsibility to assist peoples who are at risk or experiencing the worst atrocities R2P maintains

that collective action should be taken by members of the United Nations to prevent or halt such gross violations of basic human rights This Handbook containing contributions from leading theorists and practitioners including former foreign ministers and special advisors examines the progress that has been made in the last 10 years it also looks forward to likely developments in the next decade
