Microinteractions: Full Color Edition Dan Saffer, 2013-10-10 It's the little things that turn a good digital product into a great one. With this full color practical book you'll learn how to design effective microinteractions: the small details that exist inside and around features. How can users change a setting? How do they turn on mute or know they have a new email message? Through vivid real world examples from today's devices and applications, author Dan Saffer walks you through a microinteraction's essential parts, then shows you how to use them in a mobile app, a web widget, and an appliance. You'll quickly discover how microinteractions can change a product from one that's tolerated into one that's treasured. Explore a microinteraction's structure: triggers, rules, feedback, modes, and loops. Learn the types of triggers that initiate a microinteraction. Create simple rules that define how your microinteraction can be used. Help users understand the rules with feedback using graphics, sounds, and vibrations. Use modes to let users set preferences or modify a microinteraction. Extend a microinteraction's life with loops such as "Get data every 30 seconds."

Building Inspection Manual Karl F. Schmid, 2014-06-24 This new book synthesizes a wide range of interdisciplinary literature to provide the state of the art of biomedical implants. It discusses materials and explains the three basic requirements for implant success from a surface engineering perspective: biological compatibility, biomechanical compatibility, and morphological compatibility. Biomedical mechanical and materials engineers will find this book indispensable for understanding proper treatment of implant surfaces in order to achieve clinical success. Highlights include: Coverage of surface engineering of polymer, metallic, ceramic, and composite implant materials. Coverage of chemical, mechanical, physical, thermal, and combined surface modification technologies. Explanations of interfacial reaction between vital tissue and non-vital implant surface. Methodologies and technologies for modification of surface layer zone to promote the osteo-integration, the ultimate success for biomedical implants in both dental and medical practice.
