

CLEANING THE GREASE FILTER

Your microwave oven has reusable grease filter. The grease filters should be removed and cleaned at least once every four months or as required. To order a new grease filter, contact SamsungParts at 1-800-627-4368 or your Samsung dealer. You can also order online at www.samsungparts.com

 Your microwave oven has a filter reminder function. See page 10 for details.

 To avoid risk of personal injury or property damage, do not operate the oven hood without the filters in place.

1. To remove the filter, slide them to the rear using the tabs, then pull down and out.

2. Soak the grease filter in hot water and a mild detergent. Rinse well and shake to dry. Brushing the filter lightly can remove embedded dirt.

 Do not use ammonia or put the grease filter in the microwave oven cavity to dry. The aluminum will darken.

3. To re-install the filter, slide it into the frame slots on the back of each opening, and then press up and to the front to lock it.

REPLACING THE CHARCOAL FILTER

If your oven is vented to the inside, the charcoal filter should be replaced every 6 to 12 months and more often if necessary. The charcoal filter cannot be cleaned. To order a new charcoal filter, contact SamsungParts at 1-800-627-4368 or your Samsung dealer. You can also order online at www.samsungparts.com

1. Unplug the oven or turn off the power at the main power supply.
2. Open the door.
3. Remove the vent grille mounting screws (2 middle screws).
4. Slide the vent grille to the left, then pull it straight out.
5. Push the hook, and then remove the old filter.

6. Slide a new charcoal filter into place. The filter should rest at the angle shown.
7. Replace the vent grille and 2 screws, and then close the door. Turn the power back on, and then set the clock.

Samsung C5030 User Manual
