Organizations At War In Afghanistan And Beyond:

Organizations at War in Afghanistan and Beyond Abdulkader H. Sinno, 2008 While popular accounts of warfare particularly of nontraditional conflicts such as guerrilla wars and insurgencies favor the roles of leaders or ideology social scientific analyses of these wars focus on aggregate categories such as ethnic groups religious affiliations socioeconomic classes or civilizations Challenging these constructions Abdulkader H Sinno closely examines the fortunes of the various factions in Afghanistan including the mujahideen and the Taliban that have been fighting each other and foreign armies since the 1979 Soviet invasion Focusing on the organization of the combatants Sinno offers a new understanding of the course and outcome of such conflicts Employing a wide range of sources including his own fieldwork in Afghanistan and statistical data on conflicts across the region Sinno contends that in Afghanistan the groups that have outperformed and outlasted their opponents have done so because of their successful organization Each organization s ability to mobilize effectively execute strategy coordinate efforts manage disunity and process information depends on how well its structure matches its ability to keep its rivals at bay Centralized organizations Sinno finds are generally more effective than noncentralized ones but noncentralized ones are more resilient absent a safe haven Sinno s organizational theory explains otherwise puzzling behavior found in group conflicts the longevity of unpopular regimes the demise of popular movements and efforts of those who share a common cause to undermine their ideological or ethnic kin The author argues that the organizational theory applies not only to Afghanistan where he doubts the effectiveness of American state building efforts but also to other ethnic revolutionary independence and secessionist conflicts in North Africa the Middle East and beyond Organizations at War in Afghanistan and Beyond Abdulkader H. Sinno, 2011-03-15 After we had exchanged the requisite formalities over tea in his camp on the southern edge of Kabul s outer defense perimeter the Afghan field commander told me that two of his bravest mujahideen were martyred because he did not have a pickup truck to take them to a Peshawar hospital They had succumbed to their battle wounds He asked me to tell his party s bureaucrats across the border that he needed such a vehicle desperately I double checked with my interpreter that he was indeed making this request I wasn t puzzled because the request appeared unreasonable but because he was asking me a twenty year old employee of a humanitarian organization to intercede on his behalf with his own organization s bureaucracy I understood on this dry summer day in Khurd Kabul that not all militant and political organizations are alike from Organizations at War in Afghanistan and Beyond While popular accounts of warfare particularly of nontraditional conflicts such as guerrilla wars and insurgencies favor the roles of leaders or ideology social scientific analyses of these wars focus on aggregate categories such as ethnic groups religious affiliations socioeconomic classes or civilizations Challenging these constructions Abdulkader H Sinno closely examines the fortunes of the various factions in Afghanistan including the mujahideen and the Taliban that have been fighting each other and foreign armies since the 1979 Soviet invasion Focusing on the organization of the combatants Sinno offers a new understanding of

the course and outcome of such conflicts Employing a wide range of sources including his own fieldwork in Afghanistan and statistical data on conflicts across the region Sinno contends that in Afghanistan the groups that have outperformed and outlasted their opponents have done so because of their successful organization Each organization s ability to mobilize effectively execute strategy coordinate efforts manage disunity and process information depends on how well its structure matches its ability to keep its rivals at bay Centralized organizations Sinno finds are generally more effective than noncentralized ones but noncentralized ones are more resilient absent a safe haven Sinno s organizational theory explains otherwise puzzling behavior found in group conflicts the longevity of unpopular regimes the demise of popular movements and efforts of those who share a common cause to undermine their ideological or ethnic kin The author argues that the organizational theory applies not only to Afghanistan where he doubts the effectiveness of American state building efforts but also to other ethnic revolutionary independence and secessionist conflicts in North Africa the Middle East and beyond

Afghanistan War Ryan Wadle, 2018-10-01. Providing an invaluable introductory resource for students investigating the war in Afghanistan, this book highlights the evolution of the conflict through the documents that helped to shape it. This carefully curated primary source collection includes more than 80 documents from the national and international participants in nearly four decades of conflict that led to the Afghanistan War. Readers will gain an understanding of the macro and micro costs of the war on the participants and the political, social, economic, and military factors that have allowed the fighting to persist. Authored by a former member of the Afghanistan Study Team at the U.S. Army's Combat Studies Institute, readers will gain special insight into the military dynamics of the war in Afghanistan and how the war has changed those who have fought in it. The book is divided into four chapters that cover the primary phases of the war in Afghanistan: The Soviet Invasion and Civil War (1979-2001), Operation ENDURING FREEDOM and Reconstruction Begins (2001-2003), The Taliban Return (2003-2009), and The Surge, Drawdown, and an Uncertain Future (2009-2017). This structure enables readers to clearly understand how the war evolved and the most significant developments that shaped each period.

Basrah, Baghdad, and Beyond Nicholas E. Reynolds, 2005. This is the story of the Marine Corps in the major combat phase of Operation Iraqi Freedom (OIF). It tells how the Marine Expeditionary Force (MEF) planned and prepared for war in 2002 and deployed to theater in early 2003 and then how it crossed the line of departure and fought its way to Baghdad and beyond. Written by Marine Corps historian Col. Nicholas Reynolds, this first overview of the history of OIF is solidly grounded in oral history interviews and buttressed by official reports and firsthand journals. It describes not only the execution of the original plan but some of the unusual additions carried out by the Marines, including a small mission sent to Kurdistan to work with local fighters and a task force sent to seize Saddam Hussein's hometown of Tikrit. The book draws to a close with the commanders analyzing the lessons learned in this transformational war as the last Marine left the theater in the fall of 2003. While not intended as finished history, this authoritative analysis of what happened will prove useful to students of Marine Corps history and operations and easily accessible to the general reader who wants to understand what the Marines did in a historical context. It is certain to stimulate further research and healthy debate. Comprehensive notes are included for the reader who wants to learn more about a particular part of the war.
