Mittell, 2013-09-16 Examines social and cultural phenomena through the lens of different television shows. We all have opinions about the television shows we watch, but television criticism is about much more than simply evaluating the merits of a particular show and deeming it good or bad. Rather, criticism uses the close examination of a television program to explore that program's cultural significance, creative strategies, and its place in a broader social context. *How to Watch Television* brings together forty original essays from today's leading scholars on television culture, writing about the programs they care and think the most about. Each essay focuses on a particular television show, demonstrating one way to read the program and through it, our media culture. The essays model how to practice media criticism in accessible language, providing critical insights through analysis, suggesting a way of looking at TV that students and interested viewers might emulate. The contributors discuss a wide range of television programs, past and present, covering many formats and genres, spanning fiction and non-fiction, broadcast and cable, providing a broad representation of the programs that are likely to be covered in a media studies course. While the book primarily focuses on American television, important programs with international origins and transnational circulation are also covered. Addressing television series from the medium's earliest days to contemporary online transformations of television, *How to Watch Television* is designed to engender classroom discussion among television critics of all backgrounds. **Popular Mechanics**, 1986-01 Popular Mechanics inspires

This is Dan Rattiner's fourth collection of essays about the fishermen, farmers, celebrities, billionaires, and artists who live, work, and play in the Hamptons. As the founder and publisher of *Dan's Papers*, a weekly community newspaper, Rattiner knows the Hamptons backwards and forwards, and stories of his encounters on the South Fork of Long Island give readers a greater understanding of how this community has changed over the years and the major figures who have shepherded these changes along. In addition to well-known faces such as Dr. Oz and billionaires like Ira Rennert and his wife, who built the second largest private home in America, you'll also read about
