Historically African higher education teaching and learning have relied on Western models paradigms assumptions concepts and procedures among other research related aspects Western hegemony and ideology has influenced and continues to influence the epistemologies and both the methods and outcome of higher education research The connection between teaching and learning is that teaching generates new forms of learning and learning challenges methods of teaching Western claims to universality objectivity and neutrality have dominated research paradigms in African higher education institutions to the detriment of alternative approaches and conceptions of knowledge Methods aligned to African teaching and learning are often unrecognised and thus underutilised despite calls for the mantra for decolonial research methods What are the African indigenous ways of teaching and learning How are they related to the present African university These puzzling questions provoke the minds of scholars on Africa to confront the discourse on decolonisation of higher education as they engage head on and interrogate contemporary teaching and learning methods *Mediating Learning in Higher Education in Africa From Critical Thinking to Social Justice Pedagogies* provides critical reflections to some of the above questions that affect African Higher Education as it seeks to transform itself and provide directions for the future Applications of

Arroyo-Manzanares,2020-06-17 Mycotoxins are secondary metabolites produced by the fungi of different species mainly *Aspergillus Fusarium* and *Penicillium* with toxic effects for humans and animals These mycotoxins can contaminate food and feed The European Union EU has established the maximum permitted or recommended levels for well known mycotoxins in different foodstuffs However there are other mycotoxins that are not included in the regulations the emerging mycotoxins whose toxicity is still not clear and the modified or masked mycotoxins produced as a consequence of a detoxification strategy of the host plant of the fungus or during food processing These mycotoxins could pose a risk and should also be taken into account In order to assure consumers health analytical methods for the accurate determination of mycotoxins in different food matrices and feeds are required In this sense liquid chromatography tandem mass spectrometry LC MS MS is a powerful tool for their unique identification and quantification Moreover the use of high resolution mass spectrometry HRMS allows one to identify novel mycotoxins and targeted untargeted approaches for study This Special Issue compiles recent applications of LC MS MS in mycotoxin studies as well as the development and validation of new analytical methods for their identification and quantification in different food matrices and feed occurrence studies and the biomonitoring of mycotoxins and their metabolites in biological fluids Public-Private Partnerships in Africa Thekiso Molokwane,Muhiya

English-Medium Instruction from an English as a Lingua Franca Perspective Kumiko Murata,2018-08-06 English is increasingly used as a lingua franca ELF in communicative situations the world over with the acceleration of globalisation This is in line with the increased introduction of English medium instruction EMI to higher education institutions in many parts of the world to further promote both students and faculty s mobility to make them competitive and employable in the globalised world and to make their institutions more attractive and reputable EMI and ELF however are rarely explicitly

investigated together despite the fact that the spread of EMI cannot be separated from that of ELF. This volume tackles the issue head on by focusing on EMI in higher education from an ELF perspective. The volume includes contributions by Asian, European, Middle Eastern, South American and Anglo American scholars. It discusses language policies, attitudes and identities, analyses of classroom EMI practices, case studies and finally pedagogical implications from an ELF perspective incorporating also theoretical and empirical issues in conducting EMI courses/programmes. The volume will be of great interest and use not only to those who are conducting research on ELF, EMI, CLIL, language policy and related fields but also to classroom teachers and policy makers who are conducting and/or planning to start EMI courses/programmes in their institutions or countries all over the world. *Handbook of Research on Smart Technology Models for Business and Industry* Thomas, J., Joshua, Fiore, Ugo, Lechuga, Gilberto Perez, Kharchenko, Valeriy, Vasant, Pandian, 2020-06-19. Führung und Organisation sind komplexe Phänomene, die oftmals durch Metaphern beschrieben werden. Zunehmend interessieren sich Theorie und Praxis für ihre Verwendung. Wie sehen sich Führungskräfte selbst und wie werden sie von anderen metaphorisch beschrieben? Gängige Sprachbilder reichen vom Gärtner und Coach bis hin zum Macher oder Priester. Alle diese Bilder sollen helfen, die zugrunde liegende Sichtweise auf Führung und Organisation zu beschreiben und geben einen Einblick, wie Führung von unseren metaphorischen Weltbildern beeinflusst wird. Wenig Aufmerksamkeit erfuhren bisher kulturelle Unterschiede bei der Verwendung von Metaphern im Bereich Führung und Organisation. Wie können wir die verborgenen Metaphern, die unser Denken unterbewusst prägen, an die Oberfläche bringen? Wie können wir alte Metaphern der Führung in einer modernen und globalisierten Welt nutzen? Der vorliegende Band dokumentiert die zentralen Ergebnisse einer interdisziplinären Konferenz zu Metaphern und Führung, an der Wissenschaftler und Wissenschaftlerinnen aus Afrika, Asien, Europa und Nordamerika teilgenommen haben. Metaphors are used increasingly in leadership theory and leadership development. How do leaders view themselves and how are they seen by others in terms of metaphors? One can find a wide range described in publications and

on coaching websites They range from gardener and coach to manager or priest They all help describe the underlying view on leadership and give insight into how leadership is influenced by our metaphorical view of the world However little work has been done on describing the influence of cultural perspectives in metaphors used in the area of leadership and organisations How can we bring to the surface the hidden metaphors that shape our thinking subconsciously How can we utilise old metaphors of leadership in a new and globalised world This volume documents the central results of an interdisciplinary conference on metaphors and leadership in which scientists from Africa Asia Europe and North America took part

Language and Institutional Identity in the Post-Apartheid South African Higher Education Leketi Makalela, 2022-03-21 This book examines the intersections between education identity formation and language in post apartheid South Africa with specific attention to higher education It does so against the backdrop of the core argument that the sector plays a critical role in shaping re producing and perpetuating sectoral class sub national and national identities which in turn in the peculiar South African setting are almost invariably analogous with the historical fault lines determined and dictated by language as a marker of ethnic and racial identity The chapters in the book grapple with the nuances related to these intersections in the understanding that higher education language policies overt and or covert largely structure institutional cultures or what has been described as curriculum in higher education institutions Together the chapters examine the roles played by higher education by language policies and by the intersections of these policies and ethnolinguistic identities in either constructing and perpetuating or deconstructing ethnolinguistic identities upon which the sector was founded The introductory chapter lays out the background to the entire book with an emphasis on the policy and practice perspectives on the intersections The middle chapters describe the so called White Universities Black Universities and Middle Man Minorities Universities The final chapter maps out future directions of the discourses on language and identity formation in South Africa s higher education
