FRUIT SALAD RECIPE Percy Willis,2022-02-05 INTRODUCTION Fruit salads are extremely nutritious Tossing various fruits into a large bowl can be as simple as that It doesn't get any better than that I've used this salad as a quick dish to bring to a potluck or as a gift to bring with you when you're a dinner guest It's a very versatile dish that anyone can eat and it's especially good for vegetarians Salads in general can have a positive impact on one's health However by including these treats as a regular part of the diet people can significantly improve the quality of their diets health Fruit salads can be made with any type of fruit and provide a tasty and healthy way to promote a healthier lifestyle One reason people should eat more of this type of salad is to lose weight In addition people gain energy when they consume the recommended number of fruits This extra energy can help motivate a person to exercise more frequently When combined with exercise Fruit salads can reduce unhealthy fat storage in the body People can lower their blood levels of harmful sodium and cholesterol by including these salads in their diet Both sodium and cholesterol have been linked to health risks when consumed in large amounts over a long period Therefore consuming fruit salads is one way to control sodium and cholesterol levels Fruit salads are an excellent way to promote heart health Increased energy exercise and lower cholesterol are preventative measures for heart disease Fruit salads can also help prevent the development of various types of cancer cells in the body Heart disease and cancer are the leading health issues confronting Americans today and they can be avoided by eating fruit salads **Healthy**
