Thank you for purchasing the Samson R21S Dynamic Microphone. The R21S dynamic microphone brings a high level of accuracy and audio performance to vocal miking applications.

The R21S is a hand held dynamic microphone that excels in both live performance and recording applications. Equipped with a linear frequency response for superior reproduction, it is also designed to withstand high sound pressure levels. Extremely sensitive, it employs a tight cardioid pattern to reduce feedback. A special shock-mounted element minimizes handling noise and provides additional protection. The R21S also features an on/off switch with a switch lock.

Features

The Samson R21S utilizes state-of-the-art microphone technology and is engineered to the finest detail. Here are some of its main features:

- Tight cardioid polar pattern minimizes feedback problems and effectively rejects signals not originating directly in front of the mic capsule.
- Extended range frequency response for optimum reproduction and exceptionally clear, crisp sound.
- Special shock-mounting allows movement of the mic element to greatly reduce handling noise.
- On/off switch with a switch lock to protect against performer/speaker accidentally switching the R21S off.
- Rugged zinc alloy die-casting case ensures reliable performance in even the most demanding environments.
- Lightweight and compact, the R21S can be mounted on any standard microphone stand (using the included mic clip) or can be easily handheld for long periods without inducing fatigue.
- Foam-lined impact resistant carrying case, 18 ft. XLR cable and mic clip included with **R21S single pack**. Mic clip included with each mic with **R21S 3-pack**.
- Withstands high SPLs lending itself to a wide range of miking situations.
- Ultra sensitive element picks up all of the nuances of any performance.
- Gold plated XLR Connector.
