Nov Dec Economics Paper 2 Grade 2013:

Minerals Yearbook ,2009 *Shadow Education and Social Inequalities in Japan* Steve R. Entrich,2017-12-07 This book examines why Japan has one of the highest enrolment rates in cram schools and private tutoring worldwide It sheds light on the causes of this high dependence on shadow education and its implications for social inequalities The book provides a deep and extensive understanding of the role of this kind of education in Japan It shows new ways to theoretically and empirically address this issue and offers a comprehensive perspective on the impact of shadow education on social inequality formation that is based on reliable and convincing empirical analyses Contrary to earlier studies the book shows that shadow education does not inevitably result in increasing or persisting inequalities but also inherits the potential to let students overcome their status specific disadvantages and contributes to more opportunities in education Against the background of the continuous expansion and the convergence of shadow education systems across the globe the findings of this book call for similar works in other national contexts particularly Western societies without traditional large scale shadow education markets The book emphasizes the importance and urgency to deal with the modern excesses of educational expansion and education as an institution in which the shadow education industry has made itself seemingly indispensable *Minerals Yearbook* Mines Bureau,Geological Survey,Interior Department,2015-05-15 The Minerals Yearbook is an annual publication that reviews the mineral and material industries of the United States and foreign countries The Yearbook contains statistical data on materials and minerals and includes information on economic and technical trends and development The Minerals Yearbook includes chapters on approximately 90 commodities and over 175 countries This volume of the Minerals Yearbook provides an annual review of mineral production and trade and of mineral related government and industry developments in more than 175 foreign countries Each report includes sections on government policies and programs environmental issues trade and production data industry structure and ownership commodity sector developments infrastructure and a summary outlook

Improving a Country's Education Nuno Crato,2020-11-23 This open access book compares and contrasts the results of international student assessments in ten countries The OECD s Programme for International Student Assessment PISA released the results of its 2018 assessment in December 2019 This book reflects the debates that typically follow the release of these results and focuses on the causes of differences between countries Such causes include continuous decline in one country improvement combined with increasing internal inequalities in another country or rapid improvement in spite of an outdated curriculum in yet another In addition the book discusses a number of general questions Is knowledge outdated Are computers taking over and replacing teachers Are schools killing creativity Are we adequately preparing the next generation Are schools failing to educate our kids The book starts out with a summary of PISA s evolution and PISA results and an explanation of the major factors that play a role in changes in countries results The next ten chapters are devoted to ten specific countries offering a summary of data and an explanation of the major drives for changes in education results for each

one Each chapter includes a short description of the country's educational system as well as the impact of PISA and other ILSA studies on the country's educational policies The chapters also include a timeline of policy measures and main hallmarks of the country's educational evolution discussing the impact of these measures on its PISA results A final reference chapter explains what PISA is what it measures and how While highlighting the 2018 results the book also takes into consideration previous results as well as long term initiatives This book gathers the contribution of well known and respected experts in the field Specialists such as Eric Hanushek for the US Tim Oates for England Montse Gomendio for Spain Gunda Tire for Estonia and all other contributors draw on their vast experience and statistical analysis expertise to draw a set of rich country lessons and recommendations that are invaluable for all of those who care about improving a country's education system

The Working Classes and Higher Education Amy E. Stich, Carrie Freie, 2015-12-22 Within the broader context of the global knowledge economy wherein the college for all discourse grows more and more pervasive and systems of higher education become increasingly stratified by social class important and timely questions emerge regarding the future social location and mobility of the working classes Though the working classes look very different from the working classes of previous generations the weight of a universal working class identity background amounts to much of the same economic vulnerability and negative cultural stereotypes all of which continue to present obstacles for new generations of working class youth many of whom pursue higher education as a necessity rather than a choice Using a sociological lens contributors examine the complicated relationship between the working classes and higher education through students distinct experiences challenges and triumphs during three moments on a transitional continuum the transition from secondary to higher education experiences within higher education and the transition from higher education to the workforce In doing so this volume challenges the popular notion of higher education as a means to equality of opportunity and social mobility for working class students PISA 2015 Results (Volume II) Policies and Practices for Successful Schools OECD, 2016-12-06

The OECD Programme for International Student Assessment PISA examines not just what students know in science reading and mathematics but what they can do with what they know Results from PISA show educators and policy makers the quality and equity of learning outcomes achieved elsewhere **Innovation Beyond Technology** Sébastien Lechevalier, 2019-08-02 The major purpose of this book is to clarify the importance of non technological factors in innovation to cope with contemporary complex societal issues while critically reconsidering the relations between science technology innovation STI and society For a few decades now innovation mainly derived from technological advancement has been considered a driving force of economic and societal development and prosperity With that in mind the following questions are dealt with in this

book What are the non technological sources of innovation What can the progress of STI bring to humankind What roles will society be expected to play in the new model of innovation The authors argue that the majority of so called technological innovations are actually socio technical innovations requiring huge resources for financing activities adapting regulations designing adequate policy frames and shaping new uses and new users while having the appropriate interaction with society This book gathers multi and trans disciplinary approaches in innovation that go beyond technology and take into account the inter relations with social and human phenomena Illustrated by carefully chosen examples and based on broad and well informed analyses it is highly recommended to readers who seek an in depth and up to date integrated overview of innovation in its non technological dimensions **Language and Sustainable Development** Lisa J.

McEntee-Atalianis,Humphrey Tonkin,2023-03-03 This book addresses the importance of language in matters of sustainability and incorporating such concerns in implementing the UN s Sustainable Development Goals SDGs Sustainable language policy must aim to include all groups including language minorities and marginalized populations such as refugees and aid recipients in conditions that allow for their inclusion in making and implementing policy The book brings together nine studies covering such topics as language and digital resources sustainable and inclusive multilingual education national language policy and language in peacekeeping operations A final chapter addresses the crucial intersection between sociolinguistics and economics and the implications of this for development and the SDGs UPSC Power Bank:1000+
