The Future of the Person
Hans-W. Micklitz, Giuseppe Vettori, 2025-03-06 This book rigorously debates the notion of the person a fundamental concept which underpins national private law orders worldwide In the 20th century the unity of the person came under pressure firstly through the rise of labour law and then secondly post World War II through consumer law The book moves this debate on exploring the ongoing fragmentation of the concept of the person and the unique challenges that this gives rise to and suggesting how this might impact on the future of private law The book asks three questions are the subject of the 19th century Codes or the person of 20th century constitutions useful categories of reference for the person could fundamental rights currently central to the notion of the person be replaced by forms of the impersonal how and why should subjectivities be rethought in the age of infocracy and autocracies Thought provoking and paradigm shifting this is a fascinating examination of the bedrock of private law

Le livre et l'architecte Jean-Philippe Garric, Emilie d'Orgeix, Estelle Thibault, 2011. D'abord aux relations complexes et fructueuses entre l'architecture et l'imprimé, le livre et l'architecte s'interroge sur les rapports entre cet art utile et les ouvrages tant techniques que pratiques, tant artistiques et somptueux qu'il produit ou qu'il utilise. De l'architecte auteur, l'architecte collectionneur, du livre comme architecture, la bibliothèque comme autoportrait de l'ouvrage, document, l'architecture comme fiction, les pratiques qu'il reflète renvoient au conflit fondateur et latent d'une discipline imparfaite partagée dès son origine entre un désir de théorie et une défiance envers toute explicitation. Les espaces ruraux en France Alexandra Monot, 2023-12-15. Dans cet ouvrage, Alexandra Monot, professeure agrégée et docteure en géographie à l'université de Strasbourg, interroge les espaces ruraux français et leurs dynamiques. La France est aujourd'hui principalement peuplée comme urbaine, alors que les espaces ruraux couvrent la majeure partie du territoire national, plus du quart de la population et une part non négligeable de la puissance française en Europe et dans le monde. Qu'est-ce qui explique ce décalage entre réalité et représentation ? Quelles sont les spécificités des espaces ruraux français ? Mobilisant à la fois des éléments théoriques et des analyses empiriques, cet ouvrage tente de montrer les dynamiques nouvelles et les processus démographiques, sociaux et économiques qui traversent les campagnes françaises.
