Revolution, Counterrevolution and Assassination Through World War II Robert C. Cottrell, 2024-12-13 Since the French Revolution the quest for revolutionary transformation and the fear of such change became deeply ingrained in the global landscape through World War II Modern revolutions inspired counterrevolutions that strove to turn back time to an allegedly purer finer more moral period than the upheaval and anarchy linked to a revolutionary epoch Revolutions often occurred through violence and entailed a disruption of existing social economic and political orders Counterrevolutions were equally guilty and frequently more so of horrific bloodletting in the name of restoring law and order often by shredding legal and ethical norms Drawing from a vast array of sources both primary and secondary this first of a two volume set presents a highly detailed narrative of an unholy trinity revolution counterrevolution and assassination Combining intellectual political social and cultural history this book highlights international protagonists movements and ideas supporting the radical or reactionary upheaval of society and the means that have been used to do so

Dallapiccola is widely considered a defining figure in twentieth century Italian musical modernism whose compositions bear passionate witness to the historical period through which he lived In this book Ben Earle focuses on three major works by the composer the one act operas *Volo di notte* Night Flight and *Il prigioniero* The Prisoner and the choral *Canti di prigionia* Songs of Imprisonment setting them in the context of contemporary politics to trace their complex path from fascism to resistance Earle also considers the wider relationship between musical modernism and Italian fascism exploring the origins of musical modernism and investigating its place in the institutional structures created by Mussolini s regime In doing so he sheds new light on Dallapiccola s work and on the cultural politics of the early twentieth century to provide a history of musical modernism in Italy from the fin de si cle to the early Cold War

Gran Paradiso National Park is Italy's oldest and was instrumental in preventing the extinction of the Alpine ibex between World War I and just after World War II Today there are more than 30 000 ibex living in the Alps all of which descended from that last colony protected in Gran Paradiso under Mussolini's rule Wilko Graf von Hardenberg merges the history of conservation with the area's social history and Italy's larger political history to produce a multifaceted narrative about the park as an institution the conflicts it triggered and practices adopted to manage the ibex despite hurdles placed by the fascist regime The book's central argument is that in fascist Italy preservation propaganda notwithstanding was a product of the regime's continuities with the previous liberal system Italy's total fascist transformation accomplished only more than a decade after Mussolini took power virtually unmade the early successes of preservation set in place by the nascent nature state in the regime's early years Despite this conflict conservationists succeeded in preserving the ibex Hardenberg positions this success within the broader history of science conservation and tourism in fascist Italy and the Alpine region creating a comprehensive historical background and comparative reference to ongoing debates about the role of nature conservation in general and in relation to the state and its agencies
