L'adulte hospitalisé : travailler avec la famille et l'entourage Pascale Wanquet-Thibault, 2016-08-30 L'adulte hospitalisé travailler avec la famille et l'entourage donne aux soignants des outils pour se positionner face à une problématique essentielle et quotidienne : la place et le rôle de la famille et des proches lors de l'hospitalisation d'un adulte. Quels sont les droits de la famille ? Quels sont ses devoirs ? Comment accueillir la famille dans les unités de soins ? Comment utiliser les ressources de la famille pour mieux accompagner l'adulte hospitalisé ? L'auteur apporte des réponses à toutes ces questions que se posent les soignants mais également les proches lors de l'hospitalisation d'une personne adulte. L'ouvrage propose deux types de contenus : des apports théoriques (historique, état des lieux, législation, projet d'accueil, formation des professionnels, etc.) et de très nombreuses situations professionnelles et vignettes cliniques (situations vécues et commentées dans plusieurs unités de soins, soins palliatifs, etc.). Publié initialement sous le titre *Les aidants naturels auprès de l'adulte hospitalisé*, cette 2^e édition comporte d'une part une mise à jour des apports théoriques, textes législatifs, réglementaires de l'AP-HP et mesures de certifications, notamment ainsi qu'un état des lieux réactualisé et enrichi ; d'autre part d'une pratique professionnelle supplémentaire sur l'accompagnement de la famille d'un patient en fin de vie dans un service de soins courants.

La Recherche-Intervention Dans les Entreprises et les Organisations Anthony F. Buono, Henri Savall, Laurent Cappelletti, 2018-02-01 This volume continues to build on the relationship between the Research in Management Consulting series and the intervenor researchers at the Socio Economic Institute for Firms and Organizations ISEOR in Evry France extending that partnership to our recent work with the French Foundation for Management Education FNEGE a foundation dedicated to closing the gap between the teaching and practice of management in France. As part of the Foundation's multifaceted activities which range from seminars and an advanced training initiative for French doctoral students to joint programs with international organizations and associations FNEGE partnered with ISEOR to sponsor a series of workshops on developing high quality intervention research. This volume is one of the results from that endeavor. Although intervention research helps to uncover valuable insight into organizational dynamics and performance the challenge of capturing and disseminating that insight to both academics and practitioners is entrenched in the rigor-relevance debate. While we are witnessing increased calls for actionable knowledge this ideal unfortunately remains a rather elusive concept as critics contend either that rigorous academic research falls well short of relevance to the practitioner world or research that proves to be valuable to practitioners falls short of the rigor expected in academic life. This volume is intended to help bridge that divide. Drawing on the FNEGE ISEOR intervention research workshop the volume contains 18 chapters that explore the intervention research process from initial conceptualization to implementation to publication. The volume will be published in French and English.
