Dear Mr. Fabrigar,

Greetings of Peace and Good Health!

**RE: Recommendation of MA. LEILA A. LABAN, RM, Rural Health Midwife of LGU Villanueva**

This is related to the intention in defining and illustrating my Rural Health Midwife, **MS. MA. LEILA A. LABAN, RM** who had been working under my direct supervision through the Public Health Nurses for 21 years. She's currently assigned in Barangay Kimaya which is a Geographically Isolated and Disadvantage Area (GIDA) in our Municipality. The roles and responsibilities as a Rural Health Midwife was beyond comfort especially in dealing with Indigenous People and other ethnic groups. Providing primary health care services to GIDA barangay takes full determination and compassion for service considering the level of understanding and cultures related to alternative medicines.

Implementation of health services towards health promotion and disease prevention as manifested by Ms. Laban is highly commendable. She was able to provide health care service outside was it expected from her. The people submit themselves for treatment and management without doubt since the community trust her as they're primary health care provider. The health services were properly rendered even beyond office hours as the community demands without prejudice and hesitations.

Furthermore, as her direct supervisor, I was able to observe the mannerism of professionalism, ethical conduct, respect, and passion of service. She always finishes task on time with effectiveness and efficiency as reported and reflected on her accomplishments in the Barangay Kimaya. The community were provided with all the available health services offered by the Rural Health Unit as supported by the Local Government Unit of Villanueva.

Recommending Officer / Direct Supervisor:

place make three dolls from the child's clothing to put into the cradle. The huldrefolk will take one of them instead of your child. These and many more fascinating folk healing rituals were secretly administered by healers, witches, and religious caregivers who tended the medical and spiritual needs of rural Norwegians for hundreds of years. In *Remedies and Rituals*, Kathleen Stokker culls from hundreds of original documents and first-hand accounts to detail the ingredients, customs, and histories behind natural remedies, potions, whispered spells, and the infamous black books used for centuries by Norway's folk healers. Stokker also illuminates the surprising personalities of those who risked imprisonment and persecution to help fellow Norwegians throughout the nineteenth century, as well as the often reluctant healers in the U.S. who continued to treat immigrants living in rural communities beyond the reach of doctors. Dodging harsh criminal laws championed by formally trained doctors, these rebel practitioners drew on ancient written and oral sources to treat everything from burns, broken bones, and whooping cough to difficult labors and emotional stress.
