HEAVYWEIGHT TWIN CYLINDER WORKSHOP MANUAL 250cc TO 750cc. INCLUDING THE 1968-1970 COMMANDO Floyd Clymer,2021-04-16 140 pages and more than 140 illustrations and charts size 8 25 x 10 75 inches The original Norton factory Twin Cylinder workshop manual contained maintenance and repair data for both the lightweight and heavyweight Norton twins manufactured between 1960 and 1968 including the 750cc Atlas model which was in production from 1962 1968 As many of the mechanical attributes from the Atlas series were carried over into the early Norton Commando models we felt that the original Twin Cylinder manual was somewhat lacking as it did not include repair data for the early Commando that evolved from the Atlas Consequently we have updated and expanded this Floyd Clymer edition of the original Twin Cylinder manual to include the OEM Norton manual part no 06 3062 for the 1968 1970 Commando 750cc models that were fitted with the Atlas style exhaust and external rev counter drive to the timing cover Beginning with engine no 126125 February 1968 and the early camshaft driven contact breaker models from engine no 131257 March 1969 While there is some duplication between the Atlas and Commando repair information we felt that the Commando manual should be included in its entirety in order to complete the coverage of the original Twin Cylinder manual from 1960 through the 1970 model year It should also be noted that this manual includes significant maintenance and repair information for the AMC
