J. Brooks Flippen

September 2014 History Paper 2 Memo:

Nixon's Nuclear Specter William Burr, Jeffrey P. Kimball, 2015-06-15 In their initial effort to end the Vietnam War Richard Nixon and Henry Kissinger attempted to lever concessions from Hanoi at the negotiating table with military force and coercive diplomacy They were not seeking military victory which they did not believe was feasible Instead they backed up their diplomacy toward North Vietnam and the Soviet Union with the Madman Theory of threatening excessive force which included the specter of nuclear force They began with verbal threats then bombed North Vietnamese and Viet Cong base areas in Cambodia signaling that there was more to come As the bombing expanded they launched a previously unknown mining ruse against Haiphong stepped up their warnings to Hanoi and Moscow and initiated planning for a massive shock and awe military operation referred to within the White House inner circle as DUCK HOOK Beyond the mining of North Vietnamese ports and selective bombing in and around Hanoi the initial DUCK HOOK concept included proposals for tactical nuclear strikes against logistics targets and U S and South Vietnamese ground incursions into the North In early October 1969 however Nixon aborted planning for the long contemplated operation He had been influenced by Hanoi's defiance in the face of his dire threats and concerned about U S public reaction antiwar protests and internal administration dissent In place of DUCK HOOK Nixon and Kissinger launched a secret global nuclear alert in hopes that it would lend credibility to their prior warnings and perhaps even persuade Moscow to put pressure on Hanoi It was to be a special reminder of how far President Nixon might go The risky gambit failed to move the Soviets but it marked a turning point in the administration's strategy for exiting Vietnam Nixon and Kissinger became increasingly resigned to a long route policy of providing Saigon with a decent chance of survival for a decent interval after a negotiated settlement and U S forces left Indochina Burr and Kimball draw upon extensive research in participant interviews and declassified documents to unravel this intricate story of the October 1969 nuclear alert They place it in the context of nuclear threat making and coercive diplomacy since 1945 the culture of the Bomb intra governmental dissent domestic political pressures the international nuclear taboo and Vietnamese and Soviet actions and policies It is a history that holds important lessons for the present and future about the risks and uncertainties of nuclear threat making

Provided by publisher *Deutsche Bank: The Global Hausbank, 1870 - 2020* Werner Plumpe, Alexander Nützenadel, Catherine Schenk, 2020-03-05. A comprehensive history of one of the major players in the world of international finance. Over the course of its 150-year history, Deutsche Bank has established itself as a major player in the world of international finance but has also been confronted by numerous challenges that have changed the face of Europe from two world wars to the rise and subsequent fall of communism. In this major work on the bank's history, Werner Plumpe, Alexander Nützenadel, and Catherine R. Schenk deliver a vibrant account of the measures the bank undertook in order to address the profound upheavals of the period as well as the diverse and unusual demands it had to face. These included the First World War, which brought the world's first period of globalization to a sudden and dramatic end but also the development of the predominantly national framework within which the bank had to operate from 1914 until the fall of the Berlin Wall in 1989. More recently, the focus has shifted back to European and global activities with Deutsche Bank forging new paths into the Anglo-American capital markets business, so opening another extraordinary chapter for the bank.

Community Translation Mustapha Taibi, Uldis Ozolins, 2016-02-25. Investigating an important field within translation studies. Community Translation addresses the specific context, characteristics, and needs of translation in and for communities. Traditional classifications in the fields of discourse and genre are of limited use to the field of translation studies as they overlook the social functions of translation. Instead, this book argues for a classification that cuts across traditional lines based on the social dimensions of translation and the relationships between text producers and audiences. Community Translation discusses the different types of texts produced by public authorities, services, and individuals for communities that need to be translated into minority languages and the socio-cultural issues that surround them. In this way, this book demonstrates the vital role that community translation plays in ensuring communication with all citizens and in the empowerment of minority language speakers by giving them access to information, enabling them to participate fully in society. **The Battle for the Roads of Britain** David Taylor, Keith Laybourn, 2016-01-12. America and Romania in the Cold War Paschalis Pechlivanis, 2019-03-26 This book examines the US foreign policy of differentiation towards the socialist regimes of Eastern Europe as it was implemented by various administrations towards Ceausescu's Romania from 1969 to 1980 Drawing from multi archival research from both US and Romanian sources this is the first comprehensive analysis of differentiation and shows that Washington's Eastern European policy in the 1970s was more nuanced than the common East vs West narrative suggests By examining systemic Cold War factors such as the rise of détente between the two superpowers and the role of agency the study deals with the dynamics that shaped the evolution of American Romanian relations after Bucharest's opening towards the West and the subsequent embrace of this initiative by Washington as an instrument to undermine the unity of the Soviet bloc Furthermore it revises interpretations about Carter's celebrated human rights policy based on the Romanian case pointing towards a remarkable continuity between the three administrations under examination Nixon Ford and Carter By doing so this study contributes to the field by highlighting a largely neglected aspect of US foreign policy and uncovers the subtleties of Washington's relations with one of the most vigorous actors of the Eastern European bloc This book will be of much interest to students of Cold War Studies US foreign policy Eastern European politics and International Relations in general
