The Moral Underground Lisa Dodson, 2010-01-12 A fascinating look at the disconnect between corporate policies and workers' real lives and the everyday heroes who try to help. *Publishers Weekly* For the poor, there are challenges every day that they don't have extra money to solve: a sick kid, car trouble, an unexpected dentist bill. The obstacles can make it harder to hold on to a job, but a job loss would be catastrophic. However, there are countless unsung heroes who bend or break the rules to help those millions of Americans with impossible schedules. Paychecks and lives make it from paycheck to paycheck. This book tells their stories. Whether it's a nurse choosing to treat an uninsured child, a supervisor deciding to overlook infractions, or a restaurant manager sneaking food to a worker's children, middle-class Americans are secretly refusing to be complicit in a fundamentally unfair system that puts a decent life beyond the reach of the working poor. In this tale of a kind of economic disobedience told in whispers, Lisa Dodson, over the course of eight years of research across the country, hundreds of supervisors, teachers, and health care professionals describe intentional acts of defiance that together tell the story of a quiet revolt of a moral underground that has grown in response to an immoral economy. It documents a whole new phenomenon: people reaching across America's economic fault line and providing an account of the human consequences and lives behind the business page headlines. If only this book had been published in 2007, then the hundreds of people interviewed by Lisa Dodson would have been able to pass along an important piece of advice: What's good for business is not necessarily good for America. **Time**

Storytelling Strategies for Reaching and Teaching Children with Special Needs Sherry Norfolk, Lyn Ford, 2017-11-21 This book supplies stories, essays, lesson plans, and specialized storytelling strategies to help teachers level the playing field for all learners and better serve children with special needs. More than 57 percent of the over 6 million American children with disabilities are in inclusive, i.e., general classrooms. Self-contained classrooms serve children whose disabilities are either more severe or disruptive. As much as 20 percent of the children in an inclusive classroom are identified as disabled, with the highest percentage of these having learning disabilities. While most classrooms have at least one child with a disability, teachers often have little or no training in educating and caring for these children. The need for resources that support educators working with children with disabilities or social/emotional difficulties is clear. This book fills this critical need, supplying school and

public librarians classroom and special area teachers and storytelling teaching artists with storytelling strategies for reaching and teaching children with special needs in inclusive classrooms self contained classrooms and public and school libraries These full text stories essays and lesson plans from experienced storytelling teaching artists provide educators with a wide range of adaptable storytelling and teaching strategies for specific disabilities and enable storytellers to discover news ways to perform their storytelling magic The book also offers compelling real life anecdotes that demonstrate the impact of these strategies in inclusive and self contained classrooms presents an introduction to the skills of storytelling why they are useful and how to use them and includes suggested modifications for a wide range of disabilities as well as detailed resource lists
