Richard Youngs Intelligence Report:

Rebuilding European Democracy Richard Youngs, 2021-09-09 In recent years serious concerns emerged over the state of European democracy Many democracy indices are reporting a year on year drift towards less liberal politics in the countries of the European Union Polls regularly suggest that the voters are coming to question democratic norms more seriously than for many decades Here Richard Youngs assesses these risks as many analysts journalists and politicians stressed the danger of Europe descending into an era of conflict driven by xenophobic nationalism and nativist authoritarians slowly dismantling liberal democratic rights In 2020 the Covid 19 pandemic has intensified these fears There is another side of the democratic equation however Youngs argues that governments EU institutions political parties citizens and civil society organisations have gradually begun to push back in defence of democracy With each chapter Youngs shows how many governmental political and social actors have developed responses to Europe s democratic malaise at multiple levels Europe s democracy problems have been grave and far reaching Yet a spirit of democratic resistance has slowly taken shape This book argues that the pro democratic fightback may be belated but it is real and has assumed significant traction with various types of democratic reform underway including citizen initiatives political party changes digital activism and EU level responses

Hearings, Reports and Prints of the Senate Committee on Labor and Public Welfare United States. Congress. Senate. Committee on Labor and Public Welfare, 1971 [Twenty Years of Euro-Mediterranean Relations](#) Richard Youngs, 2017-10-02 The creation of the Euro Mediterranean Partnership in 1995 was seen at the time as a forward thinking foreign policy which would strengthen ties between Europe and the Mediterranean Arab states Since that time however almost none of this initial ambition has been translated into positive successful policy Twenty years on from the creation of the Euro Mediterranean Partnership now the Union for the Mediterranean this book collects some of the most influential articles published in the Mediterranean Politics journal since 1995 and suggests what these articles tell us about the state of relations between Europe and the Middle East The selection of articles gives a sense of the way in which analytical debate has changed in the journal s lifetime a lifetime which has seen the journal at the forefront of academic study on a variety of issues in the Mediterranean region As such the selection is naturally a reflection of the different periods from which the articles are taken and taken together they paint a picture of how the Euro Mediterranean partnership has been reshaped over time

New Challenges to Democratization Peter Burnell, Richard Youngs, 2009-12-04 Brings together leading international scholars to assess the claim that democratization around the world is facing a serious challenge and features in depth studies on US democracy promotion the Middle East Russia China and new democracies *Energy Security* Richard Youngs, 2009-01-28 The geopolitics of oil and gas have made a spectacular return to the international political agenda The European Union EU has recognized the importance of incorporating energy security more systematically into foreign policy It has committed itself to pursuing an energy security policy based on market interdependence European unity and long term

governance improvements in producer states In offering the first broad global assessment of the foreign policy dimensions of EU energy security this book considers how far these commitments have been implemented Examining how the EU s general approach to energy security has played out in the specific political contexts of different countries and regions distinctive features of the book include a thorough analysis of current EU strategies towards energy security assessing the EU as an international actor a key focus on the governance structures of producer states including the Middle East Russia Central Asia and the Caspian and Sub Saharan Africa a major addition to debates surrounding markets and geopolitics informing both international relations and international political economy This book will be of interest to students scholars and policy makers in the fields of European EU Politics energy politics foreign policy and International Relations *Spain* Richard Gillespie, Richard Youngs, 2013-09-27 This volume assesses the evolution of Spain s external relations during the 1990s within and beyond Europe and assesses the principal challenges facing the country at the beginning of the twenty first century The coincidence of several crucial global and European developments has had a profound effect on Spain Adjustment of the economy and changes in foreign policy perspectives have become unavoidable In turn Spain as an increasingly self confident member of the EU has itself become a significant actor in European level developments Spain s relationship with Europe and the wider world is increasingly balanced between new constraints and new opportunities for international influence *The European Union and Global Politics* Richard Youngs, 2021-03-31 This accessible new textbook situates the European Union in a dramatically changed world order Resisting a more traditional and abstract introduction to the institutions structures and policy making processes of the EU this innovative new text cuts through the jargon to demonstrate how hard the EU must work to retain its international influence Taking into account the latest empirical developments including the spread of war and violence in the East with Ukraine and the ongoing turbulent politics of North Africa and the Middle East Richard Youngs an expert in the field introduces us to how the EU has been forced to act differently The book is unique in offering an outside in conceptual framework that inverts the way that the EU external action is studied and understood It unpacks the different international challenges the EU has faced in recent years including the weakening of global order the need for more protective security geo economic competition climate change and conflicts to its east and south In each case the book examines how the EU has responded and how its core international identity has changed as a result assessing whether the Union still retains strong global influence This book is the ideal companion for students taking modules on the European Union s foreign policy global politics and for students of European Union Politics more broadly at both undergraduate and postgraduate levels *Europe in the New Middle East* Richard Youngs, 2014-09-11 This book examines the European Union s response to the Arab spring from late 2010 to the beginning of 2014 It investigates how far the EU changed its policies towards the Middle East and North Africa MENA region in the aftermath of the Arab spring and what impact European policies had in either helping or hindering democratization reforms during this period It also explores what impact the Arab

spring had on European security and economic interests Analytically the book unpacks the factors that best explain EU policy choices in the Middle East since 2010 It highlights how the responses to the Arab spring have changed the governance dynamics of the EU Middle East relationship The book assesses how far the EU foreign policy has succeeded in meeting the challenge of the Arab spring Oxford Studies in Democratization is a series for scholars and students of comparative politics and related disciplines Volumes concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war The geographical focus of the series is primarily Latin America the Caribbean Southern and Eastern Europe and relevant experiences in Africa and Asia The series editor is Laurence Whitehead Official Fellow Nuffield College University of Oxford

Civic Activism Unleashed Richard Youngs,2019-01-03 Mass protest and other forms of activism are spreading around the world The book examines why this is happening and what implications such dynamic new activism has for global politics

Transatlantic Trends in Democracy Promotion Rouba Al-Fattal Eeckelaert,2016-02-24 How did the EU US and Canada decide and implement their electoral assistance in the Palestinian Territories PT Why did the EU the US and Canada embark on assisting the elections in the PT and what factors influenced their electoral assistance What lessons can be learned for other countries approaching elections after a long period of conflict This book answers these questions and charts the process of electoral assistance with an in depth analysis of each transatlantic actor s electoral assistance in the PT It shows that despite the many institutional and operational differences between the EU the US and Canada the three actors do share common interests and influencing factors which often unify their response The book also reveals the limitations facing electoral assistance and the implications of this on the sustainability clarity consistency and responsiveness of the policy In this systematic comparative analysis of European American and Canadian efforts to assist elections and transform governance in conflict zones Rouba Al Fattal greatly advances the empirical knowledge of electoral assistance and provides the first steps needed to reform electoral assistance policy to cope with the challenges of the twenty first century

The Assyrian Genocide Hannibal Travis,2017-07-20 For a brief period the attention of the international community has focused once again on the plight of religious minorities in Iraq Syria and Turkey In particular the abductions and massacres of Yezidis and Assyrians in the Sinjar Mosul Nineveh Plains Baghdad and Hasakah regions in 2007 2015 raised questions about the prevention of genocide This book while principally analyzing the Assyrian genocide of 1914 1925 and its implications for the culture and politics of the region also raises broader questions concerning the future of religious diversity in the Middle East It gathers and analyzes the findings of a broad spectrum of historical and scholarly works on Christian identities in the Middle East genocide studies international law and the politics of the late Ottoman Empire as well as the politics of the Ottomans British and Russian rivals for power in western Asia and the eastern Mediterranean basin A key question the book raises is whether the fate of the Assyrians maps onto any of the concepts used within international law and diplomatic history

to study genocide and group violence In this light the Assyrian genocide stands out as being several times larger in both absolute terms and relative to the size of the affected group than the Srebrenica genocide which is recognized by Turkey as well as by international tribunals and organizations Including its Armenian and Greek victims the Ottoman Christian Genocide rivals the Rwandan Bengali and Biafran genocides The book also aims to explore the impact of the genocide period of 1914 1925 on the development or partial unraveling of Assyrian group cohesion including aspirations to autonomy in the Assyrian areas of northern Iraq northwestern Iran and southeastern Turkey Scholars from around the world have collaborated to approach these research questions by reference to diplomatic and political archives international legal materials memoirs and literary works

How Autocrats Seek Power Richard L. Abel, 2024-03-26 Chronicling and analyzing resistance to the threat that autocracy poses to American liberal democracy this book provides the definitive account of the rise of Trump's populist support in 2016 and his failed efforts to nullify the result of the 2020 election This book is about the threat of autocracy which antedated Donald Trump and will persist after he leaves the stage Autocracy negates both liberalism which includes the protection of fundamental rights the rule of law separation of powers and respect for specialist expertise and democracy which requires that the state be responsible to an electorate composed of all eligible voters by concentrating unconstrained power in a single individual Anticipating defeat in the 2016 election Trump attacked suggestions that he had sought or even benefited from Russian assistance despite the evidence and he made repeated claims of election fraud In 2020 fearful that his mishandling of the pandemic had alienated voters he intensified the allegations of fraud demanding recounts pressuring state legislatures and state election officials advancing bizarre conspiracy theories and finally calling for a massive demonstration urging protesters to march to the Capitol to pressure Congress promising to accompany them But as this book documents Trump's efforts to nullify the result of the 2020 election failed As the courts rejected his numerous challenges state election officials loyally performed their statutory duties the Justice Department found no evidence of fraud and politicians from all sides certified Biden's victory this book traces the many and varied forms of the defense of liberal democracy located within both the state and civil society including law judges government lawyers and private practitioners the media NGOs science and other forms of expertise and civil servants in federal state and local government Evaluating their efficacy the book maintains is vital if as history has repeatedly taught us the price of liberal democracy like that of liberty itself is eternal vigilance This definitive account and analysis of Trumpism and the resistance to it will appeal to scholars students and others with interests in politics populism and the rule of law and more specifically to those concerned with resisting the threat that autocracy poses to liberal democracy

[Guide to Islamist Movements](#) Barry M. Rubin, **The Puzzle of Non-Western Democracy** Richard Youngs, 2015-09-08 Western democracy is being questioned around the world At the same time Western aid groups are quick to say that they are not trying to impose a particular style of democracy on others and that they are open to supporting local alternative forms of democracy This book

examines what it is about Western democracy that non Westerners are reacting negatively to and whether the critics often are equating a dislike for certain Western social or economic features with an aversion to of Western political systems It also explores the current state of debate about alternative forms of democratic practice in different regions Asia Africa the Middle East and Latin America and then puts forward ideas about how Western actors engaged in democracy support can do a better job of incorporating new thinking about alternative democratic forms into their efforts **Transatlantic Energy**

Relations John R. Deni, Karen Smith Stegen, 2016-04-08 Recent upheaval in the global energy system dramatic increases in demand led largely by developing countries significant decreases in supply as a result of local or regional conflicts and the growing nexus between the burning of hydrocarbons and climate change has unsettled long held notions of energy security For many years transatlantic cooperation helped undergird the system s stability but Europe and North America have drifted apart in several key ways potentially undermining the search for energy sufficiency surety and sustainability Will the transatlantic partners continue on separate paths in the face of dramatic change in the global energy system or does the breadth and depth of the challenges they confront compel them to work more closely together In this edited volume experts from across Europe and North America including advisors to the executive and legislative branches of both the EU and the United States to senior military commanders and to major international organizations and companies examine the most salient facets of the transatlantic energy relationship and discern whether that relationship is characterized by growing convergence or divergence This book was based on a special issue of the Journal of Transatlantic Studies **Europe Reset** Richard Youngs, 2017-10-24 In the last decade the EU has been hit by a series of crises most recently the UK s decision to leave the union following the Brexit referendum In light of this questions have been raised about the need to reform the whole model of European integration with the aim of making the union more flexible and more accountable In this book Richard Youngs proposes an alternative vision of European co operation and shows how the EU must re invent itself if it is to survive He argues that citizens should play a greater role in European decision making that there should be radically more flexibility in the process of integration and that Europe needs to take a new more coherent approach to questions of defence and security In proposing this model for a reset version of Europe Youngs reinvigorates the debate around the future of Europe and puts forward a new agenda for the future of the EU **Climate Change and European Security** Richard

Youngs, 2014-10-10 It is now commonly asserted that climate change will fundamentally change international relations It has been predicted that global warming will increase conflict within and between states intensify food insecurity menace the global trading system and unleash waves of migration As a result governments are beginning to incorporate these warnings into their foreign policy initiatives The appropriateness of their incipient responses needs to be examined in finer detail This book looks at the impact of climate change on European Union EU security policy It explores how governments are reconfiguring their geo strategy and broader international relations in the wake of climate change warnings The book

demonstrates that although many aspects of EU foreign policies have begun to change climate security is not yet accorded unequivocal or sufficient priority In doing so Youngs argues that if climate change policies are to have significant effect they can no longer be treated as a separate area of policy but must be incorporated into the more mainstream debates pertinent to EU common foreign and security policy CFSP This book will be of key interest to students scholars and practitioners of climate change and policy energy and environmental policy EU governance and foreign policy European studies international relations geography security studies policy and environmental economics

The Uncertain Legacy of Crisis Richard Youngs, 2014-01-21 The European Union is mired in the worst crisis it has seen for many decades And the crisis does not stop at Europe's edge It threatens to undercut the EU's ambitions to develop a coherent and active foreign policy but it is also forcing European states to reevaluate their approach to security and defense Richard Youngs examines the legacy of the crisis and what it will mean for the EU's international role The fallout undermines the EU's foreign policy capacity and tarnishes its normative brand compelling some member states to focus on realpolitik and their own national level policies But there are also signs of enhanced European cooperation greater international ambition and deepened commitment to the values of a liberal world order Youngs details how the EU can craft an effective foreign policy strategy while confronting an internal economic crisis and a reshaped global order

The EU's Role in World Politics Richard Youngs, 2010-09-13 This book argues that in a range of policy areas trade multilateral diplomacy security development cooperation democracy and human rights energy security the EU appears to be in retreat from liberal internationalism
