Exploring the Ocean Worlds of Our Solar System Bernard Henin,2024-08-22 In the past 25 years planetary science has undergone a revolution with the discovery of vast oceans of liquid water within the icy moons of our Solar System These subsurface oceans are concealed beneath thick ice layers We refer to these moons and similar ocean bearing planetary objects as ocean worlds In this 2nd edition we delve into and compare the latest scientific discoveries on 22 confirmed or potential ocean worlds ranging from the giant asteroid Ceres and the icy moons Europa and Enceladus to the distant dwarf planets of the outer Solar System such as Pluto Sedna and Eris Along the way we explore the contributions of multiple spacecraft such as the Pioneers the Voyagers Galileo Cassini Huygens and many others which have provided much of our current knowledge about these worlds as well as the latest scientific research on this subject This book also explores the potential for life on each of the confirmed ocean worlds evaluating their habitability Ultimately these might hold the key to answering fundamental questions about life How did life begin Is there life beyond Earth Where do we come from With contributions from leading planetary scientists at NASA ESA and other institutions this book aims to be the definitive reference for anyone interested in this captivating subject *Scientific and Technical Aerospace Reports* ,1970-05 The Pluto System After New Horizons S. Alan Stern,2021-08-10 Once perceived as distant cold dark and seemingly unknowable Pluto had long been marked as the farthest and most unreachable frontier for solar system exploration After Voyager accomplished its final planetary reconnaissance at Neptune in 1989 Pluto and its cohort in the Kuiper Belt beckoned as the missing puzzle piece for completing the first reconnaissance of our solar system In the decades following Voyager a mission to the Pluto system was not only imagined but also achieved culminating with the historic 2015 flyby by the New Horizons spacecraft Pluto and its satellite system the Pluto system including its largest moon Charon have been revealed to be worlds of enormous complexity that fantastically exceed preconceptions The Pluto System After New Horizons seeks to become the benchmark for synthesizing our understanding of the Pluto system The volume s lead editor is S Alan Stern who also serves as NASA s New Horizons Principal Investigator co editors Richard P Binzel William M Grundy Jeffrey M Moore and Leslie A Young are all co investigators on New Horizons Leading researchers from around the globe have spent the last five years assimilating Pluto system flyby data returned from New Horizons The chapters in this volume form an enduring foundation for ongoing study and understanding of the Pluto system The volume also advances insights into the nature of dwarf planets

and Kuiper Belt objects providing a cornerstone for planning new missions that may return to the Pluto system and explore others of the myriad important worlds beyond Neptune **Stem Cells and Cardiovascular Diseases** Shijun Hu,Lei Ye,Mingtao Zhao,Feng Lan,2022-03-17 **Dove Arising** Karen Bao,2015-02-24 Phaet Theta has lived her whole life in a colony on the Moon She s barely spoken since her father died in an accident nine years ago She cultivates the plants in Greenhouse 22 lets her best friend talk for her and stays off the government s radar Then her mother is arrested The only way to save her younger siblings from the degrading Shelter is by enlisting in the Militia the faceless army that polices the Lunar bases and protects them from attacks by desperate Earth dwellers Training is brutal but it s where Phaet forms an uneasy but meaningful alliance with the preternaturally accomplished Wes a fellow outsider Rank high save her siblings free her mom that s the plan Until Phaet s logically ordered world begins to crumble Suspenseful intelligent and hauntingly prescient Dove Arising stands on the shoulders of our greatest tales of the future to tell a story that is all too relevant today
