web in the laser cutting process laser parameters such as laser output power and pulsating frequency cutting speed assisting gas pressure and focal distance determine the end product quality the sideways burning along the cutting paths results in poor cutting quality particularly wedge cuts forming in sheet metal

machining parameter optimization for laser machining - Sep 25 2022

web jul 1 2022 this study evaluates the combination of laser cutting parameters to produce good machining result by using statistical method via jmp software 4 variable parameters were considered including material thickness laser

laser cutting parameters the definitive guide baison - Aug 05 2023

web dec 27 2022 the laser parameters include laser cutting quality wavelength beam polarization power and intensity cutting speed processing gas focal point and material specifications importance of laser cutting parameters
