The setting of a story usually reflects its atmosphere. Atmosphere describes the mood of a story. Many works of fiction use setting as a mirror of the subjects of the stories, which the story occurs. Used as a setting that lays down expectations for the reader. Readers need that writing fiction is a skill and authors carefully select which details to include or leave out. By focusing on one aspect of setting, authors may be making a social commentary. Indeed, some of the most interesting stories are about characters who behave in stark contrast to the expectations produced by the setting.
