

Sample Comparison/Contrast Essay:

The leap from high school to college is a large one. Many students enter post-secondary education expecting the experience to be the same as the one they had while at secondary school. These students are wrong to make this assumption, and they very quickly realize just how different college is. College costs **more**, presents **more** academic challenges, and offers a **more** social environment than high school.

First, in terms of cost, college is **more expensive than** high school because of tuition, living expenses, and books. Anyone who wishes to attend college must pay fees, whereas it is free to attend high school. College tuition can start at roughly \$1,500 per term and can wind up costing as much as \$2,000. The government funds high schools, so high school students do not have to pay for their education. In addition to tuition, college students must also worry about the residence or rental costs for living close to the college's campus. In Toronto, rental costs for a basement apartment can range from \$400 to \$600 per month (not including utilities), and residence fees at most colleges work out to roughly \$2,000 per term. **In contrast**, high school students have no living expenses because the majority of high school students live at home with their parents for free. College is also **more expensive than** high school when it comes to the cost of learning materials, such as textbooks. In college, students must buy textbooks for each course they take. These books are not cheap, and they often wind up costing students several hundreds of dollars once students have purchased the books for all their classes. High school students never have to worry about buying their textbooks because high schools always keep a set of books, which students use and then return at the end of the year. Not only do college students have to pay **more money than** high school students for their education, the college students also have **much more** work to do once their bills have been paid.

Second, the workload in college is **more challenging than** the workload in high school. College students are faced with the task of having to complete an average of three to five assignments per week, **whereas** high school students average only one to three assignments per week. There are **more** assignments in college, and they are also **more** challenging and can take up to eight hours to complete.

Sample Compare And Contrast Essay 6th Grade

Siddappa N.Byrareddy

Sample Compare And Contrast Essay 6th Grade:

Good Essay Writing Peter Redman, Wendy Maples, 2017-02-22 Writing good essays is one of the most challenging aspects of studying in the social sciences This simple guide provides you with proven approaches and techniques to help turn you into a well oiled essay writing machine Good Essay Writing demonstrates how to think critically and formulate your argument as well as offering water tight structuring tips referencing advice and a word on those all too familiar common worries all brought to life through real student examples from a range of subjects Now in its fifth edition this fresh update contains New essay examples are analysed and discussed so you have a clear understanding of what makes a good essay A new chapter on essay writing skills and other forms of social science writing helping you transfer the skills you learn to different types of written assessments A new Companion Website providing additional exercises and examples helping you practice and apply the skills This practical guide is an absolute must for everybody wanting or needing to brush up on their essay writing skills and boost their grades The Student Success series are essential guides for students of all levels From how to think critically and write great essays to planning your dream career the Student Success series helps you study smarter and get the best from your time at university Visit the SAGE Study Skills hub for tips and resources for study success **The Everything**
