Revolutionary Mexico On Film A Critical History 1914 2014:

Revolutionary Mexico on Film Bob Herzberg, 2014-12-24 Drawing on studio files newspaper critiques internet sources and scholarly studies of Mexican cinema this critical history focuses on film depictions in Hollywood and in Mexico of the Mexican Revolution of 1910 and the era of Benito Juarez Mexico's political and military battles are discussed in detail and contrasted with the film industry's mostly uninformative take on these events Important figures of Mexican history are discussed Benito Juarez Porfirio Diaz Francisco Madero Jr Pancho Villa and Emiliano Zapata as well as non Latinos whose actions were influential Performers production personnel and literary sources for films dealing with revolutionary Mexico from the silent *The Life of General Villa* to *Cinco De Mayo La Batalla* of 2013 are covered **The American West on Film**

Johnny D. Boggs, 2019-11-15 More than a history of Western movies *The American West on Film* intertwines film history the history of the American West and American social history into one unique volume *The American West on Film* chronicles 12 Hollywood motion pictures that are set in the post Civil War American West including *The Ox Bow Incident* *Red River* *High Noon* *The Searchers* *The Magnificent Seven* *Little Big Man* and *Tombstone* Each film overview summarizes the movie's plot details how the film came to be made the critical and box office reactions upon its release and the history of the time period or actual event This is followed by a comparison and contrast of the filmmakers version of history with the facts as well as an analysis of the film's significance then and now Relying on contemporary accounts and historical analysis as well as perspectives from filmmakers historians and critics the author describes what it took to get each movie made and how close to the historical truth the movie actually got Readers will come away with a better understanding of how movies often reflect the time in which they were made and how Westerns can offer provocative social commentary hidden beneath old fashioned shoot em ups **Hollywood and the Military Bureaucracy**

Bob Herzberg, 2021-04-16 Through a century of movies the U S military held sway over war and service oriented films Influenced by the armed forces and their public relations units Hollywood presented moviegoers with images of a faultless American fighting machine led by heroic commanders This book examines this cooperation with detailed narratives of military blunders and unfit officers that were whitewashed to be presented in a more favorable light Drawing on production files correspondence between bureaucrats and filmmakers and contemporary critical reviews the author reveals the behind the scenes political maneuvers that led to the rewriting of history on screen **Imperial Japan on Screen, 1931-2022**

Bob Herzberg, 2023-08-07 This book deals with film depictions of Imperial Japan from the time it was a totalitarian power to the productions of recent years It especially covers wartime depictions as well as the historical events that inspire the stories behind these productions In the 1930s Hollywood gave us the likeable Mr Moto at the same time Japan was set on its expansionist course When war broke out both the Allies and the Axis produced propaganda films that increased hatred for the enemy In the postwar years as the Cold War took hold the U S government encouraged friendship with their former wartime enemy This book details correspondence between studio

personnel and the Production Code office as well as the critiques of film reviewers historians and military figures from both sides of the conflict Also examined are behind the scenes machinations from both the Japanese and American governments in the censorship of controversial film content *The Third Reich on Screen, 1929-2015* Bob Herzberg,2016-11-23 For more than 80 years images of the Third Reich have appeared in newsreels documentaries and fictional stories from comedies and musicals to war horror and science fiction films Many of these representations say as much about the filmmakers as they do about Nazism itself Hollywood often used the brutal Nazi as an all purpose villain in escapist adventures set during and after the war but just as often used him to attack the evil he symbolized Drawing on studio files correspondence of the Production Code office and the writings of noted historians and critics this book describes the making of many such films produced in Hollywood Nazi Germany the Soviet Union and Eastern Bloc nations Biographies of several military and political figures who served as the basis for Nazi characters compare the cinematic and real life versions History and Modern Media John Mraz,2021-04-15 In *History and Modern Media* John Mraz largely focuses on Mexican photography and his innovative methodology that examines historical photographs by employing the concepts of genre and function He developed this method in extensive work on photojournalism it is tested here through examining two genres Indianist imagery as an expression of imperial neo colonizing and decolonizing photography and progressive photography as embodied in worker and laborist imagery as well as feminist and decolonizing visuality The book interweaves an autobiographical narrative with concrete research Mraz describes the resistance he encountered in US academia to this new way of showing and describing the past in films and photographs as well as some illuminating experiences as a visiting professor at several US universities More importantly he reflects on what it has meant to move to Mexico and become a Mexican Mexico is home to a thriving school of photohistorians perhaps unequaled in the world Some were trained in art history and a few continue to pursue that discipline However the great majority work from the discipline known as photohistory which focuses on vernacular photographs made outside of artistic intentions A central premise of the book is that knowing the cultures of the past and of the other is crucial in societies dominated by short term and parochial thinking and that today s hyper audiovisuality requires historians to use modern media to offer their knowledge as alternatives to the perpetual present in which we live Latinx Revolutionary Horizons Renee Hudson,2024-05-07 A necessary reconceptualization of Latinx identity literature and politics In *Latinx Revolutionary Horizons* Renee Hudson theorizes a liberatory latinidad that is not yet here and conceptualizes a hemispheric project in which contemporary Latinx authors return to earlier moments of revolution Rather than viewing Latinx as solely a category of identification she argues for an expansive historicized sense of the term that illuminates its political potential Claiming the x in Latinx as marking the suspension and tension between how Latin American descended people identify and the future politics the x points us toward Hudson contends that latinidad can signal a politics grounded in shared struggles and histories rather than merely a mode of identification In this way *Latinx Revolutionary Horizons* reads

against current calls for cancelling latinidad based on its presumed anti Black and anti Indigenous framework Instead she examines the not yet here of latinidad to investigate the connection between the revolutionary history of the Americas and the creation of new genres in the hemisphere from conversion narratives and dictator novels to neoslave narratives and testimonios By comparing colonialisms she charts a revolutionary genealogy across a range of movements such as the Mexican Revolution the Filipino People Power Revolution resistance to Trujillo in the Dominican Republic and the Cuban Revolution In pairing nineteenth century authors alongside contemporary Latinx ones Hudson examines a longer genealogy of Latinx resistance while expanding its literary canon from the works of Jos Rizal and Martin Delany to those of Julia Alvarez Jessica Hagedorn and Leslie Marmon Silko In imagining a truly transnational latinidad Latinx Revolutionary Horizons thus rewrites our understanding of the nationalist formations that continue to characterize Latinx Studies *Bowker's Best Reference Books: Author index. Title index*, 2005 Contains approximately 20 000 mostly English language sources for academic libraries of all sizes Fictions of Home Martin Mühlheim, 2018-04-23 This study aims to counter right wing discourses of belonging It discusses key theoretical concepts for the study of home focusing in particular on Marxist feminist postcolonial and psychoanalytic contributions The book also maintains that postmodern celebrations of nomadism and exile tend to be incapable of providing an alternative to conservative xenophobic appropriations of home In detailed readings of one film and six novels a view is developed according to which home as a spatio temporal imaginary is rooted in our species being and as such constitutes the inevitable starting point for any progressive politics **America, History and Life**, 1996 Provides historical coverage of the United States and Canada from prehistory to the present Includes information abstracted from over 2 000 journals published worldwide **Seizing the Light** Robert Hirsch, 2017-04-07 The definitive history of photography book *Seizing the Light A Social Aesthetic History of Photography* delivers the fascinating story of how photography as an art form came into being and its continued development maturity and transformation Covering the major events practitioners works and social effects of photographic practice Robert Hirsch provides a concise and discerning chronological account of Western photography This fundamental starting place shows the diversity of makers inventors issues and applications exploring the artistic critical and social aspects of the creative process The third edition includes up to date information about contemporary photographers like Cindy Sherman and Yang Yongliang and comprehensive coverage of the digital revolution including the rise of mobile photography the citizen as journalist and the role of social media Highly illustrated with full color images and contributions from hundreds of artists around the world *Seizing the Light* serves as a gateway to the history of photography Written in an accessible style it is perfect for students newly engaging with the practice of photography and for experienced photographers wanting to contextualize their own work *Corporate Patronage of Art and Architecture in the United States, Late 19th Century to the Present* Monica E. Jovanovich, Melissa Renn, 2019-04-18 This interdisciplinary collection of case studies rethinks corporate patronage in the United States and

reveals the central role corporations have played in shaping American culture This volume offers new methodologies and models for the subject of corporate patronage and contains an extensive bibliography on corporate patronage art collections and exhibitions sponsorship and philanthropy in the United States The case studies herein go beyond the usual focus on corporate sponsorship and collecting to explore the complex organizational networks and motivations behind corporate commissions Featuring chapters on Margaret Bourke White Julie Mehretu Maxfield Parrish Pablo Picasso Diego Rivera Eugene Savage Millard Sheets and Kehinde Wiley as well as studies on Andrew Carnegie Andrew Mellon John D Rockefeller Sr and Jr and Dorothy Shaver and companies such as Herman Miller and Lord and Taylor this volume looks at a wide array of works ranging from sculpture photography mosaics and murals to advertisements department store displays sportswear medical schools and public libraries

Abstract Barrios Johana Londoño, 2020-08-10 In *Abstract Barrios* Johana Londoño examines how Latinized urban landscapes are made palatable for white Americans Such Latinized urban landscapes she observes especially appear when whites feel threatened by concentrations of Latinx populations commonly known as barrios Drawing on archival research interviews and visual analysis of barrio built environments Londoño shows how over the past seventy years urban planners architects designers policy makers business owners and other brokers took abstracted elements from barrio design such as spatial layouts or bright colors to safely Latinize cities and manage a long standing urban crisis of Latinx belonging The built environments that resulted ranged from idealized notions of authentic Puerto Rican culture in the interior design of New York City's public housing in the 1950s which sought to diminish concerns over Puerto Rican settlement to the Fiesta Marketplace in downtown Santa Ana California built to counteract white flight in the 1980s Ultimately Londoño demonstrates that abstracted barrio culture and aesthetics sustain the economic and cultural viability of normalized white and middle class urban spaces

The Mexican Revolution on the World Stage Adela Pineda Franco, 2019-07-23 The first major social revolution of the twentieth century the Mexican Revolution was visually documented in technologically novel ways and to an unprecedented degree during its initial armed phase 1910-21 and the subsequent years of reconstruction 1921-40 Offering a sweeping and compelling new account of this iconic revolution The Mexican Revolution on the World Stage reveals its profound impact on both global cinema and intellectual thought in and beyond Mexico Focusing on the period from 1940 to 1970 Adela Pineda Franco examines a group of North American European and Latin American filmmakers and intellectuals who mined this extensive visual archive to produce politically engaged cinematic works that also reflect and respond to their own sociohistorical contexts The author weaves together multilayered analysis of individual films the history of their production and reception and broader intellectual developments to illuminate the complex relationship between culture and revolution at the onset of World War II during the Cold War and amid the anti-systemic movements agitating Latin America in the 1960s Ambitious in scope this book charts an innovative transnational history of not only the visual representation but also the very idea of revolution

Insurgent Mexico (1914) John Reed, 2021-01-28 Reed's sympathies clearly lie more with Villa than Carranza John Reed and the Writing of Revolution 2002 Remains a classic not only for the vividness of his prose but also for the often astute cultural commentary and reflections he presented about the revolutionary forces Iconic Mexico 2015 One of the most objective works ever written about the country appreciated Villa's democratic spirit American and British Writers in Mexico 2011 In his 1914 book Insurgent Mexico American journalist John Jack Reed 1887-1920 writes on the scene describing the Mexican Revolution of 1914 He gives an excellent and realistic account of the Mexican Indians and peons that have suffered under a brutal dictatorship He writes about the time he spent in Northern Mexico with Pancho Villa and the war in the desert It was hard for him as a Gringo as most Americans had only gone to Mexico to plunder the environment Read The White Rose by Bruno Traven and his other jungle series books about the exploitation of Indian Mexicans Many would say that Jack Reed took over from Jack London in his war reporting since Jack had just died in 1914 Jack Reed's other famous book Ten Days That Shook The World is about the Red October Bolshevik Russian Revolution the movie Reds by Warren Beatty is Jack Reed's story
