Journal of the National Cancer Institute, 2014 **Life and the Student** Charles Horton Cooley, 2015-01-31 *Life and the Student* 1927 with a new introduction by Jonathan B Imber is a compilation of reflections commentaries and letters from other scholars that Charles Horton Cooley accumulated throughout his life The book includes personal passages on various topics within the realms of reading and writing thinking art science sociology academia religion and human nature There is no formal structure to the book except the literary sense that organizes these thoughts and observations about life It is impossible to categorize these widely ranging commentaries They include discussions of the automobile the impressionable nature of young people the claim that the question of racial superiority is still unresolved his belief that eugenists are inconsistent in their views and more Cooley's work sought to emphasize the connection between society and the individual He believed that the two could only be understood in relationship to each other While researching the effects of social responses and social participation he created the concept of the looking glass self which is the theory that a person's sense of self grows out of interpersonal interactions and the perceptions of others Cooley also showed that social life and the relationship between groups and communities stems from mental phenomena

Women's Under-Representation in the Engineering and Computing Professions: Fresh Perspectives on a Complex

Problem Kathleen Buse, Catherine Hill, Romila Singh, 2018-06-21 Understanding the many complexities that define gender inequality has been described by researchers as a grand challenge. Novel insights, innovation, a broader community to conduct research, and to ascertain effective interventions are essential in the challenge to create organizations that are gender equal. As such, this Research Topic in *Frontiers in Psychology* addresses the underrepresentation of women in engineering and computing as a complex but solvable problem. This Research Topic seeks to inform the global community about advances in understanding the underrepresentation of women in engineering and computing with a focus on what enables change. Further, this Topic will promote fresh perspectives, innovative methodologies, and mixed method approaches important to accelerating the pace of change.

Music Education for Social Change Juliet Hess, 2019-05-22 *Music Education for Social Change: Constructing an Activist Music Education* develops an activist music education rooted in principles of social justice and anti-oppression. Based on the interviews of 20 activist musicians across the United States and Canada, the book explores the common themes, perceptions, and philosophies among them, positioning these activist musicians as catalysts for change in music education while raising the question amidst racism and violence targeted at people who embody difference: how can music education contribute to changing the social climate? Music has long played a role in activism and resistance. By drawing upon this rich tradition, educators can position activist music education as part of a long-term response to events as a crucial initiative to respond to ongoing oppression and as an opportunity for youth to develop collective, expressive, and critical thinking skills. This emergent activist music education, like activism pushing toward social change, focuses on bringing people together, expressing experiences, and identifying and challenging oppressions. Grounded in practice with examples integrated throughout the text, *Music Education for Social Change* is an imperative and urgent consideration of what may be possible through music and music education.
