Bribery and Corruption Michael J. Comer, Timothy E. Stephens, 2016-04-15 Politicians and regulators do not run businesses Bribery and Corruption is for managers who do It will help you transform uncertainties and problems created via legislation and regulations such as The UK Bribery Act The Proceeds of Crime Act The Foreign Corrupt Practices Act Sarbanes Oxley into opportunities to Maintain entrepreneurial profitable and enjoyable working environments while easily surpassing compliance standards Control incoming internal outgoing competitive corruption and fraud Take decisions in grey areas confidently Bribery and Corruption frames control and compliance in an entirely different way not as a brake on your company's forward motion but as essential protective equipment enabling you to go faster and further in safety Written by the world's leading practitioners in the fields of fraud prevention detection and investigation with massive practical experience in both commercial and governmental sectors Bribery and Corruption exposes the misconceptions myths and corruption of the word bribery and suggests effective solutions that go well beyond simple compliance It commits to assertive managerial rather than timorous legal solutions to anti bribery and other laws It explains how processes can be tested using automated fraud detection software to expose current cases of fraud and corruption or to provide assurance that controls are functioning optimally It tackles the usually ignored problems of stratospheric political academic and media corruption which often motivate commercial bribery It exposes the dangers of employee to employee corruption skulduggery by blue collar workers and lots more Over the last 25 years Mike Comer occasionally writing with Tim Stephens has been responsible for some of the most readable and influential books on fraud Bribery and Corruption is another tour de force complete authoritative and yet a great pleasure to read

Human Smuggling in the Eastern Mediterranean Theodore Baird, 2016-11-10 The organization of human smuggling from the Middle East and Africa through Turkey and the Eastern Mediterranean has become a contemporary political concern throughout Europe receiving intense and polarised media attention This timely book reformulates how we conceive of human smuggling challenging popular and political conceptions of the practice in Europe This book proposes a new framework for examining the causes and effects of human smuggling in the Mediterranean analysing the contingent patterns of human smuggling in the countries of the Eastern Mediterranean with a geographic focus on Turkey Building on unique empirical material from fieldwork in Turkey and Greece this book describes the rise of human smuggling as a practice viewed through a framework of multiple contingencies Uniquely this book includes in depth testimonies of migrants who have survived crossing the Aegean Sea and details the strategies and tactics of the facilitators who help them In Human Smuggling in the Eastern Mediterranean Theodore Baird puts a human face to the tragedies occurring in the Mediterranean while maintaining that contingent historical political economic and geographic forces have aligned to propel the practice of human smuggling forward The book will be of interest to scholars working in migration

national and European pressures for reform As a consequence the effects of European cohesion and structural policy measures have been quite modest and the ability of the planning systems in the Baltic states to manage contemporary trends in urban and regional development has become increasingly limited This book focuses on these issues and tensions of spatial planning and development in the Baltic States and their distinctiveness compared to other European countries It provides an overview of the historical and cultural context of spatial development a discussion of the processes of Europeanization of spatial planning in the specific context of the Baltic States and an analysis of whether these processes may be leading to policy convergence in the region This book was published as a special issue of European Planning Studies **Shareholders'**

Duties Hanne S. Birkmose, 2017-01-15 It is often assumed that shareholders have rights not duties In recent years however this assumption has come under intense scrutiny in all aspects of company law and capital market law legislation the courts soft law and scholarship and in Europe especially major changes are under way across a diverse spectrum all the way from revised contractual arrangements to mandatory statutory provisions Such a shift has important implications for the fundamentals of European company law and there is a need to examine shareholders duties and to consider where this trend is taking shareholders and their stance in law This focused collection of essays by twenty notable scholars addresses this complex subject from a highly informative and useful variety of perspectives Examining shareholders duties along three axes types of investee companies types of shareholders and types of business situations the essays deal with such topics and issues as the following shareholders duties as reflections of the interests they are intended to safeguard shareholders duties to society shareholders disclosure obligations duties of parent companies institutional investor's fiduciary duty how regulatory duties constrain value reducing forms of opportunism the state's continuing duties in the transformation of state owned companies significant shareholders duties in transactions with the company and powerful shareholders duty not to abuse right Examining the implications of this shift in discourse how shareholders duties are coming to the fore under the impetus of legislation legal doctrine case law and enforcement strategies as well as its ideological underpinnings this book offers a comprehensive and in depth consideration of this rapidly developing field It will prove of inestimable value not only to policymakers and academics but also to investors and practitioners committed to creating conditions favourable to

sustainable economic growth and responsible business behaviour Neuropeptide GPCRs in neuroendocrinology Jae Young Seong, Hubert Vaudry, 2014-11-07 The human genome encompasses 860 G protein coupled receptors GPCRs including 374 non chemosensory GPCRs Half of these latter GPCRs recognize neuro peptides as natural ligands GPCRs thus play a pivotal role in neuroendocrine communication In particular GPCRs are involved in the neuroendocrine control of feeding behavior reproduction growth hydromineral homeostasis and stress response GPCRs are also major drug targets and hence possess a strong potential for the development of innovative pharmaceuticals The aim of this Research Topic was to assemble a series of review articles and original research papers on neuropeptide GPCRs and their ligands that would illustrate the different

facets of the studies currently conducted in this domain *Democracy and Judicial Reforms in South-East Europe* Cristina Dallara, 2014-07-08 The book analyzes the topic of judicial reforms in four countries of South East Europe focusing on two specific factors that have influenced the reforms in the past two decades the role played by the European Union in light of the east Enlargement process and the legacies of the communist regimes Specifically the aim is to account for similarities and differences in the reform paths of Slovenia Romania Croatia and Serbia In each country in fact the influence of the EU policies has been differently mediated by national factors that broadly conceived may be considered as expressing the legacies of the past regimes In some cases these legacies challenged judicial reforms and inhibited the influence of the EU in other cases they were positively overcome by following the route suggested by the EU Some explanatory factors for these differences will be proposed drawing from democratization studies Europeanization literature and comparative judicial systems The book focuses on countries having different status vis a vis the EU and differently involved in term of timing in the EU accession process some of them are new member states entered in 2004 Slovenia or in 2007 Romania others were until recently acceding countries Croatia or candidates to the membership Serbia This comparison allows investigation of the power of EU conditionality in different phases of the EU enlargement process vis a vis the EU and differently involved in term of timing in the EU accession process some of them are new member states entered in 2004 Slovenia or in 2007 Romania others were until recently acceding countries Croatia or candidates to the membership Serbia This comparison allows investigation of the power of EU conditionality in different phases of the EU enlargement process *Postcapitalism* Paul Mason, 2024-03-26 A fascinating set of ideas Politicians of all stripes should take note And so should the people who vote for them Financial Times We know that our world is undergoing seismic change but how can we emerge from the crisis as a better society Over the past two centuries or so capitalism has undergone profound changes economic cycles that veer from boom to bust from which it has always emerged transformed and strengthened Surveying this turbulent history Paul Mason's *Postcapitalism* argues that we are on the brink of a change so big and so profound that this time capitalism itself the immensely complex system within which entire societies function will mutate into something wholly new At the heart of this change is information technology a revolution that is driven by capitalism but with its tendency to push the value of much of what we make toward zero has the potential to destroy an economy based on markets wages and private ownership Almost unnoticed in the niches and hollows of the market system swaths of economic life are beginning to move to a different rhythm Vast numbers of people are changing how they behave and live in ways contrary to the current system of state backed corporate capitalism And as the terrain changes new paths open In this bold and prophetic book Mason shows how from the ashes of the crisis we have the chance to create a more just and sustainable economy Although the dangers ahead are profound he argues that there is cause for hope This is the first time in human history in which equipped with an understanding of what is happening around us we can predict and shape the future Absorbing and provocative Publishers
