You might notice discrepancies with the SmartPoints values of foods you calculate using the nutrition label and the database versus the SmartPoints values listed for food products in the Food List on plan guides. That's because the SmartPoints values of foods in our database are based on SmartPoints ingredients from our algorithm to reflect those ingredients. If this happens, use the SmartPoints value listed in the Food List on our website, or in our app. WW Logo and SmartPoints are the trademarks of WW International, Inc.
