Effects of integrated learning: explicating a mathematical concept in inquiry-based science camps Louise Bindel, 2018 Although various arguments for integrated learning of mathematics and science exist empirical evidence that integrated learning is as beneficial as anticipated is limited Therefore this quasi experimental study investigates the effect of integrated learning of mathematics and science on eight student variables by comparing it to a control group Results show that integrated learning is no miracle cure but has positive and negative effects on specific student outcomes Whereas integrated learning effects students view of the relation between mathematics and science positively it effects students scientific self concept negatively Thus integrated learning should not substitute but rather complement disciplinary learning Obwohl zahlreiche Argumente für das integrierte Lernen von Mathematik und Naturwissenschaften existieren ist die vorteilhafte Wirkung integrierten Lernens begrenzt empirisch belegt Im Rahmen dieser quasi experimentellen Studie wird der Effekt integrierten Lernens auf acht Sch lervariablen durch Vergleiche mit einer Kontrollgruppe untersucht Die Ergebnisse zeigen dass integriertes Lernen kein Allheilmittel ist sondern positive und negative Effekte auf bestimmte Sch lervariablen hat Während integriertes Lernen die Sicht der Sch lerinnen und Sch ler auf die Beziehung zwischen Mathematik und Naturwissenschaften positiv beeinflusst hat es einen negativen Effekt auf das naturwissenschaftliche Selbstkonzept Daher sollte integriertes Lernen nicht stellvertretend sondern ergänzend zu disziplin rem Lernen implementiert werden

University Access and Success Merridy Wilson-Strydom, 2015-02-11 The challenge of widening access and participation in higher education in a manner that ensures students are successful in their studies is a major issue globally and a significant research focus within higher education studies and higher education policy Similarly the challenge of under preparedness of students entering higher education has become increasingly pertinent as universities in both developed and developing countries struggle to improve their throughput rates in a context in which schooling no longer seems to provide sufficient preparation for entering university In this book Merridy Wilson Strydom applies the capabilities approach to better understand university access and participation and draws on a rich case study from South Africa to critically and innovatively explore the complex and contradictory terrain of access with success The book integrates quantitative and qualitative research with theory and practical application to provide a new framework for considering and improving the transition from school to university University Access and Success will appeal to academics and researchers in the field of higher education

internationally The book also contributes to the growing body of international and comparative scholarship on the capabilities approach in higher education and will therefore be of value to higher education practitioners such as those working in the promotion of teaching and learning higher education quality assurance institutional research and student affairs

simpowersystems user s guide matlab for engineers - Oct 06 2022

web what is simpowersystems starting with mathworks release 13 the power system blockset has been renamed to simpowersystems as a part of the physical modeling family simpowersystems and simmechanics work together with simulink to model electrical mechanical and control systems electrical power systems are combinations

model based design for power systems protection relays using matlab - Dec 28 2021

web apr 17 2008 this paper describes modelling and testing of a digital distance relay for transmission line protection using matlab simulink

model based design for power systems protection relays using matlab - Nov 07 2022

web mar 20 2008 in the world of power system relays there have been significant changes in the technology used to implement the protection electro mechanical relays static r model based design for power systems protection relays using matlab simulink iet conference publication ieee xplore

does any know if there is a power protection relay matlab simulink - Mar 11 2023

web aug 7 2022 does any know if there is a power protection relay library for simulink and simpower i came by a technical paper m kezunovic and b kasztenny texas uni indicating that there was a relay element library however my tool box has nothing in the way of complete over current differential distance relays

model of a digital relay file exchange matlab central - Apr 12 2023

web jul 17 2021 a digital relay is a computer based system with software based protection algorithms for the detection of electrical faults this model simulates the working of a digital relay with the help of matlab simulink

simulation of reverse power relay for generator protection - May 13 2023

web apr 2 2013 this paper presents the modeling and simulation of digital reverse power relay on matlab simulink in this simulation the relay performance is tested on 11kv synchronous generator connected with 220kv through a step up transformer

is there a relay or and contactor blocks within matlab simulink - Feb 27 2022

web jun 27 2009 a built in block that models an electromagnetic relay is not available in simpowersystems 5 0 r2008b however there is a demo model under the simscape 3 0 r2008b product that could be used as a reference model for building a relay

distance protection relay file exchange matlab central - May 01 2022

web jun 3 2022 the distance protection method is widely used for power system transmission line protection distance relays are one of the main protection devices in a transmission line distance protection relay approximates the impedance down the line to a fault using currents and voltage measurement units

implement protection relay with definite minimum time dmt trip - Aug 16 2023

web the protection relay block implements a protection relay for the hardware and the motor with definite minimum time dmt trip characteristics using the reference limit feedback and reset input signals in the event of a fault the block generates a latched fault signal that you can use to protect the hardware and the motor

power system relay protection simulation based on matlab - Jan 29 2022

web matlab based simulation technology can support the analysis and design of relay protection systems a simulation model is built for the study of power system relay protection as an example the power system fault simulation zero sequence current protection simulation and transformer differential protection simulation are

protection relay software models in interaction with power system - Jun 14 2023

web may 25 2012 protection relay software models in interaction with power system simulators abstract modelling and simulation software developed for analysing protective relaying applications and relay design concepts in power distribution

is

design modeling and implementation of multi function protective relay - Feb 10 2023

web jun 17 2020 in this paper a digital multi function protective relay was designed and implemented on matlab simulink in this study we also explore some current techniques ranging from the use of digital logic algorithms to system protection applications
