**Operation Lock and the War on Rhino Poaching** John Hanks, 2015 The definitive account of a daring and controversial covert operation to stop the aggressive illegal trade in rhino horn in the 1980s

**Saving the Last Rhinos** Grant Fowlds, Graham Spence, 2019 What would drive a man to smuggle rhino horn back into Africa at great risk to himself This is just one of the situations Grant Fowlds has put himself in as part of his ongoing fight against poaching in order to prove a link between southern Africa and the illicit lucrative trade in rhino horn in Vietnam. Shavings of rhino horn are sold as a snake oil cure for colds or impotence but a rhino's horn has no magical medicinal properties. It is for this that rhinoceroses are being killed at an escalating rate that puts the survival of the species in jeopardy. This corrupt illegal war on wildlife has brought an iconic animal to the brink of extinction. Growing up on a farm in the eastern Cape of South Africa Grant developed a deep love of nature turning his back on hunting to focus on saving wildlife of all kinds and the environment that sustains both them and us. He is a passionate conservationist who puts himself on the front line of protecting rhinos in the wild right now against armed poachers but in the longer term too through his work with schoolchildren communities and policymakers. In 2016 the number of rhinos poached in South Africa stood at 1054. Department of Environmental Affairs. In 2017 529 rhinos had been slaughtered by 24th July. In the last nine years over 6100 rhinos have been poached in South Africa leaving fewer than 19000 white and 2000 black rhinos in the country. The situation is critical.

*Africa's Threatened Rhinos* Keith Somerville, 2025-01-14 Africa's surviving rhinos are under serious threat. Poaching for their horns massive extermination by sports hunters in the nineteenth and first half of the twentieth century and progressive habitat loss have all driven black and white rhino close to the edge. This book considers human interactions with these magnificent and enigmatic animals charting hunting for food and hides and then hunting for horn to meet external demand for this much coveted commodity as well as peaceful coexistence over the course of three millennia. With only two females alive in a closely protected reserve in Kenya the Northern White Rhino is on the brink of extinction. The Southern White Rhino was increasing in numbers but poaching in South Africa Botswana and Namibia has now reduced the population to fewer than 20 000 while Black Rhino are hovering around the 6 000 6 500 mark also with the danger of extirpation everywhere but in parts of eastern and southern Africa. Many books have been written on poaching and the decline of the rhino often from a very personal engaged viewpoint. This volume takes the reader into important new territory showing how human agency has led to the situation we now face. Covering the history of commercial and sporting exploitation of rhino it brings the picture up to date with an overview of contemporary conservation and anti poaching operations. This urgent work

is a significant contribution to our understanding of wildlife on the African continent *Ivory, Horn and Blood* Ronald Orenstein, 2013-07-25 Meticulous research chilling facts an important and much needed book Dr Jane Goodall DBE Founder The Jane Goodall Institute If it is understanding you seek turn these pages Virginia McKenna OBE Founder The Born Free Foundation If you care about elephants and rhinos and the poaching onslaught that threatens their extinction in the wild this is the book for you Ian Redmond OBE Ambassador UN Great Apes Survival Program As recently as ten years ago out of every ten African elephants that died four fell at the hands of poachers The figure today is eight Over sixty percent of Africa's Forest Elephants have been killed by poachers since the turn of the century Rhinoceroses are being slaughtered throughout their ranges The Vietnamese One horned Rhinoceros and the Western Black rhino have become extinct in the last decade and the Northern White Rhinoceros the largest of them all barely survives in captivity This alarming book tells a crime story that takes place thousands of miles away in countries that few of us may visit But like the trade in illegal drugs the traffic in elephant ivory and rhinoceros horn has far reaching implications not only for these endangered animals but also for the human victims of a world wide surge in organized crime corruption and violence Since the worldwide ban on commercial ivory trade was passed in 1989 after a decade that saw half of Africa's elephants slaughtered by poachers Ronald Orenstein has been at the heart of the fight Today a new ivory crisis has arisen fuelled by internal wars in Africa and a growing market in the Far East Seizures of smuggled ivory have shot up in the past few years Bands of militia have crossed from one side of Africa to the other slaughtering elephants with automatic weapons A market surge in Vietnam and elsewhere has led to a growing criminal onslaught against the world's rhinoceroses The situation for both elephants and rhinos is dire *The Crash of Rhinos* Ray Dearlove, 2020-12-10 What will future generations think of us when they look back and rhinos are only in a picture book Dr Jane Goodall DBE *The Crash of Rhinos* is a play on words A crash is the collective noun for rhinos but it also describes the carnage wrought by poachers in Africa who have slaughtered more than 10 000 rhinos three a day in the past decade to feed the seemingly insatiable demand for rhino horn in some Asian countries The author spent his first forty years in South Africa and during this time developed a love of wildlife After emigrating to Australia Ray retained strong ties with African wildlife and conservation In 2014 a friend suggested that he investigate the feasibility of bringing rhinos to Australia to act as an insurance policy in the event of the possibility of the extinction of rhino species in the wild The Australian Rhino Project was born *The Crash of Rhinos* traces the origin of the Project to the present with the team still working to relocate rhinos to Australia It is an insightful frustrating humorous and humbling story that will make you laugh cry and tear your hair out in exasperation In Ray's own words There was extreme joy and there was acute heartache This fascinating story demonstrates what can be achieved by one person with the passion resilience and dogged persistence to meet challenges obstacles and the glacial pace of governments even in the face of a crisis The proceeds of this book will be directed to the South African all female anti poaching group The Black Mambas *Rhino Poaching* Janina Naef, 2016 Rhino horn is very

popular in Asia as it is a status symbol and used as medicine That is one reason why the number of these animals is decreasing continuously In 2007 13 rhinos were poached in South Africa while in 2015 the number increased to 1175 rhinos This Matura Paper deals with problems of rhino poaching in South Africa It poses into the question if it is still possible to see rhinos in the future and examines what should be done to save this species from extinction Therefore 5 theses has been stated which consist of political financial protection measures and enlightenment of local and Asian people Thereby an interview has been conducted with a conservationist in addition to research in a volunteering project in South Africa regarding these theses The results prove the problems already stated If there are no changes in one of these problems the rhino doubtfully has a future Help the Black Rhinoceros Grace Hansen,2018-12-15 This title will teach readers about the black rhinoceros and where it lives It will also let readers know that black rhinos are critically endangered and that they face many threats like poaching and habitat loss Aligned to Common Core Standards and correlated to state standards Abdo Kids Jumbo is an imprint of Abdo Kids a division of ABDO Saving the Last Rhinos Grant Fowlds,Graham Spence,2019-11-07 Each year more than one thousand rhinoceroses are killed in South Africa alone There are fewer than 18 000 white rhinos and only 5 000 black rhinos left alive in the wild The situation with regard to this corrupt illegal war on wildlife is clearly critical And what are rhinos killed for Their horns sold in shavings as a snake oil cure for colds or impotence The going price is 16 000 a kilogram but a rhino s horn is simply keratin the same material as our fingernails with no magical medicinal properties Grant Fowlds is a passionate conservationist on the front line of protecting these iconic animals right now against armed poachers but in the longer term too through his work with schoolchildren communities and policymakers Amazon com
