

## Question 6

6.1

6.1.1.

$$y = \frac{1}{2}x^{-4} - 6x^{\frac{1}{3}} - \pi$$

$$\frac{dy}{dx} = \frac{1}{2} \cdot -4x^{-5} - 6 \cdot \frac{1}{3}x^{-2/3} - 0$$

$$= -\frac{2}{x^5} - \frac{2}{\sqrt[3]{x^2}}$$

$$= -\frac{2}{x^5} - \frac{2}{\sqrt[3]{x^2}}$$

6.1.2

$$y = (2 - \sqrt{x})^2$$

$$\frac{dy}{dx} = 2(2 - \sqrt{x})\left(-\frac{1}{2}x^{-1/2}\right)$$

$$= 2(2 - \sqrt{x}) \cdot -\frac{1}{2\sqrt{x}}$$

$$= -\frac{(2 - \sqrt{x})}{\sqrt{x}}$$

6.2

$$y = x^2 + 4x - 8$$

$$\frac{dy}{dx} = 2x + 4$$

$$\text{where } x = -8, \text{ gradient} = 2(-8) + 4 = -12$$

*Citizenship, Nation-building and Identity in the EU* Cherry James, 2018-12-17 With Brexit looming a major issue facing UK Higher Education is whether the UK will be able to stay in the Erasmus Programme This book sits at the intersection of three main interrelated themes EU citizenship the current state of the university in Europe and student mobility as they play out in the context of an EU funded programme established not least to promote European identity European consciousness and European citizenship Exploring through interviews with students from many countries this book weaves together the themes of citizenship creation as a device for building a nation and a polity the university as a public space in the era of the marketization of higher education and communicative interaction as the mechanism by which citizenship is created Ultimately it asks if the building bricks of national citizenship can be transposed to the transnational scale and assist in creating the transnational EU citizenship It finds surprisingly that far from encouraging and facilitating the communicative interaction on which the development of EU citizenship was postulated central features of the Erasmus Programme inadvertently work against this outcome This book will be of key interest to scholars and students of EU law and European and EU studies Citizenship Studies sociology and more broadly to higher education in general Progress in Physics, vol. 1/2012 Dmitri Rabounski, Florentin Smarandache, Larissa Borissova, The Journal on Advanced Studies in Theoretical and Experimental Physics including Related Themes from Mathematics Mathematical Foundations of Computer Science 2012 Branislav Rován, Vladimiro Sassone, Peter Widmayer, 2012-08-01 This volume constitutes the refereed proceedings of the 37th International Symposium on Mathematical Foundations of Computer Science MFCS 2012 held in Bratislava Slovakia in August 2012 The 63 revised full papers presented together with 8 invited talks were carefully reviewed and selected from 162 submissions Topics covered include algorithmic game theory algorithmic learning theory algorithms and data structures automata formal languages bioinformatics complexity computational geometry computer assisted reasoning concurrency theory databases and knowledge based systems foundations of computing logic in computer science models of computation semantics and verification of programs and theoretical issues in artificial intelligence **Advances in Cryptology -- CRYPTO 2012** Reihaneh Safavi-Naini, Ran Canetti, 2012-08-08 This book constitutes the refereed proceedings of the 32nd Annual International Cryptology Conference CRYPTO 2012 held in Santa Barbara CA USA in August 2012 The 48 revised full papers presented were carefully reviewed and selected from 225 submissions The volume also contains the abstracts of two invited talks The papers are organized in topical sections on symmetric cryptosystems secure computation attribute based and functional encryption proofs systems protocols hash functions composable security privacy leakage and side channels signatures implementation analysis black box separation cryptanalysis quantum cryptography and key encapsulation and one way functions The Resilience Dividend Judith Rodin, 2014-11-11 Building resilience the ability to bounce back more quickly and effectively is an urgent social and economic issue Our interconnected world is susceptible to sudden and

**Current Research and Emerging Directions in Emotion-Cognition Interactions** Florin Dolcos,Lihong Wang,Mara Mather,2015-03-02 Emotion can impact various aspects of our cognition and behavior by enhancing or impairing them e g enhanced attention to and memory for emotional events or increased distraction produced by goal irrelevant emotional information On the other hand emotion processing is also susceptible to cognitive influences typically exerted in the form of cognitive control of motion or emotion regulation Despite important recent progress in understanding emotion cognition interactions a number of aspects remain unclear The present book comprises a collection of manuscripts discussing emerging evidence regarding the mechanisms underlying emotion cognition interactions in healthy functioning and alterations associated with clinical conditions in which

such interactions are dysfunctional Initiated with a more restricted focus targeting 1 identification and in depth analysis of the circumstances in which emotion enhances or impairs cognition and 2 identification of the role of individual differences in these effects our book has emerged into a comprehensive collection of outstanding contributions investigating emotion cognition interactions based on approaches spanning from behavioral and lesion to pharmacological and brain imaging and including empirical theoretical and review papers alike Co hosted by the Frontiers in Neuroscience Integrative Neuroscience and Frontiers in Psychology Emotion Science the contributions comprising our book and the associated research topic are grouped around the following seven main themes distributed across the two hosting journals I Emotion and Selectivity in Attention and Memory II The Impact of Emotional Distraction Linking Enhancing and Impairing Effects of Emotion III What Really is the Role of the Amygdala IV Age Differences in Emotion Processing The Role of Emotional Valence V Affective Face Processing Social Cognition and Personality Neuroscience VI Stress Mood Emotion and the Prefrontal Cortex The Role of Control in the Stress Response VII Emotion Cognition Interactions in Clinical Conditions As illustrated by the present collection of contributions emotion cognition interactions can be identified at different levels of processing from perception and attention to long term memory decision making processes and social cognition and behavior Notably these effects are subject to individual differences that may affect the way we perceive experience and remember emotional experiences or cope with emotionally challenging situations Moreover these opposing effects tend to co occur in affective disorders such as depression and PTSD where uncontrolled recollection of and rumination on distressing memories also lead to impaired cognition due to emotional distraction Understanding the nature and neural mechanisms of these effects is critical as their exacerbation and co occurrence in clinical conditions lead to devastating effects and debilitation Hence bringing together such diverse contributions has allowed not only an integrative understanding of the current extant evidence but also identification of emerging directions and concrete venues for future investigations

**Accumulation in Post-Colonial Capitalism** Iman Kumar Mitra,Ranabir Samaddar,Samita Sen,2016-07-29 This volume looks at how accumulation in postcolonial capitalism blurs the boundaries of space institutions forms financial regimes labour processes and economic segments on one hand and creates zones and corridors on the other It draws our attention to the peculiar but structurally necessary coexistence of both primitive and virtual modes of accumulation in the postcolony From these two major inquiries it develops a new understanding of postcolonial capitalism The case studies in this volume discuss the production of urban spaces of capital extraction institutionalization of postcolonial finance capital gendering of work forms establishment of new forms of labour formation of and changes in caste and racial identities and networks and securitization and thereby confirm that no study of contemporary capitalism is complete without thoroughly addressing the postcolonial condition By challenging the established dualities between citizenship based civil society and welfare based political society exploring critically the question of colonial and postcolonial difference and foregrounding the material processes of accumulation

against the culturalism of postcolonial studies this volume redefines postcolonial studies in South Asia and beyond It is invaluable reading for students and scholars of South Asian studies sociology cultural and critical anthropology critical and praxis studies and political science
