severity of violence as they have fought to protect and extend their power Saviano is a writer and journalist of rare courage and a thinker of impressive intellectual depth able to see connections between far flung phenomena and bind them into a single epic story Most drug war narratives feel safely removed from our own lives Saviano offers no such comfort Both heart racing and eye opening ZeroZeroZero is an investigative story like none other Praise for ZerZeroZero Saviano has developed a literary style that switches from vivid descriptions of human depravity to a philosophical consideration of the meaning of violence in the modern world Most important of all is the hope Saviano gives to countless victims of criminal violence by standing up to its perpetrators Financial Times

Drug Wars and Covert Netherworlds James H. Creechan, 2021-12-07 *Drug Wars and Covert Netherworlds* describes the history of Mexican narco cartels and their regional and organizational trajectories and differences. The Spaces and Places of Horror Francesco Pascuzzi, Sandra Waters, 2020-01-16 This volume explores the complex horizon of landscapes in horror film culture to better understand the use that the genre makes of settings, locations, spaces, and places, be they physical, imagined, or altogether imaginary. In *The Philosophy of Horror*, No. 1 Carroll discusses the geography of horror as often situating the filmic genre in liminal spaces as a means to displace the narrative away from commonly accepted social structures; this use of space is meant to trigger the audience's innate fear of the unknown. This notion recalls Freud's theorization of the uncanny as it is centered on recognizable locations outside of the Lacanian symbolic order. In some instances, a location may act as one of the describing characteristics of evil itself. In *A Nightmare on Elm Street*, teenagers fall asleep only to be dragged from their bedrooms into Freddy Krueger's labyrinthine lair, an inescapable boiler room that enhances Freddie's powers and makes him invincible. In other scenarios, the action may take place in a distant, little-known country to isolate characters. Roth's *Hostel* films or as a way to mythicize the very origin of evil. Bava's *Black Sunday*. Finally, anxieties related to the encroaching presence of technology in our lives may give rise to postmodern narratives of loneliness and disconnect at the crossing between virtual and real places. In Kurosawa's *Pulse*, the internet acts as a gateway between the living and spirit worlds, creating an oneiric realm where the living vanish and ghosts move to replace them. This suggestive topic begs to be further investigated; this volume represents a crucial addition to the scholarship on horror film culture by adopting a transnational comparative approach to the analysis of formal and narrative concerns specific to the genre by considering some of the most popular titles in horror film culture alongside lesser-known works for which this anthology represents the first piece of relevant scholarship.

Addiction and Pastoral Care Nicolas Roberts, 2018 Addiction can take many forms, and there can hardly be a minister or a prison, college, or schools chaplain who will not have encountered its damaging effects on individuals, their families, and local communities. In the UK, in 2014, there were 3,300 drug-related deaths and almost 9,000 alcohol-related deaths. 70% of offenders admit to a drug problem before prison, and drug use is a major problem throughout the prison system. Besides these compulsive behaviours of all kinds, damage to personal and communal wellbeing is significant. Clergy and pastoral workers are often in the front line, caring for addicts and their families, usually without any professional training. This handbook from an experienced pastoral practitioner offers an exploration of the psychology of addiction, a theological perspective on desire, the nature of pastoral care with addicts, practical models of pastoral care, and resources for professional care.

Narcocapitalism Laurent de Sutter, 2017-11-27 What do the invention of anaesthetics in the middle of the nineteenth century, the Nazis' use of cocaine, and the development of Prozac have in common? The answer is that they're all products of the same logic that defines our contemporary era: the age of anaesthesia. Laurent de

Sutter shows how large aspects of our lives are now characterised by the management of our emotions through drugs ranging from the everyday use of sleeping pills to hard narcotics Chemistry has become so much a part of us that we can even see how much it has changed us In this era being a subject doesn't simply mean being subjected to powers that decide our lives it means that our very emotions have been outsourced to chemical stimulation Yet we don't understand why the drugs that we take are unable to free us from fatigue and depression and from the absence of desire that now characterizes our psychopolitical condition We have forgotten what it means to be excited because our only excitement has become drug induced We have to abandon the narcotic stimulation that we've come to rely on and find a way back to the collective excitement that is narcocapitalism's greatest fear

Watching Sympathetic Perpetrators on Italian Television Dana Renga, 2019-02-11 This book offers the first comprehensive study of recent popular Italian television Building on work in American television studies audience and reception theory and masculinity studies *Sympathetic Perpetrators and their Audiences on Italian Television* examines how and why viewers are positioned to engage emotionally with and root for Italian television antiheroes Italy's most popular exported series feature alluring and attractive criminal antiheroes offer fictionalized accounts of historical events or figures and highlight the routine violence of daily life in the mafia the police force and the political sphere Renga argues that Italian broadcasters have made an international name for themselves by presenting dark and violent subjects in formats that are visually pleasurable and for many across the globe highly addictive Taken as a whole this book investigates what recent Italian perpetrator television can teach us about television audiences and our viewing habits and preferences

Italian Crime Fiction in the Era of the Anti-Mafia Movement William Farina, 2020-03-13 Over the last three decades Italian crime fiction has demonstrated a trend toward a much higher level of realism and complexity The origins of the New Italian Epic as it has been coined by some of its proponents can be found in the widespread backlash against the Mafia sponsored murders of Sicilian magistrates which culminated with the assassinations of Judges Giovanni Falcone and Paolo Borsellino in 1992 Though beginning in the Italian language this prolific popular movement has more recently found its way into the English language and hence it has found a much wider international audience Following a brief yet detailed history of the cultural and economic development of Sicily this book provides a multilayered look into the evolution of the New Italian Epic genre The works of ten prominent contemporary writers including Andrea Camilleri Michael Dibdin Elena Ferrante and Massimo Carlotto are examined against the backdrop of various historical periods This past is prologue approach to contemporary crime fiction provides context for the creation of these recent novels and enhances understanding of the complex moral ambiguity that is characteristic of anti mafia Italian crime fiction

Contemporary Italian Narrative and 1970s Terrorism David Ward, 2017-02-13 This book is about literary representations of the both left and right wing Italian terrorism of the 1970s by contemporary Italian authors In offering detailed analyses of the many contemporary novels that have terrorism in either their foreground or background it

offers a take on postmodern narrative practices that is alternative to and more positive than the highly critical assessment of Italian postmodernism that has characterized some sectors of current Italian literary criticism It explores how contemporary Italian writers have developed narrative strategies that enable them to represent the fraught experience of Italian terrorism in the 1970s In its conclusions the book suggests that to meet the challenge of representation posed by terrorism fiction rather than fact is the writer's best friend and most effective tool

Fantastic Echoes in Contemporary Italian Literature Angelo Castagnino, 2023-11-02 In Fantastic Echoes in Contemporary Italian Literature Castagnino argues that contemporary Italian fiction often uses fantastic tropes to address realistic concerns In doing so he establishes a connection between the tradition of Gothic and fantastic fiction and societal concerns over topics such as ecocriticism ecofeminism artificial intelligence transhumanism and personal and collective memory The study of among others Nicola Lagioia Simona Vinci Alessandro Perissinotto and Michele Mari delivers a powerful rendition of the practical applications that fantastic and Gothic tropes have for an understanding of today's Italian fiction
