Sandwiches Sidney Aptekar, 1953 **House & Garden** ,1926 Manuscript Recipe Books as Archaeological Objects Madeline Shanahan, 2014-11-18 During the mid to late seventeenth century women in Irish houses from elite backgrounds started to collect recipes which they recorded in domestic manuscripts While these manuscripts were made elsewhere at an earlier date they were an almost entirely new arrival to Ireland in this period and their sudden proliferation said much about changes taking place in society at large This book is a detailed study of such manuscripts from the perspective of historical archaeology which will argue that they are artifacts which clearly demonstrate that a profound series of changes was taking place The written word penetrated people s daily lives and homes to a degree that it had not in previous periods and it had a

profound influence on how they related to their world objects and each other While this book will address how we can use them as sources for the study of food history and material culture it is ultimately concerned with the meanings of manuscript recipe books and specifically what they say about the individuals and society that made them The proliferation of these manuscripts signaled a profound change not just in cuisine but also in the way people thought about and related to food as a form of material culture Ultimately this book will argue that these manuscripts are not simply excellent records which can tell us about material culture within the early modern house but that they are a profoundly important type of artifact in their own right Undertaking research that situates textual objects such as recipe books at the very core of historical archaeology is critical to understanding some of the most significant changes that took place in the early modern world [The Founders of American Cuisine](#) Harry Haff,2015-05-07 This work describes the lives careers and significance of seven chefs and authors who had profound influences on the creation of American cuisine Amelia Simmons author of the first known American cookbook Mary Randolph whose *The Virginia Housewife* is considered the first regional American cookbook Miss Leslie and her bestselling 19th century work former slave Mrs Abby Fisher and her book on Southern cooking Lafcadio Hearn s *La Cuisine Creole* Charles Ranhofer s influence on the role of the modern chef and Victor Hirtzler and his California cuisine The second section includes selected recipes from each author s books with notes to aid adaptation by the modern cook Instructors considering this book for use in a course may request an examination copy here *Colonial Cooking* Susan Dosier,2000 Discusses everyday life family roles cooking methods most important foods and celebrations of the colonial period in American history Includes recipes and sidebars
