Nothing But The Truth Study Guide John Kani:

Political Memory and the Aesthetics of Care Mihaela Mihai, 2022-01-11 With this nuanced and interdisciplinary work political theorist Mihaela Mihai tackles several interrelated questions How do societies remember histories of systemic violence Who is excluded from such histories cast of characters And what are the political costs of selective remembering in the present Building on insights from political theory social epistemology and feminist and critical race theory Mihai argues that a double erasure often structures hegemonic narratives of complex violence of widespread heterogeneous complicity and of impure resistances not easily subsumed to exceptionalist heroic models In dialogue with care ethicists and philosophers of art she then suggests that such narrative reductionism can be disrupted aesthetically through practices of mnemonic care that is through the hermeneutical labor that critical artists deliver thematically and formally within communities space of meaning Empirically the book examines both consecrated and marginalized artists who tackled the memory of Vichy France communist Romania and apartheid South Africa Despite their specificities these contexts present us with an opportunity to analyze similar mnemonic dynamics and to recognize the political impact of dissenting artistic production Crossing disciplinary boundaries the book intervenes in debates over collective responsibility historical injustice and the aesthetics of violence within political theory memory studies social epistemology and transitional justice Trauma and Literature J. Roger Kurtz, 2018-03-15 As a concept trauma has attracted a great deal of interest in literary studies A key term in psychoanalytic approaches to literary study trauma theory represents a critical approach that enables new modes of reading and of listening It is a leading concept of our time applicable to individuals cultures and nations This book traces how trauma theory has come to constitute a discrete but influential approach within literary criticism in recent decades It offers an overview of the genesis and growth of literary trauma theory recording the evolution of the concept of trauma in relation to literary studies In twenty one essays covering the origins development and applications of trauma in literary studies Trauma and Literature addresses the relevance and impact this concept has in the field Memorializing the Past Heidi Grunebaum, 2017-07-28 This work is a meditation on the shaping of time and its impact on living with and understanding atrocity in South Africa in the wake of the Truth and Reconciliation Commission TRC It is an examination of the ways that the institutionalization of memory has managed perceptions of time and transition of events and happenings of sense and emotion of violence and recovery of the past and the new Through this process a public language of memory has been carved into collective modes of meaning It is a language that seems deprived of the hopes dreams and possibilities for the promise of a just and redemptive future it once nurtured Truth commissions are profoundly implicated in the social politics of memorialization Memory as a conceptual historical and experiential discourse about the past relates to the ways in which cruelty is integrated into societal understandings which include cognitive and philosophic frameworks and constructions of social meaning The politics of historical truth of memory and of justice play out in unintended ways There is not only the

ongoing struggle for survivors of state terror but also the ways that the everyday shapings of silences the emptiness of reconciliation and the fracturing of hope remain embedded in political life G.K.
