

## College Essay Ideas

Before you can write a college application essay you first have to come up with a topic to write about. The first stage in coming up with a topic is to brainstorm: to come up with lots of possible topics, a whole pool of topics from which you can then pick and choose the topic that you think is both the most interesting and which will best highlight your unique qualities.

You should spend at least a few weeks brainstorming ideas before you pick any topic and start writing your essays. By giving the topics time to grow and evolve in your mind you may come up with richer and more interesting spins on the topics you want to write about.

To help you generate ideas for topics, here are a number of questions to consider:

1. What are your major accomplishments, and why do you consider them accomplishments? Do not limit yourself to accomplishments you have been formally recognized for since the most interesting essays often are based on accomplishments that may have been trite at the time but become crucial when placed in the context of your life.
2. Does any attribute, quality, or skill distinguish you from everyone else? How did you develop this attribute?  
Consider your favorite books, movies, works of art, etc. Have these influenced your life in a meaningful way? Why are they your favorites?
3. What was the most difficult time in your life, and why? How did your perspective on life change as a result of the difficulty?
4. Have you ever struggled mightily for something and succeeded? What made you successful?
5. Have you ever struggled mightily for something and failed? How did you respond?
6. Of everything in the world, what would you most like to be doing right now? Where would you most like to be? Who, of everyone living and dead, would you most like to be with? These questions should help you realize what you love most.
7. Have you experienced a moment of epiphany, as if your eyes were opened to something you were previously blind to?
8. What is your strongest, most unwavering personality trait? Do you maintain strong beliefs or adhere to a philosophy?
9. How would your friends characterize you? What would they write about if they were writing your admissions essay for you?
10. What have you done outside of the classroom that demonstrates qualities sought after by universities? Of these, which means the most to you?
11. What are your most important extracurricular or community activities? What made you join these activities? What made you continue to contribute to them?
12. What are your dreams of the future? When you look back on your life in thirty years, what would it take for you to consider your life successful? What people, things, and accomplishments do you need? How does this particular university fit into your plans for the future?

As you think over these many categories, jot down ideas and possibly essay topics and let them percolate and grow in your mind. After a few weeks of brainstorming, start to whittle down your list toward the few topics that you would most like to write about.

**Writing in the Devil's Tongue** Xiaoye You,2010-01-29 Winner CCCC Outstanding Book Award Until recently American composition scholars have studied writing instruction mainly within the borders of their own nation rarely considering English composition in the global context in which writing in English is increasingly taught Writing in the Devil s Tongue challenges this anachronistic approach by examining the history of English composition instruction in an East Asian country Author Xiaoye You offers scholars a chance to observe how a nation changed from monolingual writing practices to bilingual writing instruction in a school setting You makes extensive use of archival sources to help trace bilingual writing instruction in China back to 1862 when English was first taught in government schools Treating the Chinese pursuit of modernity as the overarching theme he explores how the entry of Anglo American rhetoric and composition challenged and altered the traditional monolithic practice of teaching Chinese writing in the Confucian spirit The author focuses on four aspects of this history the Chinese

negotiation with Anglo American rhetoric their search for innovative approaches to instruction students situated use of English writing and local scholarship in English composition Unlike previous composition histories which have tended to focus on institutional disciplinary and pedagogical issues Writing in the Devil s Tongue brings students back to center stage by featuring several passages written by them in each chapter These passages not only showcase rhetorical and linguistic features of their writings but also serve as representative anecdotes that reveal the complex ways in which students responding to their situations performed multivalent intercultural discourses In addition You moves out of the classroom and into the historical cultural and political contexts that shaped both Chinese writing and composing practices and the pedagogies that were adopted to teach English to Chinese in China Teachers students and scholars reading this book will learn a great deal about the political and cultural impact that teaching English composition has had in China and about the ways in which Chinese writing and composition continues to be shaped by rich and diverse cultural traditions and political discourses In showcasing the Chinese struggle with teaching and practicing bilingual composition Writing in the Devil s Tongue alerts American writing scholars and teachers to an outdated English monolingual mentality and urges them to modify their rhetorical assumptions pedagogical approaches and writing practices in the age of globalization
