Citroën DS 19, 1959 **Citroen** Lance Cole, 2014-03-31 In this new view on the Citroen story automotive aviation writer and design specialist Lance Cole investigates not just the details of the cars of Citroen but the aeronautical and cultural origins that lay behind Citroen's form and function The book digs deep into the ethos of Automobiles Citroen to create a narrative on one of the greatest car manufacturers in history Using interviews translations archive documents and specially commissioned photographs the Citroen journey is cast in a fresh perspective It explains in detail the influences upon Citroen design Voisin Lefebvre Bertoni Boulanger Mages Opron and recent Citroen designers such as Coco Blakeslee and Soubirou As well as all the men of the great period of 1920s 1970s expansion cites less well known names of Citroen's French engineering design and influence such as Cayla Gerin Giret Harmand Dargent and others to give a full picture of Citroen heritage , The Lost Continent Gavin Hewitt, 2013-04-25 In THE LOST CONTINENT BBC Europe Editor Gavin Hewitt tells the story of a flawed dream a noble vision that turned dangerous and which led Europe into its gravest crisis since World War Two a crisis for which it was totally unprepared A pillar of the post war European dream was a shared currency and with it came easy money seducing some countries into a wild spending binge After the financial crash in the United States Europe caught the cold and was left with a debt crisis that came to threaten the entire European project THE LOST CONTINENT is rich in anecdote weaving together the stories of ordinary people with the high politics and drama of Europe in crisis to give an unparalleled and vivid portrait of a massive shift in modern history It includes interviews with top officials and insiders and dramatic accounts of key meetings Gavin Hewitt's THE LOST CONTINENT is a clear eyed book by a distinguished and well connected journalist which tells the astonishing story of how we got here and where we might be headed **Don't Tell the Boss!** Dmitry Chernov, Didier Sornette, Giovanni Sansavini, Ali Ayoub, 2023-01-20 After a major disaster when investigators are piecing together the story of what happened a striking fact often emerges before disaster struck some people in the organization involved were aware of dangerous conditions that had the potential to escalate to a critical level But for a variety of reasons this crucial information did not reach decision makers So the organization moved ever closer to catastrophe effectively unaware of the possible threat despite the fact that some of its employees could see it coming What is the problem with communication about risk in an organization and why does this problem exist What stops people in organizations or project teams from freely reporting and discussing critical risks This book seeks to answer these questions starting from a deep analysis of 20 disasters where the concealment of risks played a major part These case studies are drawn from around the world and span a range of industries civil nuclear power coal oil and gas production hydropower energy metals and mining space exploration transport finance retail manufacturing and even the response of governments to wars famines and epidemics Together case studies give an insight into why people hesitate to report risks and even when they do why their superiors often prefer to ignore the news The book reviews existing research on the challenges of voice

and silence in organizations This helps to explain more generally why people dread passing on bad news to others and why in the workplace they prefer to keep quiet about unpleasant facts or potential risks when they are talking to superiors and colleagues The discussion section of the book includes important examples of concealment within the Chinese state hierarchy as well as by leading epidemiologists and governments in the West during the novel coronavirus outbreak in Wuhan in 2019 2020 The full picture of the very early stage of the COVID 19 pandemic remains unclear and further research is obviously needed to better understand what motivated some municipal provincial and national officials in China as well as Western counterparts to obfuscate facts in their internal communications about many issues associated with the outbreak **Auto e**

Parissien, 2014-05-13 The Life of the Automobile is the first comprehensive world history of the car The automobile has arguably shaped the modern era more profoundly than any other human invention and author Steven Parissien examines the impact development and significance of the automobile over its turbulent and colorful 130 year history Readers learn the grand and turbulent history of the motor car from its earliest appearance in the 1880s as little more than a powered quadricycle and the innovations of the early pioneer carmakers The author examines the advances of the interwar era the Golden Age of the 1950s and the iconic years of the 1960s to the decades of doubt and uncertainty following the oil crisis of 1973 the global mergers of the 1990s the bailouts of the early twenty first century and the emergence of the electric car This is not just a story of horsepower and performance but a tale of extraordinary people of intuitive carmakers such as Karl Benz Sir Henry Royce Giovanni Agnelli Fiat Andr Citro n and Louis Renault of exceptionally gifted designers such as the eccentric

Ohio born Chris Bangle BMW and of visionary industrialists such as Henry Ford Ferdinand Porsche the Volkswagen Beetle and Gene Bordinat the Ford Mustang among numerous other game changers Above all this comprehensive history demonstrates how the epic story of the car mirrors the history of the modern era from the brave hopes and soaring ambitions of the early twentieth century to the cynicism and ecological concerns of a century later Bringing to life the flamboyant entrepreneurs shrewd businessmen and gifted engineers that worked behind the scenes to bring us horsepower and performance The Life of the Automobile is a globe spanning account of the auto industry that is sure to rev the engines of entrepreneurs and gearheads alike **The Autocar** ,1974 Auto e fisco.
