 Discussion Paper No 271 This study incorporates data from comparable surveys across five African countries Ghana Malawi Mali Senegal and Tanzania to analyze how small and micro enterprises have been positively and negatively affected by policy liberalization schemes Some grow rapidly by adapting their products while others stagnate because of import competition and increased self employment Comparisons were made between small firms with 6 to 49 workers and microenterprises with fewer than 6 The study suggests a two pronged strategy 1 to facilitate widespread participation in microenterprises broad measures are needed to lower the costs of entry generate demand for their goods and services raise the educational level and incomes of the poor and encourage informal financial institutions 2 to stimulate growth of potentially dynamic enterprises well targeted measures may be appropriate to lower the costs of entry increase access to credit and provide demand driven business services Also available in French ISBN 0 8213 3907 0 Stock No 13907
