HR Guide to Workplace Fraud and Criminal Behaviour Michael J. Comer, Timothy E. Stephens, 2017-05-15 It is reliably estimated that over 70 per cent of all job applications contain misleading information. If that was the limit of deception at work faced by HR and line managers then maybe things wouldn't be too bad. But deception isn't limited simply to the area of recruitment; there's also absenteeism, minor theft, misuse of information, not to mention the tissue of half truths and falsehoods thrown up by an employee seeking to camouflage theft, responsibility for a fatal accident or a multi million pound fraud. An HR Guide to Workplace Fraud and Criminal Behaviour is full of advice, best practice and case studies of deception from around the world. In fact everything you need to protect your workplace and the employees within it from incompetent or dangerous co workers, theft, violence and criminality in all its forms, ensure your company's continued reputation and compliance with employment, criminal and other legislation, safeguard your shareholders or other stakeholders from the consequences of fraud, litigation or other loss. HR managers have an important part to play both in ensuring the ethical development of any organization and in protecting that organization from dishonest employees. This book offers a definitive guide to meeting these responsibilities head on. **Checking for Understanding** Douglas Fisher, Nancy Frey, 2015-12-18 A

teacher presents a lesson and at the end asks students if they understand the material. The students nod and say they get it. Later the teacher is dismayed when many of the students fail a test on the material. Why aren't students getting it? And just as important, why didn't the teacher recognize the problem? In *Checking for Understanding* Douglas Fisher and Nancy Frey show how to increase students' understanding with the help of creative formative assessments. When used regularly, formative assessments enable every teacher to determine what students know and what they still need to learn. Fisher and Frey explore a variety of engaging activities that check for and increase understanding, including interactive writing, portfolios, multimedia presentations, audience response systems and much more. This new 2nd edition of *Checking for Understanding* has been updated to reflect the latest thinking in formative assessment and to show how the concepts apply in the context of Fisher and Frey's work on gradual release of responsibility, guided instruction, formative assessment systems, data analysis and quality instruction. Douglas Fisher and Nancy Frey are the creators of the Framework for Intentional and Targeted FIT Teaching. They are also the authors of numerous ASCD books including *The Formative Assessment Action Plan*, *Practical*
