It sets out agreed levels of good practice. Participating retailers are independently inspected by the specially trained and qualified staff from SAI Global, one of the largest inspection and certification bodies in the world. This is the first publication in a planned series of standards to apply to a range of pet care specialists. This Quality Assurance Standard for Pet Retailers introduces a common standard for inspection that all pet retailers can follow. It is important both for retailers who sell pets and for those who sell just pet food and accessories and want to prove that their staff training, knowledge and systems are the best. The application of assessment criteria by a third party in this case, SAI Global, benefits the general public, businesses and any animals concerned as it provides the assurance of a shared standard against which retailers are inspected. The Quality Assurance Standards for Pet Retailers will give the pet-owning public reassurance about the health and welfare of the animals and about the specialist knowledge of the approved retailer. This inspection standard has been developed by the Pet Care Trust's Animal Welfare Advisory Group, which is made up of pet industry experts and includes a vet, zoologist, small animal breeders, a solicitor versed in animal welfare issues and pet retailers. On the fish section, the Pet Care Trust also worked closely with the Ornamental Aquatics Trade Association (OATA). *Occupational Outlook Handbook*, 2006 Describes 250 occupations which cover approximately 107 million jobs **Analytical Fleet Maintenance Management** John E
