

Unit of Study: Tactical Games Lesson Topic: Bean Bag Fun Run
Learning Objective (Teaching Point): I will learn the difference between the underhand and overhand throw by playing Bean Bag Fun Run.
National Physical Education Standard 1: Demonstrates competency in motor skills and movement patterns needed to perform a variety of physical activities.
Academic and Content Vocabulary: Aim-to point or direct a ball at a target. Throwing Accuracy-Your ability to throw a ball at a target successfully.
Materials/Resources: Bean bags, bowling pins and cones
Motivation/Connection: We have played several activities this school year that included throwing a ball either overhand or underhand. Today, we will focus on accuracy. Much like a baseball player has to throw accurately to be successful in a baseball game, we will have to be accurate when throwing while playing Bean Bag Fun Run.
Prerequisite Skills: Students have worked on the overhand/underhand throws while playing Knockdown Fun.
Learning Plan/Class Activity (Main Activity): Athletes, we are going to work on improving our throwing accuracy. We are going to work on throwing bean bags underhand and overhand. To throw a bean bag overhand hold it in your favorite hand (This is called your dominant hand because you use it often). Look at the target and step towards it with your opposite foot (opposite the side that you write with). Bring the ball near your ear as you prepare to throw it. Throw the bean bag at the target and continue looking at the target as you follow through. To throw a bean bag underhand hold it in your favorite hand. Look at the target and step towards it with your opposite foot. Raise your throwing arm behind your body and release the bean bag when it is knee high. Continue looking at your target as you follow through. The object of today's game is to work together with your team to knockdown several bowling pins by throwing (either underhand or overhand) bean bags. Once all four bowling pins have been knocked down each member of your team will have to run a single lap.
Higher Order Thinking Question(s): In which sports is it important to accurately throw or hit an object and why?
Differentiated Instruction: -Athletes with advanced throwing skills will be challenged by throwing bean bags from a farther distance. -Athletes on grade level will improve their throwing accuracy by following instructions from the learning plan. -Selected below grade level athletes will be provided individual instruction. Students far below grade level will be allowed to move closer to the target.
Closure (Culminating Activity): Selected students will participate in a throwing contest. Several students will share their thoughts about how they can improve their throwing accuracy.
Assessment: Students will be assessed visually and through assessment sheets.

Through the use of practice scenarios and communication exercises principals can develop a more supportive relational process for teacher evaluation Too often principals provide evaluation feedback in ways that do not resonate with teachers This text examines the communicative process and provides practice and skill building opportunities that will enable principals to develop supportive environments that help teachers continue to grow *Enhancing Student Achievement* Charlotte Danielson, 2002-11-15 Educators devoted to school reform focus all too often on the isolated components of K 12 education this is the essential premise of this powerful new book If we are truly committed to improving our schools the author contends then we must focus on the interdependence of variables that affect student learning both inside and outside the classroom The book is divided into three distinct parts In Part 1 Danielson introduces the Four Circles Model to define the criteria for successful school improvement Everything educators do to help their students learn must be based on what educators want school district or state goals believe values and principles and know educational research In Part 2 the author provides a framework for improving schools including curriculum team planning and policies and practices affecting students and connects every concept to the criteria presented in Part 1 She also provides a handy rubric at the end of each chapter both as a summary of main points and as a tool for educators to gauge the needs of their school Part 3 offers readers guidelines on how best to implement the framework using action planning Brimming with perceptive advice and thought provoking arguments this book is both a wake up call and a roadmap to success for those determined to provide students with the best education possible Note This product listing is for the Adobe Acrobat PDF version of the book *General Pedagogy* Martha M. A. Zama, Margaret Nalova Endeley, 2023-02-24 General Pedagogy A Guide to Effective Teaching demystifies the scientific art of teaching by providing facts principles and concrete examples in real life situations such that neither the novice teacher who peruses it will stutter in front of students on the first day of school nor will the experienced teacher write and execute the same old lesson plans on that day The best teachers are those who show you where to look but don't tell you what to see is a popular quote attributed to Alexandra K Trenfor which aptly summarises the kind of teachers this book intends to produce when used as a teacher training resource Real teachers facilitate learning they do not simply tell learners the answers to their questions and concerns Accordingly the authors take the readers through well researched themes in the academic discipline of teaching wherein they present analyse and discuss pertinent issues Although they provide useful suggestions for teaching success the authors encourage teachers to interpret facts ideas and suggestions presented against the sociocultural contexts of their practice The materials are presented creatively while adding a personal touch intended to facilitate effective and efficient learning For coherence and better comprehension the book has been carefully crafted in eighteen chapters lodged in six parts The first part introduces the reader to the concepts of teaching and teaching effectiveness The theoretical underpinnings of these concepts are brought out in the second part which paves the way for the third part that describes generic teaching approaches strategies and methods Part four and five comprise

essential teaching skills and teaching tools for the 21st century while part six wraps up with the transition from teacher training laboratories to classrooms in the real world The last two chapters intentionally prepare the teacher to overcome challenges of professional work in contemporary African classrooms Measuring School Performance & Efficiency Leanna Steifel,2013-10-02 This yearbook focuses on alternative ways to measure how well schools are educating their students delivering what parents want and using resources efficiently *Diagnostic Classroom Observation* Nicole Saginor,2008-05-22 Covers the entire supervision process from preconference analysis to postconference follow up and includes protocols for observing math science and literacy instruction
