## **November 2014 Agriculture Memorandum:**

### **The Future of Philippine Agriculture under a Changing Climate** Mark W. Rosegrant, Mercedita A.

Sombilla, 2018-11-30 The Philippine economy has grown rapidly since 2010 but despite this growth poverty and inequality remain high Two thirds of the poor live in rural areas and the weak performance of the agriculture sector has contributed to the slow improvement in livelihoods The challenge for agriculture will further increase with climate change posing a growing threat to the sector But agricultural transformation to spur sustained growth and reduce poverty is still possible under climate change with aggressive institutional reforms and implementation of the right mix of policies and programmes The identification of the suitable policy and programme combination requires an accurate assessment of the key drivers of agricultural growth and food security the impacts of climate change on agriculture and the overall economy and the effectiveness of policies for adaptation and growth This book addresses these big issues focusing on enhancing the adaptation capacity of the Philippine agriculture sector It is designed to provide a much needed base of knowledge and menu of policy options to support decision and policymaking on agriculture climate change and food security The volume uses newly generated data modelling outputs and innovative analyses to provide a scientific basis for a variety of adaptation measures under different sets of climate change scenarios to guide decision makers in strategic planning and policy formulation As we have actually experienced in Leyte an island province in the Visayas where Super Typhoon Yolanda Haiyan struck disasters caused by natural hazards could completely negate economic gains devastate families and shatter dreams Our greatest challenge is to make ourselves better prepared for and be more resilient to such disasters Natural hazards need not always lead to loss of so many lives and properties This book shows us ways and provides tools to draw up climate change and socioeconomic scenarios at the regional and provincial levels allowing us to identify strategies for mitigating climate change risks Ernesto M Pernia Secretary of Socioeconomic Planning National Economic and Development Authority Philippines This book by top Philippine researchers combines state of the art biophysical and economic modeling of climate impacts and adaptation policies with in depth synthesis of agriculture natural resources climate trends and policies It provides a comprehensive assessment of climate change impacts on agriculture and the broader economy to provide important insights for Philippine policymakers Dr Cynthia Rosenzweig Head Climate Impacts Group NASA Goddard Institute for Space Studies and Co Founder of the Agricultural Model Inter comparison and Improvement Project AgMIP

*Food Security Governance* Nora McKeon, 2014-12-17 This book fills a gap in the literature by setting food security in the context of evolving global food governance Today s food system generates hunger alongside of food waste burgeoning health problems massive greenhouse gas emissions Applying food system analysis to review how the international community has addressed food issues since World War II this book proceeds to explain how actors link up in corporate global food chains and in the local food systems that feed most of the world s population It unpacks relevant paradigms from productivism to food

sovereignty and highlights the significance of adopting a rights based approach to solving food problems The author describes how communities around the world are protecting their access to resources and building better ways of producing and accessing food and discusses the reformed Committee on World Food Security a uniquely inclusive global policy forum and how it could be supportive of efforts from the base The book concludes by identifying terrains on which work is needed to adapt the practice of the democratic public sphere and accountable governance to a global dimension and extend its authority to the world of markets and corporations This book will be of interest to students of food security global governance development studies and critical security studies in general      South-south Cooperation and Chinese Foreign Aid Meibo Huang,Xiuli Xu,Xiaojing Mao,2018-12-06 This book is a collection of 15 case studies on China s foreign aid and economic cooperation with developing countries Each case introduces the general information of a China s project analyzes its features and impacts and especially focuses on analysis of the characteristics of China s foreign aid under South South Cooperation framework which shows the differences of foreign aid by emerging economies from that by traditional donors in aid ideology principles practices and effects This book is one of the research projects by China International Development Research Network CIDRN as part of its contribution to the activities under the Network of Southern Think tanks NeST

Committee on Appropriations. Subcommittee on Agriculture, Rural Development, Food and Drug Administration, and Related Agencies,2015      **Global Economic Prospects, Volume 9, June 2014** World Bank World Bank,2014-06-10 The global economy got off to a bumpy start this year but growth in 2015 and 2016 looks to be broadly on track Projections for developing countries in 2014 have been down downgraded by 0.5 percentage points to 4.8 percent mainly reflecting weak first quarter growth in the US due to weather and the conflict in Ukraine Going forward growth is projected to firm to 5.3 and 5.5 percent in 2015 and 2016 supported by easy global financial conditions and rebounding exports as high income countries continue to recover under the influence of a reduced drag from fiscal consolidation and improving labor markets Financial conditions will eventually tighten and when they do there is risk of further volatility Most developing countries are in good fiscal and financial shape but where vulnerabilities remain countries need to tighten policy to reduce the potential impact of external shocks Overall growth for developing countries will be solid but not strong enough to generate the income and employment gains needed to eliminate poverty by 2013 As a result countries need to focus on structural reform in order to lift growth in an enduring and sustainable manner      **Testimony of the Military Compensation and Retirement**

Subcommittee on Personnel,2015      *Water, Security and U.S. Foreign Policy* David Reed,2017-06-26 The prosperity and national security of the United States depend directly on the prosperity and stability of both partner and competing countries around the world Today U.S. interests are under rising pressure from water scarcity extreme weather events and water driven ecological change in key geographies of strategic interest to the U.S. Those water driven stresses are undermining economic productivity weakening governance systems and fraying social cohesion in scores of countries and in the process undermining the vitality of rural livelihoods fostering local and ethnic conflicts driving broad

migratory movements and contributing to the growth of insurgencies and terrorist networks While the U S intelligence community has steadily expanded natural resource concerns in their global threat analyses our overseas development assistance remains locked into provision of water and hygienic services rather than responding to the full sweep of global water challenges including governance and policy failures growing conflicts over water and the need for promoting sustainable transboundary water arrangements in partner countries A fundamental departure from the past is urgently needed Based on 18 case studies Water Security and U S Foreign Policy provides an analytical framework to help policy makers scholars and researchers studying the intersection of U S foreign policy with the environment and sustainability issues interpret the impacts of water driven social disruptions on the stability of partner governments and U S interests abroad The book also delivers specific recommendations to reorient U S development and diplomatic engagements that can forestall and prevent social disruptions and ensuing threats to U S prosperity and national security Ocean Governance and Conflict in the East and South China Sea Christian Schultheiss,2025-10-01 This book tells the story of the negotiations between China Japan Taiwan the Philippines Vietnam and other Southeast Asian countries about the East and South China Sea disputes Tapping into formerly classified and newly available primary sources the book meticulously tracks these negotiations and their sudden U turns It is a story about the promises and perils of cooperation as much about pragmatic gradual and surprisingly resilient approaches to conflict resolution and ocean governance as it is about the expansion of states bargaining power through institutions The book hinges on the question of when and why disputing parties reach agreement on joint oil and gas development fisheries and codes of conduct and when and why negotiations end in impasse It is the first comprehensive and theoretically informed study of decades long dispute settlement efforts in a central region of the Indo Pacific where the expansion of China challenges the law of the sea and regional security *From Empire's Servant to Global Citizen* Michael Belgrave,2016-12-01 The vision of two young scientists Massey University was established in 1928 to bring science to New Zealand s role as Britain s farm Massey has since become New Zealand s national and a global university with almost 140 000 alumni spread across 140 different nations This candid history looks at the university as it weathered war funding crises risk taking expansion and conflict with the government s plans for New Zealand s tertiary sector Written by distinguished historian Professor Michael Belgrave this is a lively look at how an agricultural college grew up to become a leading intellectual centre of excellence Jamaica International Monetary Fund.
