

Classroom Observation and Reflection Paper

Classroom Observation and Reflection Paper MTE/501 The Art of Science and Teaching Regis Lawrence For my classroom observation I had the opportunity of sitting in on a first grade regular education classroom. Listed below are the following that relates to the teacher's classroom design. Teacher's educational goals I asked for the teachers educational goals and wasn't surprised that our goals shared some of the same objectives. In terms of teaching she wanted to provide the best education possible and go over and beyond the call of duty to make that a reality, without excuses. Should a student need additional tutorial assistance due to performing below grade level she would set up a schedule to make those accommodations. ...show more content...

Keeping the standards in a designated area is there for anyone (administator) to come into the class and see what you are working on. Each day she would have a student read the standard that would be covered that day. The learning objectives were kept in plain sight on a sentence strip. Teaching Methods Throughout the lesson she would walk around and interact with the students to make should they were on task and understanding the assignment. She provided visual aids to assist in the lesson and allowed students to pair with each other in order to provide extra help. Students had to sit up straight in class and track the teacher while she was at the board during whole group instruction. One thing I really loved because its someshing I do in my classroom. All students were required to raise their hands when asked a respond to a question regarding the lesson. Use of technology as a resource It is really amazing how excited students get with the possibility of using the computer in the classroom to assist them with their lesson. The teacher added that she uses it as a reward system, stating how affective it is in maintaining order and control in the classroom. Students knew how to navigate, go to various websites that were related to the lesson and create a folder in which to put their assignments in. .

Imagining the Dead in

British Literature and Culture, 1790-1848 David McAllister, 2018-09-29 This book offers the first account of the dead as an imagined community in the early nineteenth century It examines why Romantic and Victorian writers including Wordsworth Dickens De Quincey Godwin and DIsraeli believed that influencing the imaginative conception of the dead was a way to either advance or resist social and political reform This interdisciplinary study contributes to the burgeoning field of Death Studies by drawing on the work of both canonical and lesser known writers reformers and educationalists to show how both literary representation of the dead and the burial and display of their corpses in churchyards dissecting rooms and garden cemeteries responded to developments in literary aesthetics psychology ethics and political philosophy Imagining the Dead in British Literature and Culture 1790 1848 shows that whether they were lauded as exemplars or loathed as tyrants rendered absent by burial or made uncannily present through exhumation and display the dead were central to debates about the shape and structure of British society as it underwent some of the most radical transformations in its history
