Julia Schneider

Not By Chance Shattering The Modern Theory Of Evolution:

Not by Chance! Lee M. Spetner, 1997 The author criticizes neo Darwinism and suggests replacing it with the nonrandom evolutionary hypothesis NREH p 209 **Three Days Before the Sun** Warren LeRoi Johns, 2014-11-06 Three Days Before the Sun explores our origin purpose and destiny in an eternity of time and an infinity of space The holes and flaws acknowledged by Darwin in his evolution theory are precisely targeted with academic precision in a format designed for the general public The scrupulously documented title dismantles the chance hypothesis point by point as a lawyer presents evidence to a jury The 296 page illustrated title comes salted with homey colloquialisms methodically exposing unproven assumptions But more than an expos of flawed conjecture masquerading as science Three Days Before the Sun offers a generic Christian glimpse of the raging origins controversy The book compliments the faith of Christian communities who believe the Genesis account of the creation miracle while asserting the Creator of the universe is the Author of science

Evolution Impossible John F. Ashton, John Ashton, 2012 There is scientific evidence proving evolution cannot be responsible for life on Earth In *Evolution Impossible* Dr John Ashton uses discoveries in genetics biochemistry geology radiometric dating and other scientific disciplines to explain why the theory of evolution is a myth Regardless of your level of scientific education you will finish this book able to cite 12 reasons why evolution cannot explain the origin of life

Evolution Christopher H. K. Persaud, 2007-12 Darwinian evolution is taught unreservedly to students of science around the world as incontrovertible truth even though many aspects of the theory have been thoroughly discredited while others are woefully lacking in corroboration from a standpoint of proper scientific precept and practice Practical and honest scientists increasingly are acknowledging that evolutionism is biologically and mathematically impossible The outlandish premise is at odds with the laws of physics and manifestly incompatible with genuine geological and paleontological criteria for aging and classifying rocks strata and fossils Evolutionary theory's ostracism of God as a supreme designer and creator of the universe and of life has emboldened many of history's most ruthless dictators who have embraced its disturbing message to commit crimes of unspeakable evil Many millions of people have lost their lives as demagogues fueled by evolutionist inclinations have sought to legitimize sinister proclivities such as racism bigotry eugenics and ethnic cleansing among other perpetrations of antipathy and wickedness It is not unreasonable to assume that many of today's social and behavioral thinkers as well as misguided scientists who support evolutionary theory also nurture predilections that are far removed from wholesome deportment and espouse leanings that show scant respect for the sanctity of human life Evolutionary thought falls outside the precincts of essential moral contemplation and is beyond the realm of real science *Gnosticism Through the Prism of the Third Millennium* Alexander Maistrovoy, 2018-04-27 In the epoch of the late antiquity Gnostic schools gave their own exhaustive answers for the eternal questions of humankind Who are we Where did we come from and why do we exist What gives rise to endless and inescapable evil and suffering Jorge Borges describes the Gnostic view of life that we are a

careless or criminal blunder the fruit of engagement of the flawed deity and crude material Thus the Gnostic answers to these questions were radically different from those espoused by traditional religions of the time Gnosticism through the Prism of the Third Millennium explores this Gnostic view of life and how they viewed a material world as a distortion of celestial spheres and how in humanity they saw a being doomed to suffering yet carrying inside the spark of the supreme divine world Author Alexander Maistrovoy offers a history of Gnosticism and its confrontation with the church showing how despite the crash of Gnostic schools its teachings and its questions did not disappear Today we can make sense of Gnostic philosophy not through the prism of mysticism or mythology but from the point of view of rationalism scientific knowledge and historical experience And what we will discover is that Gnostic thought has meaning and relevancy today shedding light on fundamental questions about the universe ourselves and the divine

The Scientific Case Against Scientific

Creationism Jon P. Alston, 2003-09 Sociologist Jon P Alston offers a unique and clear analysis of the weaknesses of scientific creationism and intelligent design by identifying what creationists say when they reject evidence for evolution He demonstrates how scientific creationists accept non scientific statements that contradict established scientific knowledge Acceptance of anti evolutionary knowledge also demands acceptance of a literal six day creation and other statements contradicting scientific findings Few persons have read so closely the writings of scientific creationists to illustrate how anti scientific anti evolutionists become when they criticize the fact of evolution Creationists are forced to develop just so stories to defend their literal interpretations of Biblical scripture Alston finds creationists cannot defend their religious beliefs using established scientific methodologies and principles *Persuaded by the Evidence* Jerry Bergman, Doug Sharp, 2008 A unique and interesting collection of true stories from Christians each sharing his personal journey to find the biblical truth of a six day creation From scientists in the midst of complex research to youth ministers and more see how each began at a different point and place in his life to question the supposed truth of evolution and how faith and actual evidence led to his embracing a creation based biblical world view In their testimonies you will read about their search for answers often unavailable through their school their church or scientific knowledge and how the discoveries they made have shaped their faith and changed their lives Seeking answers for yourself Discover the powerful truths these individuals now share and find yourself also persuaded by the evidence Contributors include Carl Kerby Curt Sewell Dr Robert A Herrmann Dr Walter T Brown Dr Raymond Damadian Frank Sherwin and more *The Book of Absolutes* William D. Gairdner, 2008-08-21 A lively challenge to postmodern opinion that reveals satisfying and reliable certainties

The Mystery of Life What'S It All About? David E.

Peeples, 2018-03-15 Have you ever seriously considered the most difficult and puzzling questions presented to our minds during this mortal sojourn through an often difficult and challenging existence Who am I Where did I come from Why am I here Where am I going And perhaps the most important question of all What is my purpose for living In this ultra modern digital world of today many people have become so preoccupied with the daily pursuits of life and the addictive overuse of

time consuming technology that many of them rarely pause to seriously consider what life is actually all about In writing *The Mystery of Life* it has been my hope and my goal to personally challenge each reader to consider many relevant facts and to follow a line of evidence pointing toward a worldview that is often overlooked and too easily marginalized We live in an aggressive technology driven world where the wild pursuit of power prestige possession and pleasure has become the driving influence ruling over many of our lives What does your worldview look like Is there enough evidence to support it beyond reasonable doubt If not then I invite you to consider a vast body of mounting evidence that could lead toward a more accurate discernment of an often confusing existence The view of life that we have each come to know will strongly influence everything we do say and become in this world Based on a remarkable consensus of evidence perhaps we should consider a worldview understanding that will ultimately avail our hearts and minds of the personal fulfillment and satisfaction we have always longed for and often dreamed of We owe it to ourselves to seriously consider where the evidence is leading us Isn't it about time to discover the answers to our most persistent and pressing questions *The Mystery of Life* is presented as a literary expose addressing the questions of origin meaning morality and destiny

Intelligent Design Or Evolution? Stuart Pullen, 2005. This volume examines issues associated with chemical evolution, the origin of life, and the evolution of molecular knowledge. It develops statistical models to describe the evolution of the first genes and proteins, but the fact that naturalistic laws fail to explain the origin of life implies that life was created.

Atheism or Theism? Hakan Gok, 2018-08-22. Is there a God? Is one of those irrepressible questions that has been debated throughout human history, with scholars from opposite camps making the case for or against the existence of God? It is a never-ending debate. This book first examines the theistic arguments developed by Islamic scholar Said Nursi in the twentieth century. Although his arguments initially seem to be mere presentations of well-established theistic arguments for God, such as teleological and cosmological arguments from miracles and morals, it is clear that Nursi takes a fresh approach to these existing philosophical defenses. The book then analyses how Nursi tackles certain atheistic arguments, such as the problem of evil and the possibility of existence without a creator, and criticism leveled against the prophets and the Qur'an.

The Masculine Century, Part Michael Antony, 2009-10. What is the origin of left and right in politics? This book is a study of the two opposing ideologies that have shaped the modern age: Darwinism and Marxism, which battled for power in the Second

World War the Cold War and the culture wars of recent years Both are ideologies of aggression and violence and drove forward the colossal mass murder and total war that made the twentieth century the bloodiest in history Darwinism was the underpinning of dog eat dog capitalism ruthless colonial expansion and the Nazi doctrines of race war and the extermination of the weak Marxism preached the eternal division of mankind into oppressor and oppressed with violent revolution as the only salvation Despite their total bankruptcy these ideologies have meshed together in the centrist political consensus of the last decades to give us a laissez faire Darwinian economy and a neo Marxist social system The leftist causes of feminism and high immigration have become the tools of corporate power the means of holding down wages by flooding labor markets This led consumption to be fueled by debt which triggered the recent financial crash But this fatal rendezvous of Marx and Darwin threatens the future of our civilization even more definitively

Religion and the Sciences of Origins Kelly James

Clark,2014-05-21 This concise introduction to science and religion focuses on Christianity and modern Western science the epicenter of issues in science and religion in the West with a concluding chapter on Muslim and Jewish Science and Religion This book also invites the reader into the relevant literature with ample quotations from original texts *The Truth Behind the New Atheism* David Marshall, In Six Days John Ashton,2001-01-01 Why would any educated scientist with a PhD advocate a literal interpretation of the six days of creation Why indeed when only one in three Americans believes the Bible is the actual word of God and is to be taken literally word for word according to a recent Gallup poll Science can neither prove nor disprove evolution any more than it can creation Certainly there are no human eyewitness accounts of either However certain factors are present today which are capable of swaying one's beliefs one way or the other In this book are the testimonies of fifty men and women holding doctorates in a wide range of scientific fields who have been convicted by the evidence to believe in a literal six day creation For example meet The geneticist who concludes that there must have been 150 billion forerunners of modern man in order for the natural selection required by evolution to have taken place in the development of man The evidence for such vast numbers of prehistoric man is in dire shortage The orthodontist who discovered that European museum fossils of ancient man have been tampered with to adhere to evolution theories The geologist who studied under the late Stephen Jay Gould and literally cut the Bible to pieces before totally rejecting evolution All fifty of these scientists through faith and scientific fact have come to the conclusion that God's Word is true and everything had its origin not so very long ago in the beginning In Six Days
