Seriously! Cynthia Enloe, 2013-09-16 In *Seriously* Cynthia Enloe author of the groundbreaking analysis of globalization *Bananas Beaches and Bases* addresses two deeply gendered and contested questions Who is taken seriously And who gets to bestow the label serious on others With a strategy of taking both women and gender dynamics seriously Cynthia Enloe investigates the Dominique Strauss Kahn affair and the banking crash of 2008 the subsequent recession as well as UN peacekeeping and the ongoing Egyptian revolution Each case study highlights the gritty experiences of women in diverse circumstances in banks on the job market in war zones and in revolutions The results of taking women seriously are fresh insights into what fuels the cultures of hyper risk taking of sexual harassment and the denial of women's post war security

The Big Push Cynthia Enloe, 2017-10-26 For over a century and in scores of countries patriarchal presumptions and practices have been challenged by women and their male allies Sexual harassment has entered common parlance police departments are equipped with rape kits more than half of the national legislators in Bolivia and Rwanda are women and a woman candidate won the plurality of the popular votes in the 2016 United States presidential election But have we really reached equality and overthrown a patriarchal point of view *The Big Push* exposes how patriarchal ideas and relationships continue to be modernized to this day Through contemporary cases and reports renowned political scientist Cynthia Enloe exposes the workings of everyday patriarchy in how Syrian women civil society activists have been excluded from international peace negotiations how sexual harassment became institutionally accepted within major news organizations or in how the UN Secretary General's post has remained a masculine domain Enloe then lays out strategies and skills for challenging patriarchal attitudes and operations Encouraging self reflection she guides us in the discomforting curiosity of reviewing our

own personal complicity in sustaining patriarchy in order to withdraw our own support for it Timely and globally conscious The Big Push is a call for feminist self reflection and strategic action with a belief that exposure complements resistance

The Overthrow of Robert Mugabe Blessing-Miles Tendi,2025-01-21 The Overthrow of Robert Mugabe Gender Coups and Diplomats argues the 2017 coup that ousted long time Zimbabwean president Robert Gabriel Mugabe and the generality of coups cannot be accurately and rigorously understood without examining the crucial role of gender and women s politics in military seizures of power Tendi s book shows that gender and women s politics pervade military coup causes dynamics justifications and international responses to coups Contrary to influential representations of Zimbabwe s 2017 coup and other recent coups as markedly different from past coups Tendi draws on long gendered histories of military coups in Africa to argue that there are significant continuities in coup characteristics across time Additionally Tendi s highly original study of Zimbabwe s 2017 coup identifies the motives dynamics and trigger of the coup Despite the existence of an international anti coup norm and democracy promotion in Africa by Western states Zimbabwean coup makers direct intervention in politics was largely not publicly condemned or penalized by Western and African diplomats Tendi uses original interviews with diplomats and politicians involved in external responses to the coup to address this important puzzle Histories of Violence

Brad Evans,Terrell Carver,2017-01-15 While there is a tacit appreciation that freedom from violence will lead to more prosperous relations among peoples violence continues to be deployed for various political and social ends Yet the problem of violence still defies neat description subject to many competing interpretations Histories of Violence offers an accessible yet compelling examination of the problem of violence as it appears in the corpus of canonical figures from Hannah Arendt to Frantz Fanon Michel Foucault to Slavoj i ek who continue to influence and inform contemporary political philosophical sociological cultural and anthropological study Written by a team of internationally renowned experts this is an essential interrogation of post war critical thought as it relates to violence **Routledge Handbook of Gender and Environment**

Feminist Global Political Economies of the Everyday Juanita Elias, Adrienne Roberts, 2018-12-07 This collection interrogates the multifaceted ways in which global transformations are constituted by deeply gendered socio economic practices at the level of the everyday It brings feminist insights to bear on the emerging International Political Economy IPE debates about the everyday showing how gender is key to understanding how political economy is enacted and performed at the local level by non elites and via various cultural practices Drawing on everyday IPE and a longer standing body of feminist scholarship that documents and theorizes the mutually constitutive nature of on the one hand global markets and on the other households families relations of social reproduction and gendered socio economic practices this collection charts the lived realities of people and communities across a wide range of sites and spaces of the global political economy It considers how globalizing capitalism affects and is in turn affected by Argentine sex workers Nepalese private security contractors Canadian call centre workers Southeast Asian domestic workers workers and players in British bingo halls working class households in the UK and much more It demonstrates through detailed empirical research that a gender lens is crucial for understanding how and on what terms individuals and households are becoming ever more enmeshed in capitalist social relations and how they actively and creatively resist these processes The chapters originally published as a special issue in Globalizations

States of Discipline Cemal Burak Tansel, 2017-02-08 Despite the severity of the global economic crisis and the widespread aversion towards austerity policies neoliberalism remains the dominant mode of economic governance in the world What makes neoliberalism such a resilient mode of economic and political governance How does neoliberalism effectively reproduce itself in the face of popular opposition States of Discipline offers an answer to these questions by highlighting the ways in which today's neoliberalism reinforces and relies upon coercive practices that marginalize discipline and control social groups Such practices range from the development of market oriented policies through legal and administrative reforms at the local and national level to the coercive apparatuses of the state that repress the social forces that oppose various aspects of neoliberalization The book argues that these practices are built on the pre existing infrastructure of neoliberal governance which strive towards limiting the spaces of popular resistance through a set of administrative legal and coercive mechanisms Exploring a range of case studies from across the world the book uses authoritarian neoliberalism as a conceptual prism to shed light on the institutionalization and employment of state practices that invalidate public input and silence popular

Understanding Climate Change through Gender Relations Susan Buckingham, Virginie Le

Masson, 2017-05-08 This book explains how gender as a power relationship influences climate change related strategies and explores the additional pressures that climate change brings to uneven gender relations. It considers the ways in which men and women experience the impacts of these in different economic contexts. The chapters dismantle gender inequality and injustice through a critical appraisal of vulnerability and relative privilege within genders. Part I addresses conceptual frameworks and international themes concerning climate change and gender and explores emerging ideas concerning the reification of gender relations in climate change policy. Part II offers a wide range of case studies from the Global North and the Global South to illustrate and explain the limitations to gender blind climate change strategies. This book will be of interest to students, scholars, practitioners and policymakers interested in climate change, environmental science, geography, politics and gender studies.

The Limitations of Social Media Feminism

Jessica Megarry, 2020-11-27 MeToo Digital networking Facebook groups. Social media continues to be positioned by social movement scholars as an exciting new tool that has propelled feminism into a dynamic fourth wave of the movement. But how does male power play out on social media and what is the political significance of women using male controlled and algorithmically curated platforms for feminism? To answer these questions, Megarry foregrounds an analysis of the practices and ethics of the historical Women's Liberation Movement (WLM), including the revolutionary characteristics of face-to-face organising and the development of an autonomous print culture. Centering discussions of time, space and surveillance, she utilises radical and lesbian feminist theory to expose the contradictions between the political project of women's liberation and the dominant celebratory narratives of Web 2.0. This is the first book to seriously consider how social media perpetuates the enduring logic of patriarchy and how digital activism shapes women's oppression in the 21st century. Drawing on interviews with intergenerational feminist activists from the UK, the USA, Australia, Canada and New Zealand, as well as archival and digital activist materials, Megarry boldly concludes that feminists should abandon social media and return to the transformative powers of older forms of women-centred political praxis. This book will be of interest to scholars and students of Women's and Gender Studies, Lesbian and Queer Studies, Social Movement Studies, Critical Internet Studies, and Political Communication, as well as anyone with an interest in feminist activism and the history of the WLM.

Jeff Hearn, 2015-07-14 Men of the World will be seized upon by academics and activists facing up to the persistence, proliferation and transnationalization of patriarchies. Cynthia Cockburn, City University London and University of Warwick. This is an important, thought-provoking and incredibly timely book from one of the leading scholars in the field of men and masculinities. I cannot praise this wonderful book highly enough. Richard Collier, Newcastle University. In this lively and engaging new book, Hearn looks back over nearly 40 years in feminist-framed studies of men and masculinities and also forward to the futuristic scenarios through which gender power is currently evolving in transpatriarchal contexts. Terrell Carver, University of Bristol. What have men and globalization got to do

Understanding Popular Culture and World Politics in the Digital Age Laura J. Shepherd, Caitlin Hamilton, 2016-05-20 The practices of world politics are now scrutinised in a way that is unprecedented with even those previously or conventionally assumed to be disengaged from international affairs being drawn into world politics by social media Interactive websites allow users to follow election results in real time from the other side of the world and online mapping means that the world out there is now available on your mobile phone Understanding Popular Culture and World Politics in the Digital Age engages these themes in contemporary world politics to better understand how digital communication through new media technologies changes our encounters with the world Whether the focus is digital media social networking or user generated content these sites of political activity and the artefacts they produce have much to tell us about how we engage world politics in the contemporary age This volume represents the starting point of a dialogue about how digital technologies are beginning to impact the research and practice of scholars and practitioners in the field of International Relations with the collection of cutting edge essays dealing specifically with the intertextuality of world politics and digital popular culture This book will be of use to International Relations research academics and critically engaged publics interested in the core themes of global politics subjectivity militarism humanitarianism civil society organisation and governance The book also employs theories and techniques closely associated with other social science disciplines including political theory sociology cultural studies and media studies

Globalization and Militarism Cynthia Enloe, 2016-03-02 Militarism is being globalized today not only in war zones such as Ukraine and Syria but in peaceful arenas such as families and football stadiums Ideas and practices of masculinities and femininities are fuel for this global militarization Who is presumed to be weak and who tough Who is the protector who the grateful protected Written by one of the world's leading

feminist scholars this masterful and provocative newly updated edition tracks how women's desires to be patriotic yet feminine and men's fears of being feminized each have been exploited to globalize militarism and thus what it will take to roll back militarization anywhere. Here are explorations of how governments shrink the meaning of national security, how Nike and Adidas rely on militaries to keep women workers' wages low, how ideas about feminization were used to humiliate male prisoners in Abu Ghraib and of why camo became a fashion statement. Cynthia Enloe offers readers a practical gender analysis tool kit with which to expose militarism's blatant and subtle workings. Focusing her lens on the big picture of international politics and on the not so small picture of women's and men's complex everyday lives, Enloe challenges us to chart militarism in all its forms in this updated edition. Understanding Comparative Politics Lisa A. Baglione, 2024-02-22

Understanding Comparative Politics links comparative politics to identity, helping students make personal connections and actively learn and explore through maps, data, theory, and reflection questions. Issues of race, gender, ethnicity, and religion are put into context, encouraging critical thinking about world regions and individual countries through the lens of current events.

Sexual Abuse and Education in Japan Robert O'Mochain, Yuki Ueno, 2022-09-09. Bringing together two voices, practice and theory, in a collaboration that emerges from lived experience and structured reflection upon that experience, O'Mochain and Ueno show how entrenched discursive forces exert immense influence in Japanese society and how they might be most effectively challenged. With a psychosocial framework that draws insights from feminism, sociology, international studies, and political psychology, the authors pinpoint the motivations of the nativist right and reflect on the change of conditions that is necessary to end cultures of impunity for perpetrators of sexual abuse in Japan. Evaluating the value of the MeToo model of activism, the authors offer insights that will encourage victims to come out of the shadows, pursue justice, and help transform Japan's sense of identity both at home and abroad. Ueno, a female Japanese educator, and O'Mochain, a non-Japanese male academic, examine the nature of sexual abuse problems both in educational contexts and in society at large through the use of surveys, interviews, and engagement with an eclectic range of academic literature. They identify the groups within society who offer the least support for women who pursue justice against perpetrators of sexual abuse. They also ask if far-right ideological extremists are fixated with proving that so-called comfort women are *higaisha buru* or fake victims. Japan would have much to gain on the international stage were it to fully acknowledge historical crimes of sexual violence, yet it continues to refuse to do so. O'Mochain and Ueno shed light on this puzzling refusal through recourse to the concepts of international status anxiety and male hysteria. An insightful read for scholars of Japanese society, especially those concerned about its treatment of women. **Critical Explorations of Crisis** Helle Rydstrom, Mo Hamza, Thomas Gammeltoft-Hansen, Vanja Berggren, 2025-09-18.

Claims to crisis reverberate across societal and academic discourses as people around the world face dire situations and detrimental challenges. Yet the study of crisis tends to remain siloed and therefore oblivious to the multi-dimensional nature of crisis, which inhibits learning from one type of crisis to the next. Bringing together a broad team of

contributors this book argues for a new interdisciplinary field of crisis studies Covering a range of cases the book critically explores the intersections of socio economic political climate and health factors to unravel the dynamic and transformative forces of crisis In doing so the book contributes novel insights into human precariousness and resilience in times of crisis shaped by global local inequities post fact discourses and politics

Gaslighted Christine L. Williams, 2021-10-12 The oil and gas industry is one of the richest and most powerful industries in the world In recent years company avowals in support of diversity much touted programs for women in STEM and most importantly a tight labor market with near parity in women pursuing geoscience credentials might lead us to expect progress for women in this industry s corporate ranks Yet for all the talk of the great crew change the industry remains overwhelmingly white and male Sociologist Christine L Williams asks where are the women To answer this question Williams embarked on a decade long investigation one involving one hundred in depth interviews a longitudinal survey and ethnographic research that allowed her to observe the industry in times of boom and bust She found that when the industry expands women may be able to walk through the door but when the industry contracts the door becomes a revolving one whirling ever faster as companies retreat to their white male core These gendered outcomes are obscured by firms stated commitments to diversity in hiring and the language of merit The result is organizational gaslighting a radical dissonance between language and practice that Williams exposes for all
